SCHOOLBOY FURNISH.

That was a regular schoolboy speech of Mr Furnish's, rendered in a monotone. If he had been in a schoolroom the teacher would have made him speak louder, so at least the people could have heard what was written for him to read. No Republican who witnessed the humiliating spectacle of that schoolboy speech last evening will vote "with pride" for Furnish. He may vote for him but it will be with a humiliating sense of the unfitness of the man for the place. The wonder is that the Furnish managers should permit him to make a public spectacle of himself. They must be depending on the big party majority to pull him through.

MR FURNISH'S NOTES.

Mr Furnish spoke from "notes" last night. He has been doing that a good part of his life. He spoke from "notes," United States notes, when Democratic sheriff of Umatilla county, and later was more extensively engaged in the "note" business in taking worthless white men from Pendleton to Portland for selling whiskey to Indians, at the rate of about a hundred dollars to the trip per man. If all reports are true, though, Mr Furnish's most extensive business in "notes" was when he captured the Umatilla Republican county convention on hand since the "Black Friday" of General Grant's administration. Yet the perverter of facts in the Oregonian office would have the public forget history—makes history when through indirection it charges "Democratic policy" with the hard times that put Benjamin Harrison out of the presidential office. It is useless to look for fair political presentation in the Oregonian. It is entirely shameless. And it seems to glory in its shamelessness.

The Oregonian and Register report S H Friendly as supporting the Republican county and state ticket "from top to bottom." Honors are not easy in this case. Although Mr Friendly would make an excellent state senator by reason of his business training and loyalty to Eugene and Lane county interests, Republican county conventions invariably "turn him down" for less worthy and influential men.

The Register finds consolation in the statement that "there are three Furnish buttons to one Chamberlain button to be found in Eugene and throughout the county."—Buttons don't vote, though, even if the statement is true. The election will be settled by ballots cast under the Australian system of voting.

DROWNED IN THE RIVER.

Eli Jeffries Met Death in the Water at Jasper.

Eli Jeffries, of Lowell, aged about 19 years, was drowned at the Laird rifle near Jasper at noon Thursday while tripping dogs on the Williams' log drive for the Eugene Lumber Co. The unfortunate young man got beyond his depth and drowned right before the eyes of his fellow-workmen who were powerless to save him.

WEDDING BELLS.

Marriage of Jason Adkins and Josephine Lemmon.

JUNCTION CITY, May 8.—Wedding Bells are ringing on the Fern Ridge to the tune of "two minds with but a single thought, two hearts that beat as one." The happy couple are Mr Jason Adkins, one of our best known young men, having lived on the Ridge a number of years, and by his upright, honorable living he has commanded the respect of both old and young, and the bride, Miss Josie Lemmon, is a daughter of Mr and Mrs L Lemmon, formerly of Monmouth. She is a highly gifted young lady who has made a host of friends during her residence on the Ridge, and Mr Adkins is to be congratulated on having secured so fair a bride.

The wedding ceremony was performed by Dean E C Sanderson at his residence in Eugene Wednesday afternoon, May 7th, before a few friends, the couple returning to the bride's home in the evening where a sumptuous supper was served, after which the happy couple repaired to the home of the groom there to be met by a regular old fashioned chivari with the exception that there were girls and women among the crowd. They were allowed to "ring their bells and play their pipes merrily" to their hearts' content, and were only too glad to be called in and be served by the fair bride to all good things imaginable.

Mr and Mrs Adkins start out on the matrimonial sea with bright prospects and their many friends hope the breeze will blow softly and the storm clouds be few all along a long journey. A. B.

IT DOESN'T REQUIRE A LONG LONG MEMORY!

*** If you want scintilla, contraction and renewal of hard times, you may depend on Democratic policy for these results. It doesn't require a long memory.—Oregonian.

No, "it doesn't require a long memory" to recall the fact that President Harrison was defeated for a second term and went out of office with the worst financial crisis on hand since the "Black Friday" of General Grant's administration. Yet the perverter of facts in the Oregonian office would have the public forget history—makes history when through indirection it charges "Democratic policy" with the hard times that put Benjamin Harrison out of the presidential office. It is useless to look for fair political presentation in the Oregonian. It is entirely shameless. And it seems to glory in its shamelessness.

A "CAPTAIN OF INDUSTRY."

Portland Journal. Why not call Mr Furnish a "Captain of industry?" Has he not shown his ability to organize every office he ever held? Did he not, by his "business methods," make \$25,000 per annum as a Democratic Sheriff of Umatilla County? How did he "farm" the office of Deputy United States Marshal under Cleveland, in his "whiskey to Indians" campaign?

The Republican party got sadly buncoed with Mr Furnish. The convention would not repeat the mistake if it had the opportunity to again sit in judgment on this "business method" prodigy. They know some things now that they did not know when the nomination was made.
