A New Invention in Fog Signals.

A new method of signaling during fogs has been invented that will lessen the danger of collisions among ocean vessels, if it proves a success many serious disasters will be averted. It is well to heed signals of danger whenever they may appear, especially those that show there is something wrong with the stomach. Hostetter's Stomach Bitters should at once be brought to the rescue, as it will absolutely cure stomach, liver and kidney troubles. There is nothing to equal this medicine for dyspepsia, indigestion, constipation, flatulency, biliousness, insomnia or nervousness. It has been before the public 50 years and its superiority is firmly established. If you are a sufferer from any of these complaints do not fail to give it a fair trial.

The mayor was Hon. T. G. Hendricks.

The Sisters' School.

The Academy of Our Lady of Victory began its sessions last Monday with a good attendance, larger than at the opening of school for several years. Students are expected to enroll in larger numbers, however, after hopping and this year promises to be one of the most prosperous ones in the history of the institution.
The new building recently purchased by the Sisters—the Dorris residence—is now occupied, it being used as a dormitory for the students from out of town.
The school is better prepared than ever before to give thorough instruction in all branches taught there. A new music teacher of much ability who has met with success in teaching at Portland has been secured, and a new and improved method of book-keeping is taught this year, the same books that are used in practical business affairs being used by the students.
The sisters have received several applications for boarders at the boarding school from Roseburg, Acme, Leaburg and other points.

AT THE UNIVERSITY.

Students Presenting Their Credentials Today.

REGISTRATION BEGINS FRIDAY.

The University of Oregon opened this morning for the beginning of the 20th session of the institution. The day has been devoted to examining the credentials of new students to ascertain if they are entitled to enter the University, and registration will not begin until Friday, there being no work tomorrow on account of the observance of the funeral of President McKinley.

When called upon by a reporter at his office in Willard Hall this morning, President Strong stated that he thinks the attendance this year will considerably exceed that of last year which was 391 in the various departments.
With the increase of several new instructors in the faculty and with the better facilities at hand this year the work of the University will be of a higher grade and more thorough. The graduate school will be better than ever before and the work will be more advanced and of a more technical character.
Especially has improvement been made in the chemical and mining department. Over \$7000 have been spent for equipments for this department and it is now one of the best on the coast.

The several new instructors in the University are as follows:
Professor Herbert C. Howe, assistant professor of English literature, is from Cornell university and was private secretary to President Schurman of that institution who was a member of the Philippine commission.
Professor Edwin D. Reesler, assistant professor of education, is well known to all Eugene people, having been superintendent of Eugene's public schools the last several years.
Dr. Charles W. M. Black, instructor in mathematics, is from Harvard and received his doctor's degree last June.
Richard H. Dearborn, instructor in electrical and mechanical engineering, is from Cornell with the class of 1900.

Death Stood Off.

E. B. Monday, a lawyer of Henrietta, Tex., once fooled a grave-digger. He says: "My brother was very low with yellow fever and jaundice. I persuaded him to try Electric Bitters, and he was soon much better, but continued their use until he was wholly cured. I am sure Electric Bitters saved his life." This remedy expels malaria, kills disease germs and purifies the blood; aids digestion, regulates liver, kidney and bowels, cures constipation, dyspepsia, nervous diseases, kidney troubles, female complaints; gives perfect health. Only 60c at W. L. DeLano's drug store.

Private.

If you are not a farmer don't read this. It will do you no good. But Moon has a line of plows, harrows and discs of all kinds and sizes. Parlin & Grandoff's famous line of Canton Clipper goods, superior drills, Weber and Fish Head wagons, several new big rigs, etc., which are to be sold at 1/2 price of business on Ninth street at bargain prices.
This statement is bonafide and in earnest. I intend to close out these goods with a view to handling feed and seeds only.

THE DEAD PRESIDENT.

HIS BODY REACHED HIS OLD HOME TODAY.

GREAT DEMONSTRATION.

Special to the Guard.

CANTON, Ohio, Sept 18.—The funeral train was met everywhere by thousands of people all along the route. However the climax of the demonstrations was reached when the train passed Alliance, Ohio, from which place to Canton the people were massed on both sides of the track continuously, a distance of over eighteen miles. As the train sped along the people stood with uncovered and bowed heads. It is impossible to estimate the number of people there massed. No similar demonstration was ever known in the history of the world. Many of the people knew the dead chieftain personally and strong men, women and children wept. It was a magnificent tribute to one whom they loved and honored.

The casket upon arriving here was borne to the courthouse for funeral services.
Mrs. McKinley went to the old home and was soon asleep.

ALL ACCEPT.

Special to the Guard.

WASHINGTON, D. C., Sept 18.—The entire cabinet has accepted re-appointment at the hands of President Roosevelt.
FRANCE AND RUSSIA.

Special to the Guard.

DUNKIRK, France, Sept 18.—President Emile Loubet, of France, and Emperor Nicholas II, of Russia, met here today and reviewed the troops, after which they proceeded on their journey to Paris. The Czar was received by the French troops and populace with great enthusiasm. France seems to be on fire. She greets her ally with more than open arms. The Czar, of all the Russians, is delighted with his magnificent reception.

BANK ROBBED.

Special to the Guard.

BLOOMING PRAIRIE, Minn., Sept 18.—The bank at this place was robbed of five thousand dollars last night. No arrests.

BAIL PLACED AT \$20,000.

Special to the Guard.

CHICAGO, Sept 18.—Emma Goldman, the female anarchist, who is charged with complicity in murdering President McKinley, was arraigned in court today, a large crowd being present. She was cool and collected. Her bail was placed at \$20,000, and being unable to secure that amount she was removed to jail.

A Night of Terror.

Daily Guard Sept 18.

A DRAMA AND A BALL.—At the regular business meeting of Co. A, held in the company room at the armory last night, it was voted to give another military drama this winter and to engage the drill hall for a grand ball to be given by the company on the night of January 1st, 1902. Committee will be appointed later on to arrange for these affairs. The drama given last winter by the company, "The Confederate Spy," was a success in every way and the company feels that the success can be repeated this year. The ball will probably be a masquerade.

Beware of Ointments for Catarrh That Contain Mercury

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists, price 75c per bottle. Hall's Family Pills are the best.

THE FOOTBALL OUTLOOK.

The outlook for a successful season of football is bright. While the Varsity lost some of its best players by graduation, a large number of husky new men, some of whom have had experience while others with good training will develop into splendid players, have arrived and, together with the old players, another crackerjack team should be had.
Coach Smith of Berkeley will arrive about Sept 25th and immediately put the men to work.
The football team will not go to California this year but a series of games with Multnomah Club, with the universities of Washington and Idaho and with other Northwest schools, including Pacific university at Forest Grove, Agricultural college at Pullman, Wash; Whitman college at Walla Walla, Wash, and probably the Chemawa Indian team will be played. The Freshmen will also probably play Portland academy again.
Yesterday in Portland Manager C. A. Redmond, Assistant Manager John Redstone and Capt. Fred Ziegler met and arranged the schedule of games for the season. Two games will be played with Multnomah Club, one in Eugene on November 2nd and the other in Portland on Thanksgiving day.
