

CYCLING IN SOUTH AMERICA.

The representative of a leading New York exporting house, who recently returned from South America, says that at present, as indeed has been the case for three or four years past, bicycling in that country is far and away the most popular of the outdoor sports. In the larger cities of Brazil and the Argentine the sport today is at the height of its popularity, and although the women there were at first somewhat in doubt as to the propriety of riding in public, they quickly followed the example of some of the social leaders, who boldly went in for the sport so soon as they had mastered their wheels, and now there are as many petticoats a wheel as there are knickerbockers.

DEWEY ON NEUTRALITY OF NICARAGUA CANAL.

Erection of fortifications would make the canal one of the prime objectives of our enemy's operations in time of war. Besides their construction would entail enormous expense and necessitate constant expenditure to keep them manned and in proper condition. I see no necessity for them. The neutrality of the canal can be guaranteed by our fleet. The canal is to be a commercial waterway, and neutralization therefore will mean its preservation.

A teacher in an Indian school in Michigan writes that the boys have a sense of humor. "In my flag drill last Friday the partners were a boy and a girl, and where the lines intersect to form the cross I taught the boys to let their partners go first, and hard trouble I had to do it, too. After the exercises Isaac Crane came up to me and, in his solemn way, said: 'Miss B, in letting the girls pass in front of the boys you have struck at the root of an Indian custom. I said, 'How so, Isaac?' and he answered, 'It is the custom for the man go first, carrying his dignity, and for the woman to follow, carrying everything else.'"

British yachtsmen interested in the new candidate for cup honors will not allow the yacht to be sailed the first time next Friday, the day on which she will be ready, but will postpone the first trial trip under canvass till Saturday. The captains aver they are not superstitious, yet see no sufficient reason for "tempting providence by starting her on her racing career on Friday."

Albany has some persistent litigants. A case was tried four times in the justice court without a verdict. The failure to agree was the result of directly opposite swearing by witnesses.

This Store Offers the Greatest Attractions to Economical Buyers

We don't mean by that that we quote smaller prices than any other store. To do so would be necessary to handle trash, and we won't offer trash to customers at any price. We do claim however, to quote relatively lower prices on thoroughly reliable and desirable dry goods than any other local dealer or city merchant. We never make an assertion of this kind in our advertisements without offering proof by quotation of prices. Those we quote below will prove profitable reading.
