her state tax payment. The county gets the money at five per cent.

A Washington county gopherhunter met his death the other day from the accidental discharge of the gun with which he had killed the rodents for years.

The Boston Transcript remarks that "there is one good thing about college degrees. No matter how many are bestowed there are just as many left, for the earning."

The pleasantries of Eastern states climate at this time of year was shown at Adrian, Michigan, yesterday, when a tornado swept a strip halt a mile wide through the town.

Natives of our new possessions are now serving under enlistment in either the army or the navy, but they only receive half the pay of native born or naturalized Americans.

The "forest rangers" will begin their pleasant task of a summer outing, under salary, next week. The way this weather puts things they will not extinguish many forest fires for some time to come. A very assepticuous graft on the national treasury!

of illegally collected duties have an their customers.

The leakage of the Columbia River may be imagined from the report that the Willamette is falling six inches a day at Portland. Of course the Columbia falls about the same rate. It is an immense out into the ocean.

while satisfying the demands of outraged law. out in Douglas county. After a report of nine cases of smallpox in the little town of Yoncolla had been made to the county judge, several of them in a very severe form, the dispatch concludes that "in all probability Judge Thompson will order a quarantine established at once." Why any
