MISTAKES IN LUZON.

Harsh Treatment of Natives in Some Provinces Has Bad Effect.

Washington, April 12.—When the senate committee on Philippines met today Senator Lodge, the chairman, laid before the committee the report of Major Cornelius Gardner, civil governor of the Philippine province of Tayabas, to which reference was made by General Miles in his correspondence with Secretary Root. This report had been withheld, and this caused the adoption of a resolution at the last meeting of the committee requesting the secretary of war to send the report to the committee. The report is dated December 16, 1901, and is largely a review of conditions in the province. In the course of the report the governor says:

"A vigorous campaign was at once organized against insurgents in arms, with the troops acting under positive orders to shoot no unarmed natives and to burn no houses except barracks. Looting was prohibited under the strictest penalties. Company and other commanders were ordered to pay for everything taken for necessity or bought from natives."

The governor in detail tells about what has been done, and then recommends that the operations against the insurgents should be by a force of natives. He has traveled all over the province, with no other escort than natives. In another recommendation, he says:

"As civil governor, I feel it my duty to say that it is my firm conviction that the United States troops should at the earliest opportunity be concentrated in one or two garrisons, if it is thought desirable that the good sentiment and loyalty that formerly existed towards the United States among the people of this province should be conserved and encouraged. Being in close touch with the people, having visited all the pueblos one or more times, having lived with them in their homes, I know that such sentiment once existed. "Of late, by reason of the conduct of the troops, such as the extensive burning of the barrios in trying to lay waste the country so that the insurgents cannot occupy it, the torturing of natives by the so-called water cure, and other methods, in order to obtain information, the harsh treatment of the natives generally, and the failure of inexperienced, lately appointed lieutenants commanding posts to distinguish between those who are friendly and those unfriendly and to treat every native as if he were, whether or no, an insurgent at least, this favorable sentiment above referred to is being fast destroyed and a deep hatred towards us engendered. If these things need be done, they had best be done by native troops, so that the people of the United States will not be credited therewith."

FOR CELLO CANAL.

Senate Makes \$64,000 Available for Carrying on the Improvements.

Washington, April 12.—The senate commerce committee has dealt very liberally with the Upper Columbia river. Senator Turner has secured the adoption of the Harts canal project for overcoming the obstruction at The Dalles and Celilo, and, aside from the transfer for immediate use of the remaining \$214,000, the bill authorizes the secretary of war to enter into a contract for prosecuting the work to the extent of \$400,000 additional, making an expenditure of about \$614,000.

The senate committee, unlike the house, was readily convinced that Captain Harts' estimate is not too high, and says that the improvement is one of such importance that it should no longer be delayed. The amount carried by the senate bill is sufficient to continue the work until the next river and harbor bill is passed, and if it is not possible at this time to have the work placed under the continuing contract system, it is probable this can be done next winter. There is reason to believe that the senate amendment will be retained in the bill, although it may be necessary to make a slight reduction in the expenditure authorized.

Senator Turner has secured an increase in the appropriation for the Snake river to \$40,000, of which \$25,000 is to be expended above Lewiston. For Pend d'Oreille and the Okanogan he secured an increase from \$10,000 to \$25,000. The Tacoma harbor appropriation was increased from \$75,000 to \$300,000. New Whatcom gets \$40,000 instead of \$25,000 allowed by the house. The appropriation for Puget Sound is increased from \$15,000 to \$20,000, with \$15,000 additional for the removal of a log jam in the Nook-sack. The appropriation for the mouth of the Columbia remains the same as in the house bill.

MISS STONE IN NEW YORK.

Says the Brigands were Not Fierce, but were Insulting.

New York, April 12.—Miss Ellen M. Stone, the missionary, arrived today on the Deutschland from Southampton. Miss Stone said the brigands were not so fierce as might have been imagined. They said many insulting things, but never struck or beat either her or her companion, Mme. Tsilka.

"Several reports have been printed which stated that Mme. Tsilka had been held for ransom by our captors," said Miss Stone, "but it is a mistake. I was the one they wanted, and they always take a married lady to chaperone a single one, no matter how old the latter may be.

Seven weeks before we were released a baby was born to Mme. Tsilka. The brigands had by this time become so insulting and cruel in their remarks that it was becoming unbearable. The appearance of the baby stopped all this, for the reason that the brigands of Turkey believe that a curse will settle on one of them if they do harm to a child or its mother. Our treatment after the birth of the baby was excellent. We began to get better food, although I must admit that it was not very good, and the sneering remarks stopped."

Miss Stone will get once to Chelsea, Mass., to see her mother, who is more than 90 years old.

Torpedo Boat Builders Lose Money.

Washington, April 12.—The building of 26 torpedo boats for the United States government cost the contractors something over \$2,000,000 more than the price they received from the government, according to the report of the torpedo boat board which has just been submitted to Secretary Long. The builders themselves declare that their losses aggregate over \$3,000,000. The contractors want congress to make good their losses. Secretary Long does not indorse this application. He has simply collected the necessary information for the guidance of congress, if it entertains the appeal.

First Assistant Postmaster General.

Washington, April 12.—Robert J. Wynne, the Washington correspondent of the New York Press, has been offered and has accepted the office of first assistant postmaster general. The nomination will probably be submitted to the senate immediately after the president's return from Charleston. The change will take effect May 1 or earlier.

The Cholera Record.

Manila, April 12.—In the provinces, up to date, totals of 224 cases of cholera and 166 deaths from that disease have been reported. In Manila the cholera totals are 206 cases and 160 deaths.

Sale of Transports.

Washington, April 12.—The secretary of war has directed the sale of the transports Egbert and Rosecrans, now at San Francisco, to the highest bidder, in order to reduce the transportation expenses.

Coercion in Ireland.

London, April 14.—A dispatch to the Post Mail Gazette from Dublin says that 10 battalions of English and Scotch militia are to be embarked and sent to Ireland within a month, in pursuance of the British government's determination to apply the coercion act. The correspondent understands that Lord Londonderry, the postmaster general, threatened to resign from the cabinet unless active measures are taken to circumvent the United Irish League.

Strike at a Montana Mine.

Red Lodge, Mont., April 12.—In the Rocky Fork mine, in this city, the miners went out on strike this morning. The whole force is out, over 500 men being involved. The miners' principal grievance is an order forbidding them from riding out on the hoisting cars in the afternoon at the end of work. For the ground men the practice has been for the men to ride out until State Inspector Welch ordered the custom to stop. Pickets were posted this morning.

For Statue of McKinley.

Albany, N. Y., April 14.—Governor Odell today signed a bill appropriating \$100,000 for a statue of the late President McKinley in Buffalo.

DISORDER SPREADS

LARGE REVOLUTIONARY MOVEMENT IN BELGIUM.

Police Are Forced to Retreat by Rioters Until a Squadron of Lancers Reinforced and Charged the Mob—Many Were Injured in the Numerous Clashes That Took Place—General Strike Threatened Soon.

Brussels, April 14.—Sharp fighting between strikers and gendarmes occurred this morning at Bracquesnes, near Charleroi. Several thousand strikers attacked and stoned a body of gendarmes, who retaliated by firing their revolvers. A sharp fusillade followed, and the gendarmes were compelled to retreat. A squadron of lancers, however, galloped up and dispersed the mob.

A semblance of order was restored among the rioters in the Rue Stevens early this morning. The police, who had borne the brunt of the fighting, were strongly reinforced by the gendarmes and civil guards with loaded rifles. Orders were issued to use all force necessary to drive the mob out of the Maison du Peuple. Just as the order was about to be executed the chiefs of the Socialists offered to evacuate the building quietly.

Estimates of the number wounded during the riots vary from 40 to 100, but scores of injured were carried off and hidden by friends. A large number of the burgomasters of Brussels and suburban municipalities have proclaimed that meetings of more than 10 persons are prohibited, and that persons carrying revolvers shall be liable to six months' imprisonment.

All centers of agitation are bristling with bayonets. Squads of cavalry are continually patrolling the streets and guarding the shops, which were threatened with plundering by the rioters. A manifesto, signed by the general council of the labor party, has been widely posted. It demands a revision of the constitution and universal suffrage.

POSTAL RELATIONS WITH CUBA

Domestic Rates Will be Continued Until Conclusion of a Treaty.

Washington, April 12.—President-elect Thomas Estrada Palma, of Cuba, accompanied by Gonzales de Quesada, had a conference today with Postmaster General Payne and other postal officials. As a result the postal relations between this government and Cuba, including the domestic rates of postage and money orders, will be continued by joint action of both governments until a postal treaty shall be concluded between the two governments. A postal convention, probably practically identical with those now in force between this government and Canada and Mexico, will be arranged about August 1. Postmaster General Payne informed Mr. Palma that domestic rates of postage and other postal concessions would be granted to Cuba when the time came to sign a treaty, provided that Cuba in turn will not grant similar concessions to any country except those which have similar arrangements with this government. This has special reference to Canada and Mexico. President Palma announced his satisfaction with this condition.

LIMITING THE ARMAMENT.

England Brings Pressure to Bear on Argentina and Chile.

Buenos Ayres, April 14.—The Pasi says that when it was learned in London that Argentina and Chile were purchasing additional warships the English houses and companies having capital invested in South America became alarmed and delegated Lord Rothschild and Lord Revelstoke to call on Lord Lansdowne, the foreign secretary, and ask him to interfere with President Roca, of Argentina, and President Riesco, of Chile, who subsequently replied that Cuba would willingly accept Lord Lansdowne's good offices in order to avoid further strain on account of the state of "armed peace" prevailing. It is understood that the outcome will be an arrangement which will provide for limiting the armaments of Argentina and Chile, canceling the orders for the last warships ordered by those countries and indemnifying the shipbuilders for any loss which they may thereby sustain.

New Pension Commissioner.

Washington, April 14.—Eugene F. Ware, of Kansas, has been selected by the president to succeed Henry Clay Evans as commissioner of pensions. Mr. Ware is from Topeka, Kan., and is a member of the law firm of Glead, Ware & Glead. It was stated at the White House that the president desired to appoint some man whom he knew well and that, if possible, he should come from Kansas. He did not consult with the Kansas delegation, although Senator Burton who was at the White House, said the appointment would have his entire and hearty support.

Mrs. McKinley's Pension.

Washington, April 12.—The house committee on pensions has made a favorable report on the senate bill granting a pension of \$5,000 per annum to the widow of the late President.

Meat Famine in England.

London, April 14.—Telegrams received here from Birmingham say the scarcity of American meat and the consequent increase in price have obliged many retailers to close their stores.

Postal Receipts Growing.

Washington, April 14.—The postal receipts for last month, as compared with March of last year, for the 50 largest postoffices in the country show a net increase of 10 per cent. The total receipts for the 50 offices were \$5,267,666. The largest increase was 37 per cent. at Denver.

Boers Do Not Hope for Peace.

New York, April 10.—There is little faith among the Boer sympathizers here that peace is imminent in South Africa, says a Tribune correspondent from The Hague. Hearts are hardened in consequence of the conferences held here and at Utrecht, and the Boer envoys and refugees are asserting in a louder key than ever that the war will last four years longer, and that there can be no peace without independence.

Irrigating Rio Grande Valley.

El Paso, Tex., April 10.—A colonization company has been organized and will settle 40,000 acres of land in the Rio Grande valley, below the city. Recent experiments have demonstrated the fact that water can be gotten from wells with pumps to irrigate the lands at a small cost. The land will be sold only to bona fide settlers. These valley lands were cultivated for over 200 years until recent years, but irrigation in New Mexico and Arizona has taken all the water from the Rio Grande, which is dry two-thirds of the year.

PHILIPPINE GOVERNMENT BILL.

Measure Perfected by the House Committee—New Currency Regulations.

Washington, April 10.—The house bill establishing civil government in the Philippines was finally perfected today by the Republican members of the insular committee, and in its complete form was re-introduced by Chairman Cooper. There is little doubt that it will be reported to the house by the full committee in a day or two.

The house bill is unlike that of the senate in that it provides a complete form of government for the islands, the provision being as follows:

"Whenever the existing insurrection in the Philippines shall have ceased and a condition of general and complete peace shall have been established therein, and the facts shall have been certified to, the president shall instruct the commission to call a general election, for the choice of delegates to a popular assembly of the people of the Philippine islands, to be known as the Philippine assembly."

It is further provided that all the executive power then shall be vested in two houses—the Philippine commission and the Philippine assembly. Provision is made for taking the census within 30 days after the promulgation of peace. Thereafter the islands are to be divided into election districts and the regular machinery for electing a legislature is provided. Section 12 of the bill provides that all residents of the Philippines shall have the same protection from the United States in their relations to foreign governments as is accorded to citizens of the United States.

For the purchase of the friar lands the bill makes provision for the issuance of insular bonds at 5 per cent, interest payable in gold, the total amount not being specified. The regulation of franchises, timber lands, mineral lands, etc., is provided for. The system of coinage differs from that in the senate bill, as it makes gold the standard, with Philippine token money of silver maintained at a parity with gold. The peso is to be of silver. It will equal our silver dollar in size, and will be worth half as much.

FIGHT WITH MOONSHINERS.

One Was Killed and a Revenue Collector Narrowly Escapes Death.

Louisville, Ky., April 10.—A fight has taken place between moonshiners and revenue officers near Big Meeting Creek postoffice, in Hardin county, during which one man, an alleged moonshiner, was killed and a deputy revenue collector, who was leading the pursuing posse, narrowly escaped death, a rifle ball grazing his head. The revenue officers had information that a still was located in a bottom near Big Meeting creek. They surrounded the still and called on the three men who were operating it to surrender. The moonshiners answered with a volley of shots, and the revenue officers promptly returned the fire. Two of the moonshiners then fled from the still, firing as they ran, and made their escape. When the smoke had cleared one man was lying dead inside the still. It is thought one of the men who escaped was wounded.

Hawaiians Appeal for Exclusion.

Washington, April 10.—Senator Patterson, of Colorado, today presented a memorial signed by over 300 American citizens residing in Hawaii, praying the enactment of legislation completely excluding Chinese and Japanese from any American territory, and providing that all labor of every description performed for the federal government shall be done only by citizens of the United States. The petitioners say that 75 per cent of the labor in Hawaii is performed by Orientals, to the exclusion of American labor, and they call attention to the fact that 87,000 of the 150,000 population of the islands are from China and Japan.
