SATURDAY.....AUGUST 17

One compensation that a hay fever victim derives from his affliction is that it wipes out all other troubles.

Of course Chinese are being smuggled in from British Columbia. And when they get among their countrymen as well try to pick out a particular pea from a bushel thereof.

After tomorrow at midnight Columbia River salmon will be allowed to go unsexed by nets to their spawning grounds. But cold storage plants will continue to furnish the delicacy to the market for a month or more.

Lord Roberts thinks army efficiency could be much improved by requiring the men to be "good shots." Therein the regulars lack the efficiency that marked our volunteers in the late war.

Another attempt to cross the Alps in a balloon is to be made this month. The first attempt failed, as the balloon was driven by a strong wind into French territory.

Philippine veterans are swapping experiences in Salt Lake City. The next reunion may be held in Portland, though Omaha was in the lead yesterday, the first day of the reunion.

According to the London Express the English importers of opium have been advised that rains have greatly injured the Turkish crop and that what there is of the drug has been "cornered" by American importers.

They have a heartless judge over at Seattle. He threatened to annul a marriage he had performed because the bridegroom could not pay the fee of \$5. The bride squared the account and made all things satisfactory.

That this is a big country with all kinds of weather is shown by the telegraphic news that a flood down in Arizona, Monday, took out five railroad bridges. It is not every country that can have an August flood.

"And did you find the Chinese a brave nation?" we asked of the returned soldier. "Indeed," he replied, casting a sidelong glance at the wagonload of loot which was being unloaded, "they were former worthy of our steel."—Baltimore American.

It is stated that 39,872 persons perished at the hands of homicides in the United States during the five years ending with 1900. The figures of punishment for the crime are not made up, but are known to be startlingly small.

J Pierpont Morgan, the great combiner, industrial despot, and railway king, is a Cleveland Democrat, a McKinley Republican, and a would-be reorganizer of the Democratic party on anti-Bryan lines. J Pierpont should stick to finance. He will fail in politics.

Officials of the United States Steel corporation say no quarter will be shown in the impending fight. Officials of the Amalgamated association say they will show no quarter to the magnates. It is evident that between the two forces no half way measure will be adopted.

Morgan, Schwab, Hanna & Co are desirous of controlling the entire industrial enterprise of the United States and are working to this end through the dominant political party. They are so exclusive in their business ventures that the American people will probably allow them to be equally as exclusive in their political concerns.

England is imitating the pension system of the United States. There is a bill in Parliament providing a scheme for pensioning the widows and orphans of soldiers who died in the South African war. This measure is being hastened in order to stimulate enlistments in the British army, which are now very slow.

A spring was found broken on the railroad car that was to carry the German crown prince to the funeral of the dowager empress at Potsdam yesterday, and a piece of iron on the railroad track. The leaven of discontent with the estab-

MOTHERHOOD

Is a natural instinct which shows itself in the girl as soon as she is big enough to play the mother to her doll. Unfortunately the womanly health does not always keep pace with the motherly instinct, and when

real motherhood comes it often comes to mothers who suffer intolerably during maternity and who are unable to nurse the weakling child which frets and moans in their arms.

Motherhood is prepared for and provided for by the use of Dr. Pierce's Favorite Prescription. It cures nausea, tranquilizes the nerves, gives a healthy appetite and promotes restful sleep. It makes the baby's advent practically painless, and gives the mother abundant strength to nurse her child.

Accept no substitute for "Favorite Prescription." There is nothing "just as good" for weak and sickly women.

"Two years ago I was very sick and began taking your 'Favorite Prescription,' writes Mrs. Ed. Hackett, of Chardon, Georgia, Ohio. 'When my baby boy came he weighed twelve pounds and a half. Have had good health ever since, until about two weeks ago, when weaning my baby, I contracted a heavy cold. Am taking your Golden Medical Newer. I am thankful that poor sufferers have such a grand chance to regain their health by using Dr. Pierce's medicines. It would take pages to tell the good it has done in our family, and in a great many more families under my observation.'

"I thank you for your kind medical advice." Dr. Pierce's Medical Adviser in paper covers is sent free on receipt of 21 cents in one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

lished order of affairs that penetrates the German mind may be conjectured from the statement that the officials believe anarchists were responsible therefor. In this country nothing would be thought of such trivial incidents.

The Yankee is proverbially thrifty, though no one would suspect that New Hampshire legislators would refuse to appropriate \$300 to purchase the farm on which Daniel Webster was born to save it from desecration. They did refuse and the trees under which the great logician played have been sold alone for \$2800 and will be cut into matches.

The official census returns, just completed, show the population of France to be 38,741,333, an increase in the last five years of 421,364. The increase is mainly in urban centers. Twenty-eight departments show an increase, and 59 a decrease. The census figures include the troops in China and the sailors of the navy and merchant marine absent from France March 24.

Henry Flagler, multi-millionaire Standard Oil magnate, has secured a divorce from his insane wife under the Florida statute that four years of continuous insanity is sufficient for a decree. Flagler is 72 years of age. Of course the old man wants a young wife, at least another, else he would not have committed the abomination. It is another case of "the old man in his dotage."

From all accounts the crop that is now being harvested is of the kind that delighted the early settlers. While the lands have been depleted by continuous cultivation without returning anything to the soil to replace that taken away, it appears that more intelligent farming together, probably, with favorable conditions from seeding time to harvest have produced a record breaking crop.

We hear of the fortunes made in mining but seldom of the losses. F E Cabell, a miner, of Granite, Grant county, has filed a petition in bankruptcy in the United States court at Portland. His liabilities are \$34,825.06, with no assets. The Cabell Mine was one of the richest in the country at one time, but the lead pinched out, and a fortune was unsuccessfully spent in trying to locate it.

After the manner of the governor of Missouri for breaking the drought, the governor of Pennsylvania might proclaim a special session of prayer for breaking the steel workers' strike. Yet the latter may be skeptical and answer as did Hotspur to the Welsh soothsayer chieftain in Shakespearean play. "I can call spirits from the vasty deep" asserted the Welshman. Hotspur retorted: "Yes, and so can I and so can any man, but will they come when called."

Call For County Warrants.

THE WALD HOUSE.—H C Haddon has retired from the management of the Wald House, and Fred Wald has again taken charge. Mr Wald is a well known restaurant and hotel keeper and no doubt will please his patrons. Mr Haddon has gone to Linn county where he is working with a threshing crew.

BEST FOR THE BOWELS

If you haven't a regular, healthy movement of the bowels every day, you're in all but the best of health. You're liable to feel nervous, irritable, and generally uncomfortable. You're liable to get constipated, and to suffer from indigestion, headache, and other ailments. You're liable to get sick, and to lose your appetite. You're liable to get old, and to die. So, if you want to keep your bowels in good order, and to feel comfortable and healthy, you should use Cascarets.

ANOTHER BRIAR POISONING.—J A Maurer, the jeweler, has been carrying his right hand in a sling for some time. About four weeks ago a small briar penetrated his hand, but nothing more was thought of it until the hand began to swell and become inflamed. It has been lanced and is now getting some better but is pretty sore yet. It is probably a similar case to that of Mrs L N Roney's wherein her hand was badly poisoned by a rose briar.
