In Use For Over 30 Years.

LANE COUNTY'S SHARE.

State Taxes Will Hereafter be Levied Under the New Law, -- The Percentage Plan.

state taxes. Multnomah county dustrial race. She also has the cent.

State taxes are not now levied as formerly. A new law provides for making the levy on an entirely different principle. It was formerly the custom to levy a percentage on the total taxable property of the county. Until 1905 the levy is based on the average valuation of taxable property for the past five years, and by this method for the current five years Lane's share of the state tax will be as given above.

After that, each county's share will be figured on the average expenditures, roads and bridges excepted, during the current five years. That is, the expenditures of all the counties will be added together and each county's share will be the proportion that each bears to the whole. As this proportion is, so the state tax of each will be figured. It remains to be seen whether or not the new scheme will be popular.

DOCTORS WERE IN ERROR. bidders who secure contracts and

Much discussion has occurred over the apparent lack of knowledge possessed by the eminent physicians who attended President McKinley, regarding the seriousness of the case.

"In brief, the official reports put the doctors on record as having affirmed the fact positive that the kidneys and stomach had not been injured, that there was no trace of blocd poisoning, that the bullet wounds had healed nicely, and their patient was out of danger. At the same time Dr. McBurnez and his associates gave out the misinformation that 'the,' holes in the president's stomach proper caused by the perforation of the bullet are now considered healed,' And so firm was this conviction that the physician gave their patient a breakfast of chicken broth, toast and tea. But the autopsy proyed and also revealed the surprising fact that 'the tissue around each bole had become gangrenous,' and the flesh along the course of the China until it is no wonder that ating the affections of his wife. Railway Project for Bohemia

MAY ALSO BRING A SMELTER.

Mining District.

Oregonian, Oct. 15. President P J Jennings, of the Helena and the Musick Mining & Milling Companies, of the Bohemia district, announces that arrangements have been completed for building a railroad from Cottage Grove, southeasterly, a J H Booth receiver of the Roseburg distance of 35 miles through a region of heavy timber to the Bohemia mines. It is expected that construction work will be commenced this fail and that about half the track will be laid before spring. Connected with this, though not yet wholly arranged for, is the project of building a smelter, either at Pertland or in the Bohemia mining HW Dunn and L C Skeels are on district. The smelter enterprise is expected to follow the completion of the

work is easy. We have \$500,000 assured for the railroad, largely on the basis of the mineral richness of the district as Miss Emma Saltzman returned last shown by developments already made. smelter, but there would be no use for | nery. Mrs H J Austin left this afternoon the smelter without the railroad, so the order. I have not a doubt that the H S Lamb '02, of Tillamook, arrived smelter will be provided when we are yesterday to resume his studies at the ready for it. The field is too important to be neglected and the problem of ore, fuel and fluxes practically solves itself here.

The money for the railroad enterprise will be supplied by Eastern capitalists

Russell Kimball, of Red Lodge, Mont, one of the two engineers who will have rived, and Engineer A B Wood, of Tacoma, the other partner in the survey, L C Rinehart and family arrived will arrive in Portland Wednesday. a crew Thursday morning, and will S R Douglas, Barney Paine and immediately take the field.

A TIP-OVER .- It seems that the team of M J Calloway, the delivery man, has a penchant for running away. Yesterday afternoon about 3 o'clock, while the driver was unloading a keg of nails at the cannery, the horses became frightened and started to run, but only went a ew yards when the whole outfit as it crossed the railroad track turned completely over, the horses being unable to regain their feet. With difficulty everything was arighted but it it was found that considerable damage was done to the waten and a new top will have to be made. Luckily there were only three packages in the wagon.
