THE CENTAUR COMPANY, NEW YORK CITY.

**WILL TRY NEW GRAINS.**

Industrial Agent Judson is sending out to farmers along the Southern Pacific lines in Oregon a large number of specimens of grain, with the object of introducing better varieties than are now grown in the territory. The new grain comes from all parts of the world—from Europe, Asia, Africa, South America and Australasia, not to mention other grain sections of North America. There are 90 varieties of wheat, about 30 varieties of barley and about 20 varieties of oats. Several thousand bushels will be distributed among farmers who will take an interest in properly cultivating them. Of course, the distribution is free, but the supply is necessarily limited, and only those who can give the grain proper attention will be supplied. It is expected that most of the new grain will not show great improvement over the varieties now grown, but if there be only one or two marked improvements over the present varieties in each species of grain, the object aimed at will have been accomplished. And it is possible that such improvements may be found as will entirely change the agricultural situation in Western Oregon.

The grain thus sent out for trial in Oregon has been gathered from all quarters of the world by the assistance of the Department of Agriculture at Washington. The work of cultivation, to ascertain its adaptability to the conditions prevailing here, is undertaken by the railroad company, in harmony with the State Agricultural College, the two agencies working together for the general good of the state. Reports will be required from each parcel of seed sent out, as to the natural conditions, the amount of cultivation bestowed, and the results. It may be also that those who successfully grow this grain will be asked for seed for still further distribution.

**SAN FRANCISCO BARBER SHOP RULES.**

The San Francisco Board of Health has adopted sanitary regulations for barber shops. The restrictions are very severe, and will apply to every barber shop in the city. Health Board inspectors will visit the shops regularly and report any violation of the rules. Here are a few of them:

The place of business, together with all furniture, shall be kept at all times in a cleanly condition. Floors or worktop should be swept or brushed dry, but must be mopped up with an antiseptic solution, preferably a solution of corrosive sublimate.

Mugs and shaving brushes shall be sterilized by immersions in boiling water, 3 or 5 per cent formalin solution, after every separate use thereof.

Razors shall be wiped with 95 per cent alcohol before and after being used on any person.

Barbers shall keep their finger

nails short and clean. The use of powder puffs are prohibited. Instead use clean towels or absorbent cotton.

The use of sponges are prohibited.

Every barber shop shall be provided with running hot and cold water.

A separate clean towel shall be used for each person.

Every barber shall cleanse his hands immediately after serving each customer.

The Marshfield Coast mail takes time to remark that "with eggs 40 cents a dozen, butter 45 for a 24 oz block, and spuds \$1.00 per bushel, there is not much danger of Coos Bay ranchers migrating."

Australia yachtsmen have an idea that they want the America cup. John Bull has made so many failures that it might be well for him to deputize his offspring of the Asiatic Pacific to make the next attempt to wrest the coveted trophy from Uncle Sam.

Because a Seattle telephone girl was pert and impertinent, and refused to connect a subscriber to the fire department when he wanted to give notice of a fire, a loss of \$60,000 was incurred, and now the telephone company is being sued for damages by the person refused services and by the insurance company which suffered the loss.

Millers from all over the Central West are in Washington to renew their old fight for legislation that will prevent the railroads from unjust discrimination against flour in favor of raw wheat. The rates now in force give about six cents per hundred weight advantage to the flour, thus enabling British millers to import our wheat, grind it, and send it back to compete in our own markets with the home ground product.

The total number of copies of newspapers printed throughout the world in one year is estimated at 12,000,000,000. To print these requires 781,260 tons of paper. The oldest newspaper is said to be the Kin-Pan of Peking, which has been published continually for over 1,000 years.

Another Alaska official has gone wrong—an Oregon appointee. That territory is so far away that government officials who happen to hold office there seem to think that they can do as they please, but they find that the arm of the government is very long and can reach them in the far, frozen North as readily as at home.

Portland has passed three nights without a hold-up. The Telegram thinks it probable that the lone highwayman, whom it holds responsible, has changed his "diggings." Perhaps the results were so slim that he concluded to seek a place where there was a freer circulation of money.

There are 118 students registered at Albany college.

Miss Maggie Calloway is assisting at Hemmond's cafe.

Elmer P. ... is employed in G. ... hardware Co's store for a few days.

The south side of the ... Matlock building is being repainted.

The farmers state that the ground is too dry for plowing and a good rain would be acceptable.

J. F. Pritchard, the Springfield jeweler, has moved from J. W. Stewart's store to the building adjoining.

The Wiedemann Company, which played at the Parker a week last spring, is now filling a two weeks' engagement at the Metropolitan theatre in Portland.

Miss Laura Jones, formerly of the Drain Watchman, has accepted a position as city editor and solicitor on the Reburg Plaiddealer. A good selection.

Rev. Robt. A. Copple, a former Divinity student, is now pastor of the Christian church at Pendleton. The church is soon to erect a 1,000 building.

The Trowbridge piano, won by the High school in the recent contest, was hauled from Morris & Craw's piano house to the school building this morning by Drayman Hubble.

Henry Harper, little son of Mrs. James Harper, living at Third and Mill streets, fell from a walnut tree Friday evening and dislocated his right wrist. Dr. L. W. Brown attended the injury.

E. W. Bingham, the well known Portland attorney, yesterday fell from a window of his office to the sidewalk below, about 20 feet. He is probably fatally injured.

High School won.

A Majority of More Than 200,000 Votes Over the K of P.

THEY DESERVE THE PRIZE.

The High School was an easy winner in the Trowbridge piano contest. The count of votes was finished this morning at 11:30 o'clock and the result shows the High School to have over 200,000 votes more than the Knights of Pythias.

Following is the result of the last count:

High School.....426,761  
Knights of Pythias.....290,281  
The total vote for each was as follows:

High School.....527,042  
Knights of Pythias.....322,613

High School's majority.....204,429

Besides these two organizations 50 or 60 other organizations, societies and individuals were voted for during the progress of the contest but no serious effort was made to compete with the two leading contestants.

This contest was started last night after the Kimball contest was started in June and was conducted by 25 of the merchants of this city. As on the other, for each 25-cent purchase one vote was given out.

The tickets necessary to conduct the contest, numbering over 150,000, were all, with the exception of 2,000 or 3,000 printed by the GUARD.

The school deserves the prize. The students have worked hard for it, and it will be a great convenience to them at their concerts and other social functions.

**BREVITIES.**

There are 118 students registered at Albany college.

Miss Maggie Calloway is assisting at Hemmond's cafe.

**SELL IN LONDON.**

**Oregon Hopgrowers Pool Their Product.**

9 CENTS PER POUND ADVANCED.

Woodburn, Or., Oct 21.—A special meeting of the Oregon Hopgrowers' Association was held in this city this afternoon at Remington's opera house. President W. H. Eagan and James Winstanley, secretary of the association, were present, besides a fair representation of growers from Marion, Polk and Yamhill counties. Over 5000 bales of hops were represented by those in attendance.

A contract was made by M. H. Duret, an extensive grower of Wheatland, Ore., who has been acting as salesman for the Duret yards during the past eight years, to advance to the growers of the association 9 cents per pound, without recourse upon the growers, for a minimum of 3000 bales. He and a representative member of the association, to be selected by those growers, will accompany the hops to London to make a sale of the pool. The growers were unanimous in their approval of this contract and the officers of the association believe that Duret's contract will be accepted to the extent of 15,000 to 20,000 bales of Oregon's choicest product. Prominent growers present were: Cooper, Burton, Rider and Taylor, of Independence; Crabtree and Wood, of Yamhill; M. L. Jones, Francis Teller and White Bros., of Marion. Buyers manifest great anxiety as to the result of this extensive pooling of hops.

**HIGH SCHOOL WON.**

**A Majority of More Than 200,000 Votes Over the K of P.**

THEY DESERVE THE PRIZE.

**Commissioners Court.**

General Opinion That It will Be Built Soon.

SURVEYORS AT WORK.

Special to the board.

COTTAGE GROVE, Oct 21.—Lots of railroad talk in this town since the surveying party arrived last week. This morning they drove the first stake between the Southern Pacific depot and Long's store, and started northward through the Joe Perkins place. People generally think the road will go through, as the immense timber interests of the Booth-Kelly Co and others on Row River and Mosby Creek are sufficient to make business for a road from 15 to 20 miles in the direction of Bohemia and those who are in a position to know, disclose that there is paying ore enough in Bohemia to justify a road being built there to carry in supplies and bring out concentrates. Even the chronic kicker is silent today.

NEW WATER WORKS.

Water has been turned into the pipeline from the new reservoir west of town and the head is so much higher that water overflows from the old reservoir east of here. We now have an abundance of pure water from a never-failing source. It puts the town \$10,000 in debt, but at the present consumption will pay for itself principal and interest in a few years. It is no gain.

Condon Globe: Ches Bunnett, a pioneer of Oregon, who resides on Lane county, is here visiting his old friend, G W Rinehart. Mr Bunnett came to Oregon in '53 and was one of the party who took what is called the cut-off route via Harney Lake. The party suffered untold hardships but finally reached the Willamette valley with the loss of only one man. Mr Bunnett has been visiting his son, James Bunnett and other relatives at Lone Elk.

**For Sale.**

50 acre tract of land 15 miles west of Eugene in Nott valley. Partly improved. Good spring water good soil and good timber. Near school. Price \$275 cash or \$75 on easy terms. Address H F LANGRISH, K'owa Colorado.

**Hemlock Bark Wanted.**

Wanted, 500 cords of hemlock bark, \$10 per cord. Enquire at the tannery.

W W HATHES & Co.

**Goats for Sale.**

Twenty-five goats, 1 to 5 years old for sale. Inquire or address C M STEPHENS, Eugene.

FOR SALE.—Seed oats, feed oats and bait hay.

A BOND & SON, Irving, Or.
