The inventor is preparing to travel about the country for the purpose of introducing the machine in the sawmills, box factories and furniture factories."

THE STREET FAIR.

Outline of Program Which Will Probably Be Followed.

A SIX DAYS' CARNIVAL. Now that the proposed free street fair and carnival to be given in Eugene this season is the question for the immediate consideration of our business community we append a brief outline of a program which will give our citizens an idea of the proposed fair. The same has not been adopted, and will no doubt be amended in many particular parts: Monday evening, illuminated parade, coronation of the Queen-elect, installing of her court, coronation ball. Tuesday, Elks' Day, burlesque parade. Wednesday, Portland Day, Women's Day, with baby coach parade; baby show, Sons of Herman Day. Thursday, Wheelmen's Day. Day and night bicycle parade, grand barbecue; floral parade. Friday, firemen's tournament, Japanese Day, fireworks, general sports on the streets. Saturday, Carnival Day for King Rex with following officers of his Court, Dowager Queen, Prime Minister, Master of Ceremonies, Lord High Chancellor, Lord High Admiral, Keeper of Seal, Royal Pursebearer, Pages, Ladies and Gentlemen of the Court. Evening, grand Mardi Gras. Everybody in mask, throwing of confetti and grand ball. Liberal prizes and awards will be made in all parades, tournaments and general sports. Briefly stated the following good reasons can be given in favor of this city holding such a carnival: It will more closely cement the mutual social and business elements, bring the geographical advantages and natural resources of Lane county and particularly Eugene to the attention of people who would not otherwise have heard of this section, attract a new population and some new capital. It gives the stay-at-home element some sense of their responsibilities and duties, brings many thousands of dollars into the general trade of the city, thus giving us one of our most prosperous business years. LAST NIGHT'S MEETING. Responding to Mayor Chrisman's call for a mass meeting to discuss the street fair proposition quite a number of citizens met at the city hall last night, and a committee, consisting of W. F. Gilstrap, W. M. Renshaw and Al Hampton, was appointed to confer with the business men. The members of the committee were all so busy that it was impossible to make a canvass today, but they will probably be out tomorrow.

A BAD ACCIDENT.

Richard Coryell Brought in From Siuslaw With Crippled Leg.

Richard D. Coryell, residing at Wolf Creek, in the Siuslaw country, arrived in Eugene this morning at 4 o'clock for surgical assistance, having suffered a severe accident to his right leg yesterday evening. While splitting logs with a steel wedge, a sharp piece of the wedge about an inch long flew off and struck him on the leg just above the knee. It penetrated the flesh to the bone, and striking the bone it glanced off and is now embedded about three inches in the flesh. The injured man, accompanied by Chas. Lewis, started for Eugene about 6 o'clock last evening and drove all night, reaching here about 4 o'clock this morning. Mr. Coryell was in great pain and bled profusely on the way in. He was taken to Dr. L. W. Brown, who dressed the injury, but deemed it not best to take the piece of steel out at present.

Good Men for School Director.

EDITOR GUARD: As the election for school director approaches it is altogether apropos to canvass the names of the different persons for that important office. Two candidates are already in the field, but it might be well to consider others. In fact the election would be devoid of all interest if only one ticket was in the field. None too wide-awake, enterprising persons should be presented for that important office. I take the liberty to suggest the names of E. R. Skipworth, G. R. Chrisman and R. A. Booth. All these gentlemen are competent, progressive men, all take an active interest in educational affairs, and all labor to promote the general welfare of the community. In my judgement no three men could be suggested who better, do more to protect the interest of the district or more to promote the true interest of the public schools. I nominate these three gentlemen for director. Respectfully, VOTER.

Claims—and Claims.

Chamberlain News.

PORTLAND, June 5, 1:35 p. m.—A careful revision of returns gives Chamberlain 100 more votes in Multnomah county and 49 in Marion. The Republican state central committee's figures now give Chamberlain 60 plurality in the state.

Latest.

PORTLAND, June 5, 3 p. m.—The headquarters of both parties in this city are crowded with citizens anxious to learn the latest returns on governor.

Mr. Chamberlain's office is besieged by crowds of anxious friends and inquirers.

Chamberlain claims that the most reliable returns procurable show his election by over 500 plurality.

The Republican state central committee does not admit over 70, and with that concession claims that remote precincts yet to hear from favor Furnish.

Much depends on errors claimed in Multnomah county.

Still Favor Chamberlain.

PORTLAND, June 5, 3:55 p. m.—The latest returns to this hour are in favor of Chamberlain by 355.

The Republican state central committee is of the opinion that it will require the official count to settle the governorship.

The California & Oregon Land Co., through its local agent, E. C. Smith, has commenced suit in the circuit court against B. F. Guiley and Riley Garten to enjoin and restrain them from trespassing upon lands owned by the plaintiff on the upper Willamette in Lane county.

The complaint alleges that the defendants threaten and are about to go upon property in section 29, township 19 south of range 1 east, owned by the plaintiff, cut the timber thereon, construct logging chutes and roads thereon, etc., to the irreparable damage to and injury of the plaintiff.

That the said defendants have already commenced to commit said acts of trespass and threaten to do so and are about to do so, unless restrained by an order of the court, do and continue all said acts of trespass.

He traveled in a tug to Fort de France and when he reached the Martinique capital the destruction of his native city was announced.

THE OFFICIAL COUNT.

Returns are all in But the Count is Postponed.

JUDGES DISREGARDED. LAW

The election returns from the various precincts are all in, but the official count will not be made at present, for the reason that the judges and clerks of several of the precincts disregarded the law in sending in the ballots and tally sheets.

When County Clerk Lee and assistants started in to make the official count this morning it was found that in several precincts the tally sheets were all put in the ballot box with the ballots and sealed. It being a felony to break the seals before the official count is made, Clerk Lee is in a quandary as to what course to pursue, and is waiting to get legal advice and to receive instructions in the matter before proceeding with the count.

Several attorneys when asked about the matter today stated that it was their opinion that the clerk could, in the presence of a number of men of both parties, break the seals of the ballot boxes, extract the tally sheets and again seal the boxes, still leaving the ballots intact according to law. This suggestion will probably be followed by Clerk Lee.

RICH PROSPECTS.

The LeRoy Mine in Bohemia Showing Up Fine.

J. L. LeRoy, president of the LeRoy Mining Co., operating in the Bohemia district, came down from the mines on this morning's train and returned to Cottage Grove this afternoon.

Mr. LeRoy says that development work on the LeRoy mine, near the H-tons mine, is being pushed rapidly, a large force of men working night and day. He says that the further in the men go the richer the ore gets, and some of the ore is as rich as anything ever found in the state. From indications the LeRoy is going to turn out to be one of the finest mining properties on the coast.

A number of Eugene men are heavily interested in this property and naturally they are very much pleased over the rich prospects.

An Appeal to the Citizens of Eugene.

At the last meeting of the State Teachers' Association a warm invitation was extended to the teachers of the state to hold their next meeting in this city, and was by them accepted. This meeting was to have been held last December but was postponed. The association will meet here the 25th, 26th and 27th of this month. The hotel conveniences are at present too scant for the number of teachers expected. Four hundred or more teachers are confidently looked for. It touches our honor to provide for the lodging and care of these visitors. Will all citizens who are willing to come to the help of the community in this matter, please drop a line to the undersigned, stating how many teachers they can accommodate with beds or board or both and at what price? But little time is left for canvassing, therefore it is hoped that you will be able to send in your reply by June 10th. Very Respectfully, A. F. BRODOLT, City Supt. of Schools.

WAS THE WORK OF FIENDS.

The Switch Was Turned and the Train Wrecked.

SAN FRANCISCO, June 5.—A special to the Bulletin from Redding says that there seems to be the vestige of doubt that the terrible wreck of the south-bound Oregon express last night at 11:10 o'clock five miles south of Redding in which Engineer White and Fireman Van Tassel, were killed, was the work of fiends, who opened the switch with the deliberate intention of sending the train to destruction. Possibly they were robbers, but if so they were disappointed, in that no passenger coaches were wrecked, and they went away without attempting to go through the train. Investigation shows that a bolt had been removed from the switch rod, so that the switch could be opened. The bolt was found 20 feet up the track. The nut could not be found.

MAY BE CONTESTED.

Republicans May Contest Election of Chamberlain.

Salem Journal: As the Journal has several times intimated, the election of governor will be so close as to make a contest before the legislature or in the courts possible.

There is no provision in the constitution to govern proceedings in such a contingency, and it would have to be decided by the action of the legislature and the courts.

The people have a leader who will be able to defend himself in such a contest, and may rest assured that Mr. Chamberlain will get his rights, and will not claim an election unless he is honestly entitled to it.

On the other hand he is a man who has the courage and ability to not allow himself to be counted out or cheated out of the fruits of victory by any fraud.

The Journal advises all people to keep down excitement and to abide by the result of the election. The rebuke to the bosses of the corrupt Republican machine has been well administered, and at the hands of Republicans who will not surrender to the managers of dirty politics without a struggle. Mr. Chamberlain's case is in the hands of the people—the best and cleanest men here of all parties.

A BUSINESS CHANGE.

Wm. M. Renshaw Sells His Liquor House to E. C. Hughes.

Daily Guard, June 5. Wm. M. Renshaw, who has conducted a wholesale and retail liquor house in Eugene for many years, today sold his place of business to E. C. Hughes, of Astoria, who will take possession as soon as an inventory of stock is completed.

Mr. Renshaw has not yet fully decided what business he will follow, but it is to be hoped he will conclude to remain in Eugene. He is one of our most highly honored citizens and has hosts of friends. He has been in the liquor business here for over 15 years, at first being in partnership with J. M. Abrams. Several years ago he bought out Mr. Abrams' interest and has been conducting the business alone since.

Mr. Hughes, the purchaser, is an experienced man in the business and owns a similar place in Astoria.

Virulent Cancer Cured.

Strong proof of a wonderful advance in medicine is given by druggist G. W. Roberts of Elizabeth, W. Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklen's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and microbe poisons at the same time this salve exerts its matchless healing power, blood diseases, skin eruptions, ulcers and sores vanish. Bitters 50c, Salve 25c at W. L. DeLano's.

LEG BROKEN.—While riding in a hack on election day Eugene Smeltzer, of Irving, was thrown to the ground by the horses becoming frightened, and fracturing one of his legs midway between the knee and ankle. Dr. L. W. Brown adjusted the fracture.
