GEO GROSS MISSING.

Probably Met With an Accident in the Mountains.

Daily Guard Sept 10
Word has been brought to Eugene that Geo Gross, who, with his wife, has been in the mountains on the upper McKenzie for several weeks, has been missing since Saturday morning. Mr and Mrs Gross were camped at Belknap Springs for some time and came down to Al Montgomery's place, on their way home, last Wednesday where they camped. Mr Gross desiring to visit the Blue River mines, left there Thursday, telling his wife that he would return to Montgomery's Saturday. Having visited the mines he spent Friday night at Sparks', at Blue River post-office, and started for Montgomery's, 12 miles down the river, Saturday morning on foot, with his rifle and dog. That was the last seen of him. It is thought that he left the road for the purpose of securing some game and met with an accident, probably falling down some steep precipice. It is not probable that he lost his way in the mountains, as there are numerous streams running into the river, any of which he could easily follow. It is said Mr Gross is subject to smothering spells and one of them might have strangled him while in the mountains. Mrs Gross came home soon after her husband left for the mines and was not apprised of his disappearance until last night. She is naturally very anxious concerning his safety and has the sympathy of her many friends.

WILL MAKE A SEARCH.

Mr Gross belongs to Eugene Camp Woodmen of the World. A number of the members met in the office of Attorney J M Williams this afternoon at 1 o'clock and decided to send a man up to organize a searching party to look for the lost man. George Fisher has agreed to go, but will wait until the stage from the McKenzie reaches Waverlyville so that if Mr Gross has been found the news can be telephoned to this city.

NO WORD FROM MR GROSS.

A telephone message from Waverlyville at 4 o'clock brings the information that Mr Gross was not on the stage and that no letter has been mailed to Mrs Gross. Mr Fisher left this evening at 5 o'clock in a light rig and will arrive there some time tomorrow morning.

SPRINGFIELD BRIDGE.

It Was Not Properly Constructed—Repairs to Be Made.

The county commissioners' court has ordered repairs made to the Springfield wagon bridge. A new floor will immediately be laid, the iron work scraped and repainted and an expert will be employed to examine the west pier which is badly cracked. It is thought by some that a new pier is necessary, but Judge Kincaid, in speaking of the matter this morning, said that L N Roney, who perhaps has built more bridges in the county than any other man, gives it as his opinion that to drive stout iron rods through the pier will strengthen it sufficiently. Judge Kincaid said that the representative of the Pacific Bridge Co who recently examined the bridge admitted that it was not properly constructed. The superstructure is merely resting on the edge of the pier, whereas it should extend to the center or past. The company which built it should have made such mistakes good, but of course it is not expected that they will.

Then the drive will be pushed down the river. In the river just above Fall creek is the drive of 1,500,000 of Mr Hills, to be delivered to the Springfield Lumber Co.

ROBIN AND TURPENTINE.—B F

Find, of Gate Creek, 30 miles up the McKenzie, arrived in Eugene this afternoon with a ton of rosin and 50 gallons of turpentine which he manufactured himself and which he disposed of in this city, the rosin going to the soap works and the turpentine to the drug stores. These products could be manufactured in large quantities in Oregon, the pine and fir timber being so plentiful.

A GOOD RECORD.—Castel & Son's

threshing, of Junction, finished threshing for this season last evening. It had continuous run of thirty days and threshed 49,500 bushels of wheat and oats, or an average of 1650 bushels per day. This is a splendid record for a new machine. What crew in Lane county equalled it, let us know.

HOME FROM ALASKA.

J W Cherry Has Returned After an Absence of Four Years.

J W Cherry arrived home this afternoon from Alaska where he has been for four years. He was among those who first went to that country when the gold excitement was at its highest and has been most of the time in the Forty-Mile country where, it is understood, he has some splendid mining properties.

Mr Cherry says that among the Lane county men who are in that country, J A Baler is at Dawson, Clarence Adams was at Circle City when last heard of, Andrew Babb owns some good properties and Chris Bartch conducts a wholesale meat market at Dawson and is doing well. Hugh Barr is at Nome City and will be out about the first of next month. Mr Hunt, another Lane county man, is with a surveying party over on Mackenzie river and he will go down that stream until he reaches the Arctic ocean. Mr Cherry saw Geo M Miller at Skagway the other day on his way home.

Mr Cherry thinks Alaska is a great country. There is plenty of gold there, he says, and he expects to return in the spring.

A POOR CROP.—Aurora Borealis, published in the largest hop district in Oregon, under date of Sept 7th says: The hopping season opened up in earnest Monday. Nearly all the yards in and around Hubbard that had not begun before began then. The crop will be about 50 per cent short of last year. On the same ground where 600 boxes were picked last year, only 300 boxes are being picked this year. The quality is good, but the hops are small.

Daily Guard, Sept 10

NO SECOND OPERATION.

Special to the Guard.

BUFFALO, Sept 10, 1:45 p.m.—Last night, which in similar gunshot wounds to that received by the President, is usually the crisis night when they result fatally, passed favorably. All the President's symptoms were favorable.

The physicians do not contemplate a second operation or inside dressing of the wound.

Special to the Guard.

BUFFALO, Sept 10, 3 p.m.—The physicians declare that this morning's favorable conditions continue.

President McKinley wanted to see the newspapers, but they were denied him through fear that they might cause excitement with the consequent quickening of an already too-rapid pulse. He inquired as to the opinion of the physicians regarding the time that he would be able to get up and about.

WASHINGTON, Sept 10.—Vice President Roosevelt has gone to Oyster Bay, Long Island, and Senator Hanna to his home at Cleveland, Ohio.

EMMA GOLDMAN'S MOVEMENTS.

ST LOUIS, Sept 10.—Emma Goldman, the woman agitator and anarchist, who it was thought had some connection with or previous knowledge of the attempted assassination of President McKinley, was in St Louis Friday.

The Goldman woman left St Louis for Chicago Saturday.

FOUNDRIES STILL SMOKELESS.

Special to the Guard.

PITTSBURG, Sept 10.—All attempts to resume work in the National Tube Works at McKeesport resulted in a complete failure.

The new employes were fearful of meeting with violence and flatly refused to leave the protection of their homes.

The streets about the iron works were thronged by the striking workmen.

FRENCH ANARCHISTS.

Special to the Guard.

PARIS, Sept 10.—A hundred uniformed revolutionists held a revolutionary meeting at Mont Cean last night.

Special to the Guard.

CHICAGO, Sept 10, 2 p.m.—Emma Goldman, the woman anarchist, was taken into custody by Chicago detectives today and held on suspicion of complicity in the shooting of President McKinley.

She disclaimed having any acquaintance with Czolgosz or even knowledge of the existence of such a person until after the shooting, and then only through newspaper reports.

She insists that she never advocated violence in the settlement of social and political questions.
