

Salt Rheum

It may become chronic. It may cover the body with large, inflamed, burning, itching, scaling patches and cause intense suffering. It has been known to do so.

Do not delay treatment. Thoroughly cleanse the system of the humors on which this ailment depends and prevent their return.

The medicine taken by Mrs. Ida E. Ward, Care Point, Md., was Hood's Sarsaparilla. She writes: "I had a disagreeable itching on my arms which I concluded was salt rheum. I began taking Hood's Sarsaparilla and in two days felt better. It was not long before I was cured and I have never had any skin disease since."

Hood's Sarsaparilla Promises to cure and keeps the promise. It is positively unequalled for all cutaneous eruptions. Take it.

A Favorite Spot. Miss Dumas (disguised).—This is the sixth jug I have hooked into and pulled up.

Mr. Bertwhistle (confidently).—Good! That shows that this must be a pretty fine place to fish.—Brooklyn Eagle.

There is more catarrh in this section of the country than all other diseases put together. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, have proven that it is a constitutional disease, and therefore requires constitutional treatment. Hood's Sarsaparilla, made by F. J. Cheney & Co., Toledo, Ohio, is a powerful constitutional cure on the market. It acts directly on the blood and cures the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. Cheney & Co., Toledo, Ohio. Full Family Pills are the best.

Seek Protection from Extortion. Eight hundred residents in South London have joined a tenants' protective league, started a few weeks ago, to enable weekly tenants to combine for self-protection against the extortionate and illegal demands of landlords and rate collectors, and for provision of the necessary legal assistance.

Fare Blood, Beautiful Complexion. To have in health is impossible without the skin, and the best, quickest, easiest blood purifier is Carter's Little Liver Pills. All drug stores, 10c, 25c, 50c.

An Insuperable Obstacle. "What foolish things they do say about the Rockefeller fortune. Here is someone who claims that if it was in \$1 bills it would encircle the earth."

"Well, wouldn't it?"

"Of course not. How would you get them across the ocean?"—Cleveland Plain Dealer.

Time proves all things. It has seen Wizard Oil cure pain for over forty years. Many people know this.

A Pennsylvania Giant. William Lippincott, the heaviest man in Bucks county, Pennsylvania, weighs 475 pounds, but offers to out-dance any man who will try conclusions with him on the waxed floor. Not long ago he allowed a young man to hit his hardest where his (Lippincott's) waist should be. The young man broke his arm.

Wanted. Every man, woman and child suffering from colds, asthma, croup, pneumonia or any other lung trouble, should take American Lung Balm. Putnam Co., Chautauque, N. Y.

A Luxurious Traveler. Cecil Rhodes never does anything by halves. When he came over to England by the fast mail from Africa, besides other specially provided comforts, he was accompanied by his own chef, his own poultry and his own cow.

Easy. "Which would you rather, Tommy, be born lucky or rich?" asked Uncle Tredway.

"Both," replied Tommy, sententious.—Detroit Free Press.

Of Course. "Is that Mrs. Brown of Boston?"

"I dunno her name, but she's Boston bred."

"Then she's brown, of course."—Cleveland Plain Dealer.

Outlet for Much Fresh Water. The Detroit river is the outlet of the world's largest body of fresh water in the world, aggregating 32,000 square miles of lake surface, which in turn drain 125,000 square miles of land.

Under Control. The Count—Your daughter, madam, says she is perfectly willing to have me.

The Mother—Yes; she is very dutiful.

The diseases most feared are those which are inherited—passed down from generation to generation, and family to family. By far the most destructive of these is Cancer, which finds the greatest number of its victims among the children and grandchildren of those whose blood was tainted with this dreadful malady. You may carry this poison in the blood for years, but as the vital powers begin to wane a slight bruise or cut, wart or mole, sore or simple may develop into Cancer. From middle life to old age is the time when the insidious poison is most apt to break out, as a sore or ulcer often degenerating into Cancer, and Tumors become more progressive and ulcerate through the skin, the sharp, shooting pains causing the most intense suffering.

The Cancer patient naturally grows despondent as one after another the usual remedies fail, and the sore shows no sign of healing. The impurities that have been accumulating in the system, perhaps for generations, cannot be eliminated nor the poisoned blood made pure by salves, washes and plasters. The proper treatment is to purify and build up the blood, remove the cause, when the sore or ulcer heals.

Mr. J. B. Arnold, of Greenwood, S. C., writes: "A tiny cancer came, just as the left eye began spreading, and grew worse rapidly, destroying the eye as it went. As Cancer is hereditary in my family I became thoroughly alarmed, consulting the best physicians and taking many blood medicines, none of which did me any good, when one of our leading physicians advised me to try S. S. S., and by the time I had taken the second bottle the Cancer began to show signs of healing, the discharge grew gradually less and finally ceased altogether, the sore dried up and nothing remains but a slight scar. I feel that I owe my life to S. S. S."

Wait until the blood is so polluted and the system so thoroughly saturated with the poison that no medicine, however efficacious, can check the progress of the disease. If there is a taint in your blood get it out at once, don't wait for some external evidence of it, the appearance of a tumor or ulcer. We have prepared a special book on Cancer which will mail free. Our physicians are ready to help you by the advice and direction as your case requires. Write for it today.

The Change of Life

Is the most important period in a woman's existence. Owing to modern methods of living, not one woman in a thousand approaches this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms.

Those dreadful hot flashes, sending the blood surging to the heart until it seems ready to burst, and the faint feeling that follows, sometimes with chills, as if the heart were going to stop for good, are symptoms of a dangerous condition.

Mrs. Jennie Noble. "I was a very sick woman, caused by change of life. I suffered with hot flashes, and fainting spells. I was afraid to go on the street, my head and back troubled me so. I was entirely cured by Lydia E. Pinkham's Vegetable Compound."—Mrs. Jennie Noble, 5019 Keyser St., Germantown, Pa.

Poor Child. "You've got a little brother," said the nurse at breakfast. "He was born last night."

"Really," said Tommy. "And last night was Sunday. Poor kid!"

"Why do you say that?"

"Cause his birthday won't do him any good. Sunday's a holiday, anyhow."—Philadelphia Press.

A Waste of Hospitality. Mrs. Hermitage (of Drearydale)—I believe I will invite the Grahams out from the city to spend Sunday with us. Hermitage (hopelessly)—What's the use, Mary? They don't want to buy a suburban cottage.—Boston Journal.

Accounting for It. "It may be merely fancy," remarked Mrs. Seldom-Holme, "but since my husband commenced drinking the water from that iron spring he has seemed to be ten times as obstinate as he used to be."

"Perhaps," suggested Mrs. Nixdoor, "the water is tainted with pig iron."—Chicago Tribune.

What Did She Do? Miss Prism—Don't let your dog bite me, little boy.

Little Boy—He won't bite, ma'am. Miss Prism—But he is showing his teeth.

Little boy (with pride)—Certainly he is, ma'am; and if you had as good teeth as he, you'd show 'em, too."—Tid-Bits.

Not So Bad. Mrs. Housekeeper—Oh, Bridget, you haven't really broken that piece of Sevres? Oh, my! That's the worst thing you could have broken in the whole house!

Bridget—Faith, O'm glad to hear it wasn't the best, mum!—Philadelphia Press.

Thrown from His Cab and Killed. The following is a most interesting and, in one respect, pathetic tale: Mr. J. Pope, 42 Ferrar Road, Streatham, England, said:

"Yes, poor chap, he is gone, dead—horse bolted, thrown off his seat on his cab, he was driving and killed—poor chap, and a good sort too, mate. It was him, you see, who gave me that half bottle of St. Jacob's Oil that made a new man of me. 'Twas like this: me and Bowman were great friends. Some gentleman had given him a bottle of St. Jacob's Oil which had done him a lot of good; he only used half the bottle, and remembering that I had been a martyr to rheumatism and sciatica for years, that I had literally tried everything, had doctors, and all without benefit, I became discouraged, and looked upon it that there was no help for me. Well, said Pope, you may not believe me, for it is a miracle, but before I had used the contents of the half bottle of St. Jacob's Oil which poor Bowman gave me, I was a well man. There it is, you see, after years of pain, after using remedies, oils, embrocations, horse liniments, and spent money on doctors without getting any better, I was completely cured in a few days. I bought another bottle, thinking the pain might come back, but it did not, so I gave the bottle away to a friend who had a lame back, but it did not, so I highly of this wonderful pain-killer."

An Uncalculating Hero. Helen—Oh, he is not at all mercenary.

Alice—But he doubtless knows that you are worth two millions.

Helen—Yes; but he says he would love me just as much if I wasn't worth but a mile and a half.—Judge.

A Real Wonder. Bill—Have you seen that woman lightning change artist at the theater?

Jill—No. Is she good?

Bill—Great! Why, she puts on her bonnet in less than fifteen minutes.—Yonkers Statesman.

Another Trade by David. The gentleman known as David Harum stopped the deacon on the road.

"Deacon," said David, "I'll give you a dollar for my sorrel mare for that black colt you're driving."

"Done," said the deacon.

Pliny's Time. Pliny's time of Pliny silk was supposed to be a vegetable product and was called "History" because it was made from the way in which it was raised from trees in the East Indies and woven into fabrics.

SEATS OF MONARCHS.

King Edward and Czar Nicholas Have Several Royal Chairs.

Great Britain has no distinctive and exclusive throne. Instead, there are four—the wooden chair, with the slab of Scotch stone, in Westminster Abbey, which has served as the coronation seat of the monarchs of this realm for seven centuries; the sumptuous chair of state in the House of Lords; the chair on which the late Queen sat when holding a drawing room in Buckingham Palace, and the gilt arm chair at Windsor, in which the sovereign sits to receive letters.

BRITAIN'S CORONATION CHAIR.

ters of credence or recall from foreign envoys, or accord audience to dusky potentates.

The Czar of Russia is even more diversely thronged. Each of a dozen chairs of state are at various times styled the Russian throne. The two most remarkable are the chairs of Ivan the Terrible and the one in St. George's Hall of the Winter Palace at St. Petersburg. The former is of tortoiseshell. In the back alone there are 10,000 of these gems. The other chair is of costly woods, with ivory and gold, richly jeweled, and embossed with the imperial eagle. The seat is of ermine, and the arms are ivory tusks.

Further east, in Toheran, the Shah displays himself on a white marble throne, looted from Delhi in 1739. It is of ivory, overlaid with gold, and abazee with ermine, its value being estimated at over \$1,000,000.

QUER STORIES. In 1670 the Dutch possessed 60 tons out of every 100 of about. Now they own 1 1/2 tons of each hundred.

A hotel landlord in St. Louis has established curfew regulations in his house. Promptly at 10 o'clock at night the curfew rings, and guests at that time are expected to turn out the lights and go to bed.

Owing to competition with Spain, Italy and Northern Africa, where labor is cheaper, French farmers are abandoning the cultivation of olive groves. In the department of Marseilles alone within six months 40,000 olive trees were uprooted.

It has been calculated that the hair of the beard grows at the rate of 1/4 lines a week. This will give a length of 9 1/2 inches in the course of a year. For a man 30 years of age, no less than 27 feet of beard must have fallen before the edge of the razor.

The total number of copies of newspapers printed throughout the world in one year is estimated at 12,000,000,000. To print these requires 781,250 tons of paper. The oldest newspaper is said to be the Kin-Pau of Peking, which has been published continually for over 1,000 years.

In Tennessee and Georgia the peanut is known as a goober. In Alabama and the Western Gulf States a ground pea, in the Southeast of the United States and in the West Indies a pindal or pindar, and in various parts of England a jurnut, an earth nut or a manilla nut.

To drive ants from the lawn fine coal ashes sprinkled about the burrows of ants will cause them to leave. Ashes may be used on the lawn without injury to the grass. Sifted ashes are best, but those from the stove, shaken from the stove shovel, will answer the purpose very well.

The philosopher Confucius, writing of the great Chinese Emperor Yu, said that all his efforts could be summarized in the creation of canals. They were an effective means of diminishing the destructive action of torrents and avoiding inundations, and at the same time afforded a source of irrigation.

Women in Old Egypt. The religious Egyptian believed his ulterior happiness and his everlasting union with the divinities in the eternal world to be wholly dependent upon his preparations beforehand, and with these the wife had much to do. She was, in fact, as the mother of his children, his savior and liberator, for none but a son could pray for the father's soul on its way to paradise, and she was entitled to and received his homage and loyal obedience. In those days the "grat mare" was the better horse, and she was treated accordingly.

SAVED BY A FRIEND One Woman Rescued From Death by Another.

"If it had not been for one of my friends, I would not be here to tell the tale."

These were the words of Miss Frances Hathaway, of No. 416 Pine street, Kalamazoo, Mich., whose interview is published in the Holland, Mich., Times.

"It is really remarkable that I did not lose my life," she said. "When I was 16 years old was taken ill. I was pale and weak and grew easily tired, and the family doctor seemed unable to help me at all."

"Didn't you try any other physicians?" asked the newspaper man.

"Yes, but they did not help me either. My parents tried various remedies and treatment but I only kept getting worse. By the time I was 19 years old I was thin and bloodless as a ghost."

"What did the doctors call your disease?" inquired the reporter.

"They said my blood had turned to water and I had anaemia. I felt dreadful. It was about this time that Miss Huntley advised me to try Dr. Williams' Pink Pills for Pale People, as she had been cured of a somewhat similar trouble by their use. I bought a box and before I had taken all the pills I found that they were doing me good. My appetite increased and the healthy color began to show in my cheeks and lips. I continued to use the pills until I had taken fifteen boxes when I found myself entirely cured."

"Have you ever had any return of the trouble?" asked the reporter.

"No; never a bit. I cannot remember a time when I was as strong and healthy as now. I know that Dr. Williams' Pink Pills for Pale People saved my life and I believe that no other medicine could have done so."

Anemia is not the only disease which succumbs to the potent influence of Dr. Williams' Pink Pills for Pale People. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexion and all forms of weakness either in male or female. They are sold by all druggists or direct from Dr. Williams' Medicine Co., Schenectady, N. Y., Price 50 cents per box; six boxes, \$2.50.
