MRS LYMAN'S DEATH.—Baker City Democrat, Feb 25: News was received at Baker City yesterday of the sudden death in Denver of Mrs Lyman, who will be remembered as the proprietress of the Golden West lodging house on Front street, and who left for Utah a few months ago. Mrs Lyman was the mother of Miss Grace Murray, one of Baker City's popular school teachers, and had a large circle of warm friends here. It seems that Mrs Lyman was on a visit in Denver and was stricken with heart disease. Miss Murray has gone East to attend the funeral, and during her absence Mrs Dr May will take her place in the public schools.

THE REGISTRATION.
A Total of a Little Over 1700 to Date.

OVER 3000 MORE YET.
Daily Guard, Feb 26
Up to 10 o'clock this morning only 1737 voters in Lane county had registered at the county clerk's office. Nearly two months have elapsed since the books were opened for registration and that number is only a small proportion of the voters in the county. There are over 3000 more yet to register, and they should do so early to avoid the rush, for a rush there will be during the last few days. Following is the registration by precincts:

The Storm.
Daily Guard, Feb 27
The sun shone brightly for a time this afternoon after two days of almost continuous rain. Down the valley they got wind, too. This from Wednesday afternoon's Telegram:
The furious storm which yesterday and last night lashed the ocean into seething spray and sent mountainous seas in on the beach from British Columbia, up north, to the southern promontory of Lower California, in the south, is moving inland and gradually dying out. Early this morning heavy winds, at times hurricane-like, swept over the city, causing windows to rattle and trees and old shacks to groan under the pressure. On the bridges across the river in particular did the sweep of the wind make itself felt, and pedestrians found it difficult to navigate.

DIED.—A telegram was received from Albany this morning conveying the sad news that Mrs Cannon, formerly Miss Vesta Ma on had died in that city. The deceased had many warm friends in Eugene. She was the daughter of D P Mason and the sister of Rocky Mason, the well known former U O student. The cause of death and funeral arrangements were not given in the telegram.

SCARLET FEVER.—The little son of Mr and Mrs Al Holden has the scarlet fever at their residence on Willamette street between Ninth and Tenth and the house has been quarantined by the city officers. The fever appears only in a light form and the child will not recover. It is not known that anyone outside the family has been exposed to it.

CO C DEFEATED AGAIN.
U O Wins the Second Indoor Baseball Game, 11 to 6.

Daily Guard, Feb 27
The University of Oregon indoor baseball team won from Co C's team again last night, the score being 11 to 6. Quite a crowd gathered in the armory pavilion to witness the contest which was a good one and was close for the first few innings.

Some very good playing was done by both teams, but Henderson, Co C's first baseman, deserves special mention. He never missed a ball and made two sensational catches brought down the house.

Frank Hayes and Orville Waller were umpires.
Following was the score by innings:
U O.....0 2 0 0 2 0 1 3 3-11
Co C.....3 0 0 0 2 0 0 1-6

A Deep Mystery.

It is a mystery why women endure backache, headache, nervousness, sleeplessness, melancholy, fainting and dizzy spells when thousands have proved that Electric Bitters will quickly cure such troubles. "I suffered for years with kidney trouble," writes Mrs Phebe Cherley, of Peterson, Ia, "and a lame back pained me so I could not name myself, but Electric Bitters wholly cured me, and, although 73 years old, I now am able to do all my housework." It overcomes constipation, improves appetite, gives perfect health. On y 50c at W L DeLano's drug store.

FOR A MONUMENT.—The Lane County Veterans' Association will send out to Lane county veterans of the Spanish and Philippine wars circular letters inviting them to contribute whatever amount they feel able, out of their back pay now being received from the government, for the purpose of improving the veterans' lot in the I O O F cemetery and to erect a suitable monument if enough is subscribed.

ANOTHER CASE OF SMALLPOX.—Smallpox exists in a very light form in a family on College Hill. The form of smallpox that is now prevalent throughout the state is not at all dangerous and people need have no fear of it. Scarlet fever, one case of which now exists in the city, is to be feared for more than this Manila smallpox or whatever it is.

Spray your fruit trees now. One spraying at this season equals three after the buds burst, as now you can use strong solutions. Spray pumps and all ready mixed spray material at F L Chambers & Bro.

A KNOCKER AT WORK

Trying to Influence Forestry Department Against Bohemia Railroad.

A PIECE OF SPITEWORK.

Special Correspondence.
COTTAGE GROVE, Feb 26.—A startling discovery has been made regarding the Bohemia railroad. A certain party here wrote recently to the state superintendent of forest reserves at Salem stating that a majority of the people of Cottage Grove and Row river do not want the railroad built to Bohemia. Of course it was a cruel shock to the people here who really do want the road built when the echo of this report came back from Salem. We had deluded ourselves with the supposition that the people of this section were practically unanimous for the road, having been led to think so from the fact that no one had been heard to oppose the scheme.

Since the very first inception of the plan to secure a road to the rich Bohemia mines (and thereby hangs a tale) people here of every degree have been impatient to see the scheme materialized, and now after a number of the land owners along the line have signed the right-of-way contract and satisfactory understandings have been reached with many more, and when we had hoped to hear of contracts being let soon it goes hard to have all our hopes dashed by a single penstroke of a solitary man. It appears that this one person's opposition has been aroused by the attempt to get the department at Washington to withdraw from the forest reserve four townships lying and adjoining the Champion Creek canyon in Bohemia, through which the road is to run and to further which proposition Mr P J Jennings is now in the East.

When a petition was drawn up and signed by a number of prominent people who are interested in the mines and in enabling mineowners to secure timber for their purposes, it appears that a certain party was overlooked and not even shown the petition. As this individual holds a lucrative position in connection with the forest reserve he at once smelled a large rat and notified the government officials that he had been slighted and that therefore the prayer of the petitioners should not be granted.

But now to the afore-mentioned tale. Some two years ago, before the death of Henry Villard, the idea of a road to Bohemia was mooted and one of the prominent men to advocate it was the eminent geologist and ex-director of the U S mint, J P Kimball, who after examining the Bohemia district is reported to have said that it would one day be one of the richest camps on the coast and also said that a road would be necessary to carry the base ore out for treatment. Moreover this same Prof Kimball was the man who predicted that tellurium would be found in the district, which prophecy has been literally fulfilled by the discovery of this rare and valuable mineral in the Helena mine.

The railroad scheme was brought to the notice of Henry Villard who was not only favorably impressed with its prospects and importance but it is said decided to take hold of the enterprise. But his death occurring soon after, the plan seems to have been abandoned by nearly every one except Prof Kimball who, we are told, is using his influence with the authorities at Washington, whereat we are greatly encouraged.

It will be seen by the foregoing that this enterprise has for backing not only the people of this vicinity, the growing mining interests of Bohemia, the immense lumbering interests of the Booth-Kelly Lumber Co and a half million dollars of New York capital, but the endorsement and hearty support of many men high in mining expert circles, headed by one of the greatest geologists and mining engineers of the country, Prof J P Kimball, who has labored faithfully for nearly two years in this cause and men who know him say he never fails. Certain it is that he is an authority on mines and can secure all the capital needed to develop any property he reports favorably upon.

Albany People Elated.

ALBANY, Or, Feb 26.—Albany people are greatly elated over the passage through the senate of the bill carrying an appropriation of \$150,000 for a public building at this city. Estimates are being secured on a site, for the use of the department. There is considerable confidence in the appropriation being retained in the bill when it passes the house.

Former Eugene Man.

SEATTLE, Feb 26.—In the superior court today Frank A Linderson, a former resident of Eugene, Or, sued his wife for divorce on the grounds of cruelty and because she told him she did not love him. The couple have been married for six years.

MOVING.—M R Janney is having his jewelry store fixtures moved from the Shelton building opposite the GUARD office to his new location in the Hansen building on East Ninth street. Clark & Hubble's teams are doing the hauling.

The Revised Bible.

The new American standard revision of the Bible brings it up to date, without changing its meaning; but do the people want any change from the original copy? Thousands will answer "No." This would also be the popular answer if you ask people who have tried Hostetter's Stomach Bitters to use some other remedy. New medicines come and go, but this old reliable remedy continues to be the favorite, because it can always be relied on in the most severe cases of indigestion, dyspepsia, flatulency, nervousness, constipation or biliousness. We would therefore urge you to try it. You will feel its beneficial effect from the start, and it will eventually restore you to perfect health. Our private die stamp is over the neck of the bottle.

CANCELLING HOMESTEADS.—A correspondent from Greenleaf, in the western part of Lane county, writes as follows: The land office is taking an interest in timber hereabouts. A great deal of fine timber has heretofore been acquired under the homestead laws, and then sold to lumbermen. An inspector has been through here the past season, and for the first time a homestead claim was cancelled this fall on the ground that the tract involved is timber land.

GETTING THEIR MONEY.—The veterans of the Second Oregon volunteers are beginning to receive from Adjutant General Gautenben the back state pay due them, which was recently allowed by the U S government. The pay is at the rate of \$1.50 per day from the time the men were assembled at Portland to the time they were mustered into the government service. The members of the old original Co C who went to Portland first will receive \$15 each and those who went down a week later will receive \$6 each.

COLONY OF OREGONIANS.—In St Louis there is a colony of about 50 native Webtooters. They intend organizing into a society and assist in booming the Lewis and Clark Exposition at Portland. During the fair in St Louis this colony will open headquarters and advertise the proposed 1905 centennial in up-to-date style simply for the love they bear for the rainy state of Oregon.

A PENSION.—Elmer Roberts has received a notification that he has been allowed a pension of \$12 per month on account of the wound he received in the breast at the battle of Malabou, in the Philippines, on March 25, 1899.
