"I suffered for years with kidney trouble" writes Mrs Phebe Cherley, or Peterson, Ia, "and a terrible back pained me so I could not rest myself, but Electric Bitters completely cured me, and, altbough 73 years old, I now am able to do all my housework." It overcomes constipation, improves appetite, gives perfect health. Only 50c at W L Delano's drug store.

THE BIG MEETING.

A Thousand People Listened to Mr. Falkenburg's Address.

A SPLENDID EFFORT.

Daily Guard, Feb 12.

At least 1000 people gathered in the armory pavilion last night to listen to the address by Head consul F A Falkenburg of the Woodmen of the World.

At 8 o'clock the exercises began. The presiding officer of the the meeting was Captain J M Williams, consul commander of Eugene camp. First on the program was a selection by the University quartet, Pres Strong, Profs Glen Ressler and Dunn. An encore was responded to. Camp Physician D A Paine then made a brief address of welcome, which was followed by a beautifully rendered solo by Mrs Hallie Parrish-Hinges, of Salem, "I Dream of the Day That I Met You." The Oregon nightingale was compelled to respond to an encore, rendering very sweetly a "Woodmen's Song," written by Organizer J S Williams, of Salem. It was a rare treat and thoroughly appreciated. Next on the program was a splendid drill by the degree team of the local camp and the guards of the local circle. It was well executed and showed conscientious drilling. Much credit is due Neighbor Geo K Munroe, who directed the drill.

The presiding officer then introduced C V Cooper, of Portland, head banker of the order, who gave a brief explanation of the method of handling the lodge money. Grand Clerk Wright, of Leadville, Colorado, then spoke briefly and Mrs Hinges rendered another solo and responded to another encore.

THE PRINCIPAL ADDRESS.

Head Consul Falkenburg was then introduced and he spoke at length in a forceful and eloquent manner much to the edification of his hearers. His subject was "We Are Climbing the Heights." His address was interspersed with anecdotes and short stories illustrating his points, and he was repeatedly interrupted by bursts of applause. It was the best address on fraternity yet heard in this city, and there was none present but counted the time well spent in listening to this great leader of a great fraternal brotherhood, the monuments of which are found, marking neighbors' resting places from the frozen wilds of Alaska to the tropical, verdure-clad hills of Cuba and the rice marshes of the Philippines.

Following the head consul Mrs Hinges sang "For Old Time's Sake" and the audience dispersed.

Mr Falkenburg addressed the students and faculty of the University in Villard hall this morning and the distinguished party left this afternoon for Roseburg.

Our Army the Best.

Our army is the most effective and efficient organization in the world. The reason for this is that the men are well paid as well as well fed. Good feed and good pay however, will not alone make a good soldier. He must have steady nerves, a good digestion and a strong constitution. To fight disease it is also necessary to have the same requirements, but if you are weak and nervous, there is a medicine that will strengthen your system. We refer to Hostetter's Stomach Bitters. For fifty years it has been making weak people strong and sickly people well. We therefore urge you to try a bottle and satisfy yourself. It is a specific remedy for indigestion, dyspepsia constipation, flatulency, nervousness, and malaria, fever and ague.

A BOLD HOLDUP.

Orman Miller Held Up By a Lone Highwayman.

GOT THE WRONG MAN.

Special to the Guard.

JUNCTION CITY, Or, Feb 13.—A lone highwayman held up Orman Miller last night about 8 o'clock on the Taylor bridge crossing the Long Tom. As Miller rode into the covered bridge he saw a man on a large black horse standing inside. When within about 10 feet of the man he was ordered to put up his hands which he did gracefully. He was told to hand over his money. Miller told him he had no money but he would give him his watch. The robber said he did not want his watch and then made him get off his horse and walk to the open end of the bridge and out into the road which was covered by water about knee deep.

The robber then could see him plainly and said: "Young man, you are not the fellow I am looking for. Come back and get on your horse and get for home."

This being the only pleasant order given to the boy, he lost no time in obeying it. Miller could give no description of the man other than that he was on a large black horse and was a tall man with a heavy mustache and had a saddle on his horse such as used by stockmen.

VEIN OF COAL SHALE

The Oil Drill Encounters It at 60 Feet.

OIL INDICATIONS GOOD.

Daily Guard, Feb 13

J E Simmons, the oil and coal promoter, returned to Portland this afternoon to spend some time at home to recuperate, his health not being the best at this time.

Mr Simmons this forenoon informed a GUARD reporter that yesterday afternoon the Great West company's oil drilling plant at Springfield encountered a vein of coal shale at a depth of 60 feet which was 6 feet through, and the drill went through the vein in 45 minutes. Just before the vein was encountered the drill was going through blue slate and has been in that formation since going through the coal shale and by this evening a depth of at least 80 feet will have been reached.

The reporter was shown a lot of small particles of the shale brought up by the drill and it had the appearance of being of splendid quality.

Mr Simmons says the indications of oil are growing better and better as the drilling progresses, and is confident of finding it in large quantities. The shale shown the reporter had an oily appearance, indicating petroleum seepages.

In speaking of the Cascade Coal Co's mine at Creswell Mr Simmons said that a large force of men is at work on the shaft and tunnel and several men were prospecting on nearby lands which the company now controls.

ANOTHER FREIGHT WRECK.

Five Cars Ditched Again Near Alca Station.

Daily Guard, Feb 13.

Another small freight train wreck occurred one mile east of Alca, a small station 23 miles south of Eugene, about 9 o'clock this morning. Five cars of southbound extra freight train No 221 were derailed at that point and regular trains are delayed in consequence.

The passenger trains will transfer passengers, baggage, mail, etc, at the scene of the wreck and the southbound train which passed through here at 2:08 will turn around and come back, arriving here about 6 o'clock this evening. The northbound will also turn around and proceed back toward Frisco.

It seems there is a hoodoo hovering over that locality or else the track is in very bad shape. This is the third small wreck that has occurred in that vicinity within the last two weeks.
