

OUR TREATMENT OF CUBA AND PORTO RICO.

Extracts from speech of John F. Algood of Illinois before Yale University Democratic Club October 10.

"General Miles did not promise these people alms; he did not promise them charity—they did not ask charity. He said to them they should be citizens of the United States and have all the blessings that the American flag conferred on the American people. We have deprived them of even such local government as they enjoyed under Spain, and we are covering that island with American carpet-baggers, who are devouring their substance and eating their taxes. Even the money which we give back to them in the shape of alms is not handled by the Porto Ricans, but is handled by American carpet-baggers, who distribute it where they think it is most needed, and will do the most good; and owing to a slight defect of vision the carpet-bagger always feels that money is the most needed and will do the most good near home. It staggers one's credulity to read the list of American carpet-baggers filling thousands of official positions, created since we took possession. They cover that island and the island of Cuba like the frogs once covered Egypt.

"Last winter our people were indignant when they read in the great journals that our military officials of these islands were drawing double salaries, all wrung from those poor people. Since then there has been one scandal after another disclosed. The thousands of little, petty officials are drawing big salaries for performing no service. They are now regarded as established institutions. This is the condition we have brought those two islands to, and now men who are close to the administration, are solemnly declaring over the country that the American flag never shall be pulled down in Cuba. That notwithstanding the fact that the good faith of this nation is pledged to mankind to give those people their independence, that we do not intend to give up that country."

J. K. WEATHERFORD ON EASTERN POLITICAL SITUATION.

Hon James K Weatherford, of Albany, is very well known by not a few Lane county citizens as a man who does not easily get excited. His report on the political situation east of the Rocky mountains at a Democratic club meeting at Albany the other evening, as reported by the Democrat, will prove interesting, at least to the many who know the man:

"Hon J K Weatherford was present and gave a talk on his observations upon his recent trip east. Everything was ablaze with politics and there was speaking everywhere. In Minnesota there was great enthusiasm, 1100 delegates then returning to their homes from the state convention, confident that the state would go for Bryan. At Chicago at the national Democratic headquarters he found ex-Governor Stone in charge confident of Bryan's election. The indications in Chicago were emphatically Bryan for Illinois. In Chicago anywhere from 30,000 to 50,000, trusts, and imperialism everywhere, were driving men to the Democratic party. He passed through the coal region with its empty dinner pails.

"Incidentally Mr Weatherford made some strong arguments in favor of expansion only by the consent of the people, as has been our policy in the past, and not through force, taking in a people that can never be assimilated. We want a government resting on all the people, not on one man like Mark Hanna. It is an interesting fact that the cost of the Philippine war, \$225,000,000 a year, is more than the entire annual resources of the Pacific coast states, and is more than the \$187,000,000 spent in the United States annually for education, with nothing to show for it; and the seeds sown are seeds of destruction."

Leading eastern universities are taking steps to eliminate professionalism from college sports. Professional athletes take short courses, with nominal studies, and thus gain sufficient standing to entitle them to play.

Spotless Skin

And a clear complexion are desired by every woman and admired by every man. Eruptions, pimples and similar blemishes are caused by an impure condition of the blood. These skin blemishes are permanently removed by the use of Dr. Pierce's Golden Medical Discovery which thoroughly purifies the blood and cures the cause of the disease.

"For about one year and a half my face was badly broken out," writes Miss Carrie Adams, of 116 West Main St., Baticreek, Mich.

"I spent a great deal of money with doctors and for different kinds of medicine, but received no benefit. At last I read one of your advertisements in a paper, and obtained a bottle of Dr. Pierce's Golden Medical Discovery. Before I had taken one bottle of this medicine I noticed a change, and after taking three bottles I was entirely cured."

Free. The Common Sense Medical Adviser 1008 pages, is sent free on receipt of stamps to cover expense of mailing only. Send 21 one-cent stamps for paper covered book, or 31 stamps for cloth binding. Address, Doctor R. V. Pierce, Buffalo, N. Y.

HOMER DAVENPORT'S SPEECH.

The Great Cartoonist Tells of His Boyhood Days in Oregon.

Many persons in Eugene and Lane county know Homer Davenport, now of the Hearst newspapers of San Francisco, Chicago and New York, who formerly lived in Salem. He made a speech the other day before the Commercial Travelers' Anti-Trust League in New York. It was his maiden effort at a political speech, and he blushed at the ovation he received.

"I used to live in Oregon," he said, "and once when a boy I went to Silverton. There I saw the first man in my life who had on clean linen, a silk hat and a real diamond. He was a commercial traveler. Afterward, when I worked in a livery stable, it was the happiest day in my life when I got to drive a drummer through the country. I thought he was the biggest man on earth; there was only one man who, in my estimation, could equal him—that was the reporter.

"The commercial traveler is now on his deathbed, and he'll be buried shortly if the trusts continue. The good clothes, clean linen, silk hat and diamond are gone and hollow cheeks and hopeless looks have taken their place."

Mr Davenport told about his cartoon on the commercial travelers, showing that the trusts were crushing the life out of them.

"I did not appreciate," said Mr Davenport, "the tragedy of my drawing until I got a heart-broken letter from a widow living in Dayton, O, whose husband had sickened and died through being thrown out of work through the operations of the trusts. 'Did you draw that picture,' the woman asked, 'to paint our homes?'"

Hops Grow Wild in England.

It is a somewhat remarkable fact that the hop, although only cultivated in a few districts in a few English counties, yet grows freely in a wild condition in very many places, says the London Express. It is a perennial, flowering in July and August, and to be found in hedges and thickets. The plant is only cultivated, for instance, in the northeastern portions of Hampshire, and about Petersfield, and even there it does not cover 3000 acres in all. It grows and flourishes however in a wild state all over the country including the Isle of Wight.

The GUARD has received the first census report, it being that of Arkansas. It gives the population of every county, township and incorporated town. Little Rock is the largest city, having 38,307 people, an increase of 48 per cent in ten years. The next is Ft Smith, 11,687, an increase of only 276 in ten years, then Pine Bluff with 11,496, the only cities above 5,000.

HOPS SOLD.—T J McCulloch has sold to Horst Bros, E C Smith, agent, 19 bales of hops at 10 cents; A D Hyland, 200 bales to same parties, terms private; Noah Rhodes to same parties, 34 bales, at 13 cents.

Pneumonia always leaves the lungs weak. Weak lungs are breeding grounds for the germs that cause consumption. Chronic bronchitis also often follows pneumonia. If you have had pneumonia, the germs of consumption are at work. Don't let them get a foothold. Begin at once and take SCOTT'S EMULSION; it will drive out the germs by making the lungs stronger than they are.

University of Idaho Football.

Fred Herbold, of Eugene, is engaged coaching the University of Idaho football team at Moscow, Idaho. We give extracts from a lengthy dispatch to the Spokane Spokesman-Review, of October 4, regarding the coach and team:

"Great strides are being made by the football squad of the university under the tutelage of Coach Herbold, and the prediction is freely made that the team in charge of Manager L Smith this year will win more honors on the barred field than any that has ever represented the university. A trip through southern Idaho, swinging in with one to Walla Walla at the same time, is being planned. Games are to be given Weiser and Caldwell academies and the Boise Athletic club.

"Coach Herbold is proving himself a hard master of the men. His edict against dissipation he declares he will enforce, and tocooco and late hours will have to be relegated to the rear until the season is ended. His rigid training rules have been drawn up and signed by his team candidates.

"On the tour through southern Idaho the football men will be accompanied by Professor Henry's class in elocution. The class will present 'The Rivals' in each town where the team plays, giving performances on evenings after games are played. This trip will be a combined exposition of college sport and effective advertising of the educational advantages of the institution."

A Thousand Tongues

Could not express the rapture of Annie E Springer of 1125 Howard street, Pa, when she found that Dr King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure: "It soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding my praises throughout the universe." So will everyone who tries Dr King's New Discovery for any trouble of the throat, chest or lungs. Price 50c and \$1.00. Trial bottles free at W L DeLano's drug store; every bottle guaranteed.

Local Market

October 12, 1900. Butter—35 to 50c per roll. Wool—16c. Poultry—\$3 50 to \$4 50 per dozen. Dried prunes—3 to 5c. Flour—75c per sack. Oats—40 cents. Potatoes—60c, cash per 100 lbs. Eggs—25 cents. Wheat—50 cents. Hops—12 to 13c.

Christian Church County Convention.

The Christian churches of Lane county, will hold their regular annual county convention at Cottage Grove, Oct. 25-28th. It is expected that all the churches, Sunday schools, and Endeavor societies will send delegates to this convention.

The hospitable people of that city are preparing to entertain all who attend the convention.

Poultry Wanted.

Having just returned from my vacation I am located at the Rambler bicycle agency, Walton block, where I will pay the highest cash price for all poultry offered.

Chittim Bark Wanted

Take your chittim bark to W Sanders. Highest cash price paid. At Green's grocery store.

No Cure No Pay.

That is the way all druggists sell Groves Tasteless Chill Tonic for Chills, Malaria and Biliousness. It is as pleasant to take as lemon syrup. 50 cents.

BURNED TO DEATH.—Mrs Add Jane Darrah, 77 years old, and totally blind, was burned to death yesterday afternoon, while sitting in a chair by the fireplace in the home of her son, James Darrah, of Liberty, Marion county. As she was alone in the house, the origin of the fire cannot be definitely learned, but there is no doubt that the woman's clothing caught fire from the coals on the hearth.

INCREASE OVER LAST YEAR.—Portland Telegram: From present indications the output of young salmon at the Clackamas hatchery this year will be something like 2,300,000. This will be an increase of 300,000 over the output of last year, when about 2,000,000 small fish were turned out.

Another car load of Racine buggies also another car of Bain wagons at last year's prices.

F L Chambers. Mr Max Berg, of Warren, Columbia county, tells the St Helens Mist about the profits of dairy business. His herd consists of but 12 cows, but that number earns him \$50 per month throughout the year. This sum is Mr Berg's profit. Each cow returns a profit of \$3 per month over and above the cost of maintenance. The skimmed milk from the 12 cows produces \$5 worth of pork each month, besides 12 veals each year at \$5 each. Mr Berg figures that the butter his family uses is worth \$4 per month, hence this herd earns him at least \$50 per month.

The Hop Yield.

WASHINGTON, Oct 10.—The monthly report, issued today by the department of Agriculture, shows that the estimated average yield in hops in pounds per acre is 1,300 in Washington, 1,120 in Oregon, 1,200 in California, and 655 in New York. In the two first mentioned the yield is slightly below, and in the two last mentioned slightly above the average of a series of years.

Boise Man Missing.

SAN DIEGO, Cal, Oct. 10.—E W Wilson, a recent arrival from Boise City, Idaho, is missing, and his wife, who brought the news to the police station, fears that he has met foul play. He was well supplied with money, having about \$400 on his person, besides considerable jewelry, when he went away.

Appointments.

Following are the Divinity School appointments next Sunday: Halsey, E M Patterson. Brownsville, D C Kellems. Cottage Grove, F E Billington Wendling, D E Olson. Thurston, Harry Benton. Dexter, E F Beaudreau. Elmira, C R Moore. Smithfield, L A Green.

Kimball Tubular Pneumatic Pipe Organs

The Humphrey Memorial M. E. Church Organ at Eugene, Sold by F. A. Rankin.

F. A. Rankin, of this city, representative of the Kimball Company, Chicago, the Eilers Piano House, Portland, distributing agent, has received the following commendatory letter from the music committee of the Humphrey Memorial M E church, in which he recently placed one of the famous Kimball Tubular Pneumatic Pipe Organs.

"The committee were unanimous in its expression of satisfaction with the instrument, being particularly pleased with the voicing, the exquisite purity of tone, and the power and numerous combinations possible for an organ of its size. The artistic exterior of the organ also came in for its share of praise. Congratulating you for being able to furnish us with such a beautiful and complete organ, and assuring you that if the committee were thinking of buying a larger one, it would always be a Kimball Pneumatic, I remain, IRVING M. GLEN, 'Secretary Music Committee'

The Season's Delicacies breakfast, dinner or luncheon, in all kinds of hot weather foods in cereals, potted and canned meats, boned turkey and chicken, canned salmon, oysters and chip beef we keep at all times in stock of fancy groceries, fresh, high grade and appetizing. Ayer's Pills. Look at yourself! Is your face covered with pimples? Your skin rough and blotchy? It's your liver! Ayer's Pills are liver pills. They cure constipation, biliousness, and dyspepsia. 25c. All druggists.

Want your mustache or beard a beautiful brown? Use the BUCKINGHAM DYE for Whiskers.

Monopolizing Wheat Trade.

CHICAGO, Oct 10.—The shipments of grain by water from this port so far this season have been unprecedented, but just about the time the heavy traffic in cereals begins, the navigation will close and the railroads will get the bulk of the business. Shipments from here for the last month reached a total of 6,365,644 bushels. Vessel men say the largest for any month in 20 years. The greater part was from Kansas and the Southwest. Duluth and other ports have been doing practical nothing.

HOUSEHOLD GOODS.—Horse, spring wagon, etc, for sale. Call on C Washite, East 14th street, Eugene Ore.

FOR SALE.—Some thoroughbred Cotswold bucks; also some thoroughbred Durham calves. A J Cruzan, Pleasant Hill, Oregon.

LAND FOR SALE.—Seven hundred and seventy-five acres of land, one mile west of Creswell, a part of the W J Scott estate. Will sell the whole or a part. Address E F Scott, Creswell, Oregon.

Day & Henderson, Undertakers and Embalmers, Cor. Wil. and 7th sts.

And an excellent line of Men's and Boys' Suits and Overcoats.

J. V. KAUFFMAN.

Extraordinary Men...

Sometimes Nature is unkind. She allows a man to grow all one way or too little in any way—makes him taller or shorter or stouter or thinner than specifications call for.

Such men imagine they are hard to fit—they are in some lines of clothing, but not in C. & B. garments.

We make such men think they are not so hard to fit, after all. They change their minds as they change from the old suit to the new.

Everything is perfect fitting clothing for ordinary as well as extraordinary men.

P. FRANK & SON.

It's an odd shaped child or boy that we are unable to fit. Furnishing goods for men, boys and children.

THE BEST DAIRY IN THE COUNTRY

Furnishes us with our butter and consequently it is high grade in every respect and price, which is almost as low as that usually paid for inferior butter. There's a know-how in making butter as in almost everything else and our dairy people have the know-how as well as the purest and best of cream.
