### LETTER FROM IOWA

Literature to Advertise Our State and County Needed.

**THE HOT WEATHER.**  
DES MOINES, Iowa, July 17, 1901.  
EDITOR GUARD:—A few days since I met a gentleman from northern Iowa who was going to the Epworth League convention at San Francisco. He seemed anxious to know something about Oregon, and in the thirty minutes or so we traveled together I improved the time to the best of my ability. He knew all about California for he had written to the offices of the leading railroad companies for literature concerning the Coast, but all they had was California. Imagine a man knowing all about Mt. Shasta and nothing about Mt. Hood, the Three Sisters, the Willamette valley, etc.  
In coming to Iowa I traveled with a gentleman from Wisconsin, who had spent several weeks in Lane county and was going home well impressed with the country. Several of his neighbors think of moving to the Coast. Did that man have a line concerning Lane county to give to any of those prospective homeseekers? Not a bit of it. All I could give him was a copy of "Resources of Lane County," published by our "Immigration Committee," whatever that may be.  
Is it any wonder that people do not flock to Oregon in greater numbers? I know that this matter of advertising the state and county more thoroughly has been talked about, but to quote a hackneyed proverb, "talk is cheap." Whether this brief note will accomplish anything I do not know, but I have become tired of answering questions about the state and not being able to give any literature to back up my words and to carry their influence into wider spheres. I suppose many Oregonians away from home feel the same way and I believe I voice their feeling when I say that an impartially written description of Lane county placed in the proper places in the East will pay for itself time and time again in the class of people attracted there.  
The WEEKLY GUARD is now coming regularly and is eagerly read.  
This summer is one of the hottest ever known in Iowa. Corn is burning up in the fields. Hay and oats are being harvested and are a fair crop.  
Yours respectfully,  
JOHN HANDSAKER.

### COUNTRY FLOODED WITH BANK NOTES

Printed From Plates Thought to be Destroyed.  
WASHINGTON, July 22.—Chief Wilkie, of the Secret Service, has received a number of bank notes printed from the original plates used by the State Bank of New Brunswick, N. J., over 50 years ago. The bank went out of existence some time in the '50s and it was supposed that the steel plates from which its notes were printed were destroyed. It seems, however, that these plates have fallen into the hands of parties who have printed from them large quantities of notes which have been put into circulation from New York to San Francisco. A very large percentage of the notes so far discovered are two, although some ones and fives are being sent in.  
Inasmuch as the notes are not counterfeits of any United States notes or obligations of the makers and passers cannot be prosecuted under the United States laws, but it is said they can be punished for fraud under the state laws. It appears that the notes readily passed along the Canadian frontier as the takers think they are the notes of the Canadian Province of New Brunswick, the words "New Jersey" being printed in small letters. The notes are printed on bond paper and are quite as good in every way as the originals. It is said that possibly \$2,000,000 of these notes are in circulation.

### ANOTHER RICH STRIKE.

McCaughey's Morning and Evening Claim at Blue River.

**GOLD PLAINLY VISIBLE.**  
Daily Guard, July 23  
Word comes from the Blue River mines that another rich strike has been made in the district, this time on the Calapooia side of the mountain. The strike is in McCaughey's double claim, the Morning and Evening, being on both sides of the mountain. A tunnel extends 240 feet into the mountain from the Calapooia side and in this tunnel the strike was made.  
A 33-foot ledge of splendid quartz has been uncovered, the yellow metal plainly visible to the naked eye in most of the samples of quartz taken out.  
Considerable excitement has been caused by this latest find. Miners are flocking to the Blue River district in large numbers, and it is destined to become one of the most celebrated mining camps on the coast.  
The work of building the \$30,000 electric plant for the Lucky Boy mine commenced Monday and will be completed before winter.

### SALMON EVERYWHERE.

Largest Run Along the Columbia Since 1896.

**ANNERIES AND COLD STORAGE CROWDED.**  
Special to the GUARD.  
ASTORIA, Or., July 22; 3:03 p. m.—The run of salmon yesterday and today is the largest since the great season of 1896. Big catches are reported by every boat. All canneries and cold storage plants crowded to fullest capacity. Prices still remain at 6 to 7 cents per pound. At these rates the fishermen are making pocketfuls of gold. Business men are now happy.

### BLUE RIVER MINES.

**Mr Sparks, Proprietor of Blue River City in Eugene.**  
Daily Guard July 23  
S. C. Sparks, the proprietor of Blue River City, arrived in Eugene this forenoon, after a load of provisions. He says for a number of miners are going into the mines daily. His hotel is crowded to overflowing nightly and some guests have to occupy chairs and all available places in his barns. The rush is fairly on and new strikes in the mines are of daily occurrence.  
His saw mill is running steadily and getting out lumber for patrons and for his newly proposed hotel. A force of men will soon start up on the hotel and he expects to finish it this fall. He is starting to build a bunk house.

### Hot Weather in the East.

The following is from an Iowa paper just received:  
"Incubators will soon be a dead issue," said a clerk at the McRae butcher and egg house today. "The hot weather is taking the business all out of the hands of the setting hen and the incubator. Last Saturday evening we had proof of it in the store. One egg, resting peacefully in a case, suddenly broke and the chicken came out just as lively as though he had been expected for weeks. It was a cute little yellow fellow, and he is as healthy as the average chick born in such hot times."

"Some strange things have happened during the hot weather. The sun has been so hot that our cook didn't have to build a fire to cook dinner. All she had to do was to set it out in the sun and the cooking was soon finished. When a mule started to bray, the bray would melt before it left his mouth and run down his cheeks. You could see suits of clothes walking through the streets, not a thing in them, the man had melted out."

### More Trusts Forming.

If the trust formation continues the time is not distant when almost everything in the country will be controlled by them. Whether this would be beneficial to the country or otherwise, we are not prepared to state. There is one thing, however, that can never be controlled by a trust and that is good health. The best means of obtaining this is by the use of Hostett's stomach Bitters. This wonderful medicine continues to cure all stomach, liver and bowel troubles, the same as it has done for the past fifty years. If you are a sufferer from dyspepsia, indigestion, consumption, flatulency or nervousness, do not fail to give it a trial at once, as it will surely cure you. It will also prevent malaria, fever and ague.

### She Didn't Wear a Mask.

But her beauty was completely hidden by sores, blotches and pimples till she used Bucklen's Arnica Salve. Then they vanished as well as eruptions, fever sores, boils, ulcers, carbuncles and felons from its use. Infallible for cuts, corns, burns, scalds and piles. Gave guarantied. 25c at W. L. DeLano's.

### A Poor Millionaire

Lately starved in London because he could not digest his food. Early use of Dr King's New Life Pills would have saved him. They strengthen the stomach, aid digestion, promote assimilation, improve appetite. Price 25c. Money back if not satisfied. Sold by W. L. DeLano, druggist.

### A LIBEL.—Roseburg Plaindealer:

After praying long and earnest for her husband, a Eugene woman asked her pastor what more she could do to induce him to stay home at night. He advised adding to his home comfort something that he was enjoying away from home. The next day the woman was looking up the price of beer by the keg.
