The Emperor had evidently arranged the entire ceremony with a view of impressing Prince Chun with the feeling that the ceremony meant explation for a foul crime, and that only through explation had Prince Chun acquired the right to be treated with princely honor. Not until after the ceremony quite an extensive fire has been raging did the atmosphere change. Then the band having played, Hussars escorted Prince Chun back to the Orangery. The imperial envoy seemed deeply impressed with the solemnity of the occasion, an when summoned to the throne room, he showed visible embarassment. He bowed repeatedly while approaching the throne, and his voice was agitated while he was read ing the imperial address. The entire manner of Emperor William was calculated to impress Prince Chun with the solemnity of the ceremonial. United States Government Gives a Diplomatic Warning That Security of Transit Across the Isthmus and Its Perfect Neutrality Must Not Be Menaced - Venezuela and Colombia Both Reply. Washington, Sept. 5 .- It is ascer-

retary Hay's recent visit to Washington, a telegraphic message was sent Colombia of the distress with which the President had heard of the likelihood of the disturbance of the relations between the two republics. Adverting to the possibility of the influence of the United States being exerted to compromise the pending questions, the Ministers were directed to say that, while the relations of this Government with both nations are equally intimate and friendly, and every opportunity is taken to show the good will we bear them, an offer of the President's kindly offices to arrange any differences which may exist between Colombia and Venezuela would be ineffective without the acquiescence of both. Nevertheless, inspired by the sentiments which are common to all the governments of the American republics, the United States would sincerely deplore a breach of the amicable relations between the sister nations of the Western world, and would especially regret any ac tion by either of them which might menace the security of transit across the Isthmus, or the neutrality of its territory, and thereby constrain the United States to consider its respon- HE WAS WOUNDED TWICE-NOT sibilities and functions under existing treaty engagements with Colom-
