#### PROSPERITY.

They say prosperity is with us Is it? Yes, a homeopethic dose. First, what brought it? Inflation of the currency, largely, which the Republicans in 1896 told us would be dishonest and wicked beyond description.

Big crops at home; famine abroad.

For how many of these causes does the McKinley administration deserve credit?

Second, who gets the benefit of this prosperity? How is it divided? The Chicago Tribune of May 2nd last gave figures to show that Mr Rockefeller's share would be about \$75,000,000 for this year in addition to the millions he already possessed. What is the share that falls to other representatives of the plutocratic class?

Hundreds and thousands and millions of dollars of additional income; automobiles, private yachts, summer residences at Newport, trips to Europe, Belshazzar feasts. What is your share, workingman? Do you have a summer vacation with income undiminished and everything that money can buy? Can you, like Steel Trust Gates, go One of the Noted Women of Chito Paris and throw handfuls of
