Balem Journal: Whenever there is another way to explain the result of late election in Oregon, charge it to the Elks. It used to be those things were charged up to the Masons and Odd Fellows; those orders are no more. It is relieved that there is a new report.  
Those who find consolation in fellow sufferers may note that there are several places where they are having "weather." Yesterday, July 1, a dispatch from Detroit, Mich., says that the first clear, sunshiny day since the 21 Kansas City, Missouri, had heavy rainstorm yesterday causing several thousand dollars damage. And there has been rain and storm throughout the upper Mississippi valley. It is passing along to the Pacific coast.  
The Independence Enterprise of the 20 has this about a former Pleasant Hill, Lane county, merchant: "W. Bristow and wife drove over to Corvallis, Sunday. Mr. Bristow has already begun to move his stock over there and in another week expects to be fully established in business at that place. Mr. Bristow and family will be accompanied by a large circle of friends, who wish them every success in their new home."

Mrs W E Davis and granddaughter, of Spokane, arrived here last night on a visit of a few weeks to her father J M Horn, and other relatives and old friends. Her visit was a welcome surprise to her people as she came unannounced. This is her first trip to her old home for sixteen years.

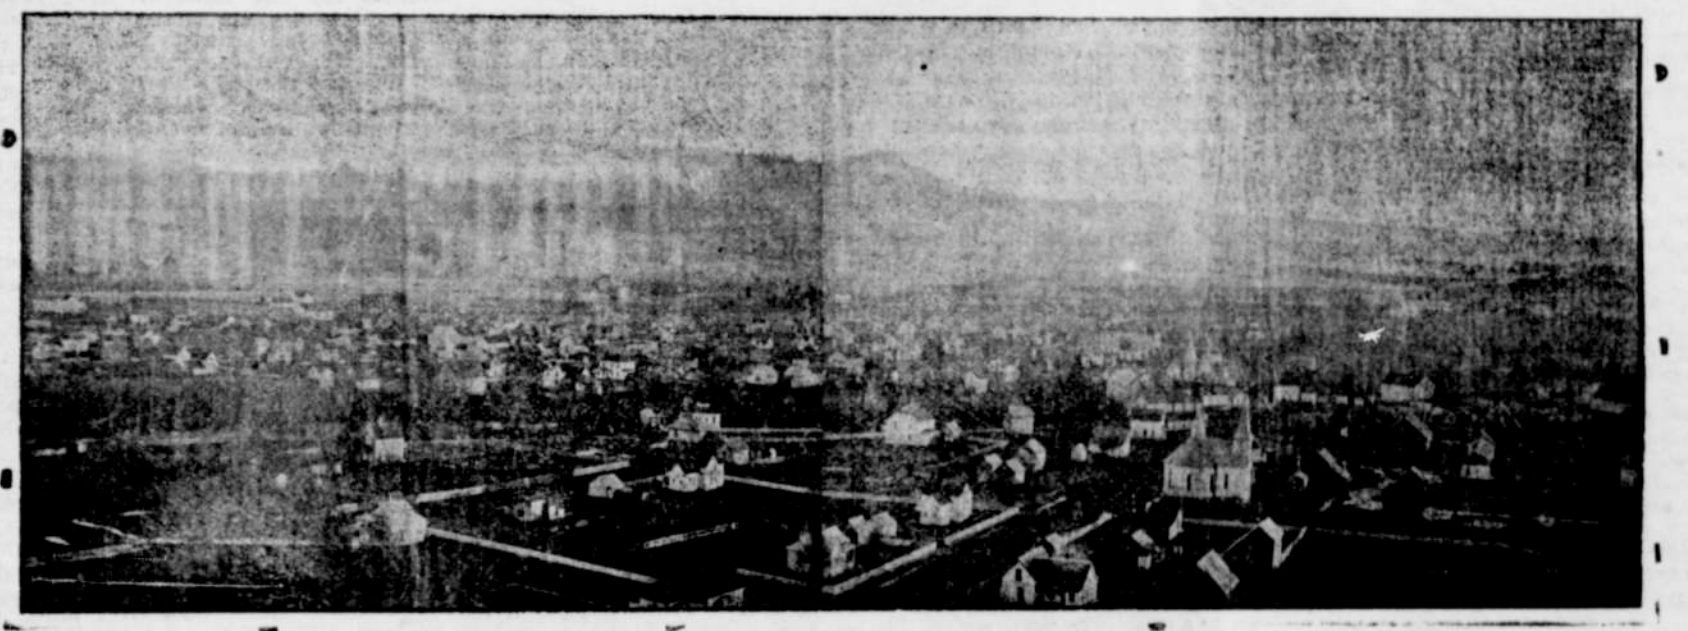

**A 20-STAMP MILL.**  
Assured By an Important Mining Decision.  
AT THE TREASURE MINE.  
In the case of the Blue River Mining Co vs C H Park in which the plaintiff sued to enjoin the defendant from using certain waters in the Elae River mining district, and which suit was brought on by the defendant blowing up with dynamite a flame owned by the plaintiff last summer, and which diverted said water from the defendant's property, Judge J W Hamilton of the circuit court has rendered a decision in favor of Mr Park, the case being dismissed and Mr Park recovering his costs in the suit.  
This decision is an important one to the whole Blue River mining district. Mr Park will at once erect a 20-stamp mill at the Treasure group of mines, whereas if the suit had gone against him he would be unable to do so on account of his being deprived of the use of the waters involved in the suit, as it would be impossible to operate a mill without plenty of water.  
Mr Park has a wagon road nearly completed to the Treasure mines and as soon as this is finished he will begin to haul in the machinery for the mill.  
The GUARD has before spoken of the richness of the ore in the Treasure. There are now 150,000 tons of this ore ready for the mill. A remarkable thing about this ore is that it is free milling for a distance of 500 feet below the surface, the depth that has now been attained in tunneling, and it seems to grow better instead of baser, as is usually the case, the further down they go. This makes the work of milling it comparatively inexpensive.  
THE OTHER CASE.  
In the decision in the case of C H Park vs the Blue River Mining Co in which the ownership of the Portland, Oro Fino and other claims are involved, Mr Park holds all the property except a small area of conflict between

**MARRIED.**  
Miss Grace Hill and Mr. James Hays Near Junction.  
Special to the Guard.  
JUNCTION CITY, July 2.—A quiet wedding was celebrated at 5 o'clock p m on June 29, at the residence of the bride's parents, Mr and Mrs J R Hill. The contracting parties were Miss Grace Hill and Mr James Hays, of Riverview, this county. The bride is a native daughter of this place and known and loved by all. She is a highly accomplished young lady and will be a welcome addition to her new home. Mr Hays, though not a native of Oregon, has lived in this county a greater part of his life and is considered one of the substantial young men of this end of the county.  
The handsome residences was beautifully decorated in natural flowers and vines.  
The bride was dressed in purest white French lawn trimmed in white applique and carried a bunch of pure white lilies. The groom was attired in the usual black.  
J H Hill, brother of the bride, acted as best man with Miss Maud Hays, sister of the groom, as maid of honor. The ceremony was performed by the Rev G L Lobdell, pastor of the Christian church of Junction, in a very impressive manner, followed by the congratulations of those present.  
Light refreshments were served, consisting of ice cream, fruit, cake and lemonade. Later in the evening Mr and Mrs Hays repaired to their new home at Riverview, followed by the well wishes of their many friends throughout the county.  
Owing to the illness of the bride's little sister, Ruth, only the members of the immediate families were invited. The happy couple were the recipients of quite a number of valuable presents.  
More About the Kissenger Tragedy.  
Boise Capital News, June 30.  
Kissenger spent his last winter near Boise herding sheep for Baldwin. He learned the latter was working in the Lincoln mine at Pearl. Mr Gregory did not know the man, but his eyes were badly inflamed and he took special pains to bathe them with hot cloths. From the barber shop he went to the livery stable, procured a horse and started on his errand of death.  
The GUARD owes it to Attorney Kissenger to state that the threat about killing Mrs Garner was made two or three days before his brother left, and as he took a sheepherding outfit and clothing, with the expressed intention of going back to Heppner to work among the sheep, he did not consider it necessary to warn the Idaho people. He thought that he had fully dissuaded his brother from committing any rash act.

**PROSPEROUS COTTAGE GROVE**  
The New Sawmill, Depot and Other Buildings.  
WORK ON THE RAILROAD.  
Special to the Guard.  
COTTAGE GROVE, July 2.—Tracklaying on the Oregon and Southeastern railroad is at a standstill for lack of steel. However there are 30 cars of steel on the way and some of them are expected by the next freight. Less than three miles of track has been laid but the first section of ten miles of grading is done. Another locomotive is expected soon.  
THE NEW SAWMILL.  
Long & Bingham's sawmill is under way, a gang of men being busy putting up the frame. It will be 36x100 feet and the capacity of the mill will be about 30,000 feet per day. They expect to be ready for logs in a month. The millsite is alongside the O & S E terminal grounds, leaving ample space south of the mill and log yard for the roundhouse and shops. The mill will depend mainly for logs upon buying from parties along the line of the new railroad, and they will pay \$3.50 per thousand feet for logs delivered at the railroad which is far better than working the same timber into wood and hauling it to town for less money. They estimate that one rancher alone only about four miles away has logs enough to keep the mill running for six months. Jack Manning is superintending the construction of the mill, and Albert Stocks is to be engineer. J C Long is to be commented for his determination to have a mill of this kind built here.  
THE NEW DEPOT.  
The S P Company will commence work on the commodious new depot here soon. Surveyors are at work on the yards and depot grounds and the lumber is being unloaded. The business of the place outgrew the little 7x9 depot years ago and the new building will fill a long felt want and at the same time add to the appearance of the town.  
OTHER NEW BUILDINGS.  
Three business houses are going up on Main street and several residences in different parts of town. On the west side of the river the Coast Fork Lumber Co is putting up a shed for the storage of lumber from their mill up the Coast Fork. The shed is to be about 250 feet long, and with the blacksmith shop already finished, will make a neat building some 300 feet long.  
Altogether business is booming and the tin bucket brigade makes a formidable procession as the men march out to work every morning.

The above is a birdseye view of the little city of Cottage Grove, which is at present enjoying a good-sized boom and a substantial growth on account of the building of the new railroad from that place to the great Bohemia mines.

**LEASED BELKNAP SPRINGS.**  
George Croner Will Conduct That Popular Resort This Year.  
Geo F Croner, Eugene's popular night policeman, has leased the Belknop Springs pleasure resort and will conduct it this season.  
Mr Croner's family will leave here Friday for the springs and Mr Croner will leave about the 10th or 12th of the month, having obtained from the city council a 30 days' lay-off.  
For some time Mr Croner has had been preparing the grounds and the springs for the season's run and they will be in first class condition by the time the season opens.

**Virulent Cancer Cured.**  
Startling proof of a wonderful advance in medicine is given by druggist G W Roberts of Elizabeth, W Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklen's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and merober poisons at the same time this salve exerts its matchless healing power, blood diseases, skin eruptions, ulcers and sores vanish. **Insane Man, Roasted His Son.**  
MARLBOROUGH, Mass, July 2.—John Cullinane, a laborer, put his 7-year-old boy in the stove oven and leaving him to roast, went to his priest and told him what he had done. The boy, after being in the oven half an hour, was released. He was terribly burned. Cullinane has been placed in a padded cell.  
Daily Guard, July 2  
INSANE.—Mrs Mary E Holbrook wife of J F Holbrook, of June, was taken before County Judge Kincaid this morning and examined for insanity by Drs J W Harris and L W Brown. She was pronounced insane and ordered sent to the asylum at Salem. Deputy Sheriff Harry Bown accompanied by the woman's husband took her down this afternoon. Mrs Holbrook is 33 years of age and this is her first attack of insanity. She seems to fear that someone is trying to poison her and she threatens to take her own life and those of her children.

**A SECOND STORY.**  
To Be Added to L. N. Roney's New Brick.  
Daily Guard July 2  
L N Roney today informed the GUARD that he will add a second story to his new brick building which is now in course of erection on West Eighth street just west of the Elks' hall.  
When the Pacific States Telephone and Telegraph Co agreed to lease rooms in the new building for their local office it was Mr Roney's intention to put up only one story, but owing to the general demand for office rooms he has decided to build a second story and divide it off in that way. The brick work is now up to the top of the first story.
