THE DEMOCRATIC OUTLOOK.

Chamberlain Will Probably Carry Lane.

OTHER PARTS OF THE STATE.

PORTLAND, April 22.—For the past two weeks the democratic state central committee has been sending out to the county and precinct organizations throughout the state letters of inquiry as to the exact political situation. It was the desire of the state committee to ascertain the real truth uncolored by partisan desires, and the letters of inquiry asked the county leaders to be frank and candid.

The replies to these letters are a source of much gratification to the leaders. Judging from the latest advice the democratic state ticket will carry Josephine and Douglas counties by safe majorities. Lane county will be close, but will give Mr. Chamberlain a majority for governor. Linn county will go overwhelmingly democratic, and the local managers place the majority at from 700 to 1000 votes. The latest advice from Marion county says that Mr. Chamberlain will get a majority in that republican stronghold.

Cook and Curry, both republican counties, are expected to go democratic this year. Union county will be close, with a good fighting chance for democratic success, and Baker, Wallowa, and Malheur are almost certain to be found in the democratic column.

Klamath and Lake are counted by the democrats, and the vote in Harney will be very close. In Clatsop, the very strong republican county, the split in the republican ranks and the inauguration of the citizens' movement gives the democrats strong hopes of carrying the county.

The democrats in Columbia county believe they will get the most votes. Polk and Jackson counties are both sure to be democratic and in Benton the vote is in doubt.

CONNECTING BRANCH

Mr. Harriman Will Look Into the Enterprise.

WILDE BE BUILT THIS SEASON.

Daily Guard, April 22.—For a couple of years past there has been strong talk of building the connecting branch railroad between Henderson and Springfield and the line has been surveyed, but in the last few months it was generally reported that the project had been abandoned. It is said the Eastern directors of the company favored the project, but that the Oregon officials have been opposed to the improvement. Recently, however, a change has come over the Oregon officials, and they are now said to strongly favor the building of a connecting link at as early a date as possible.

In view of the prospective visit of Mr. Harriman soon, they have been collecting statistical information of every kind bearing upon the traffic of that branch, the amount of freight handled, etc., as well as the figures showing the unnecessary haul made of vast amounts of freight. The principal item of importance is that of lumber shipments. The entire product of the large saw mill at Wendling is shipped over the road, as well as a portion of the cut of the Springfield mill, and nearly all that of the Coburg mill. Here trainload after trainload of lumber is hauled from Springfield to Albany to get onto the main line, and then back through Henderson, on the way south, thus traversing 98 miles, practically, without making any forward advance. With the bridge built at Springfield, a gap of one mile, or a little less, would connect the two lines and obviate this unnecessary haul of 98 miles.

It is said that while Mr. Harriman is in Oregon, he will look into the enterprise, and that he will be urged by Manager Koehler to go ahead with the improvement this season.

CITY COUNCIL.

East Eleventh Street Will Be Beautified.

OTHER MATTERS.

Daily Guard, April 22.—At a special meeting of the city council last night a petition signed by property owners on East Eleventh street and headed by Prof. John Straub was presented asking that the privilege of putting in a curb five feet from the sidewalks on both sides of East Eleventh street from Willamette street to the University. The petition was granted. The purpose of this curbing is to plant flowers and shrubs, and if this is done the entire distance specified in the petition, East Eleventh will be the most beautiful street in any city in Oregon. This is a commendable move and no property owner on that street should neglect to improve the street in front of his property in such manner.

Other matters attended to by the council were as follows:

Councilman Barker was appointed superintendent of sewers; city recorder was ordered to pay \$20 for April and on the first of each month hereafter for 10 months pay \$10 to the Fortnightly Club for its library as per special city tax levy; the finance committee presented a report on the road and bridge tax of the city; Councilman Green was authorized to make a contract with Walters & Son, of Elmira, for 80,000 feet of sidewalk lumber at \$9 per 1000 feet delivered; Dunn Bros. were granted the privilege to erect an electric sign in front of Mrs. Holden's building on Willamette street.

The Score at the Track Meet Was 78 1-2 to 43 1-2.

On Saturday afternoon the intercollegiate field meet between the University of California and Stanford was held on Stanford campus, and resulted in a victory for U. C. The score was 78 1/2 to 43 1/2. Several events were fiercely contested. Stanford did better this year than last, when she scored only 32 or 33 points. In a special trial after the meet, Captain McCaughern, of Stanford, ran 230 yards in 22 seconds flat. With the good showing her men made in this meet, California has excellent chances of victories on the Eastern trip.
