

The Portland Evening Journal puts itself on the back for giving readers important telegraphic news ahead of the Oregonian. It is true that the evening paper has the advantage of its morning competitor in giving the news soon after its occurrence.

We do not pretend to claim credit therefor, as it depends entirely on the difference of publication hours. The evening paper going to press at five o'clock has the chance to give its readers nearly all the important local happenings of the day twelve hours ahead of the paper that is published the next morning. And the Pacific Coast evening paper has a still greater advantage in giving telegraphic news right on the heels of the happenings. Our time is three hours later than Atlantic coast time, and five hours later than the average European time. Thus the Pacific Coast evening daily can give eastern states happenings up to seven o'clock of the same evening of our time, and European news till nine o'clock of our time. And thus we have the novelty of the evening paper publishing news apparently in advance of its happening.

The morning papers cannot avoid rehearsing the news that has been given the public by their evening competitors the evening before. Time is against them.

COURT DRESS FOR A CORONATION.

Those members of parliament who are too poor to afford a coronation court dress—and there are not a few from Ireland, especially—may console themselves that they have not missed anything in the postponement of the coronation of King Edward. Disraeli, afterward prime minister, was in that very condition on the occasion of the coronation of Queen Victoria. And there is not a little suggestion of 'sour grapes' in the letter he wrote to a fellow member:

I must give up going to the coronation, as all the members of parliament must be in court dresses or uniforms, and I can't afford to buy any. I console myself with the conviction that to get up at seven o'clock, to sit dressed like a flunky in Westminster abbey for seven or eight hours, and to listen to a sermon by the bishop of London are treats which can be missed with fortitude.

He could miss the show "with fortitude" when it was impossible for him to attend on account of being too poor to afford the required court dress!

UNIQUE FOURTH OF JULY FIREWORKS.

Lightning furnished the fireworks at Frugality, a little coal-mining town in Pennsylvania, yesterday. A dispatch says that within a few seconds a dozen bolts descended upon the town.

Several houses were struck and two were set on fire. Mason Emigh, a miner, was standing in his doorway when a bolt struck the house. Emigh was hurled into the yard, where he lay unconscious for a while. Recovering his senses, he found that both his shoes had been cut from his feet as though by a knife. The shoes, slightly scorched, were found in the yard. On the doorstep, curled up as if he was sleeping, was the dog, dead.

A sword dulled got a mark of distinction without risk of life in a duel at Vienna yesterday. He had an ear cut off. That man will shine among comrades of the duello, and they are plentiful and influential in the Austrian capital.

It is needless to remark that this is not good haying weather, nor fit for picnic celebrations of the Fourth of July. It can be truly said that it puts a damper on patriotic impulses.

THE VERSATILE CONVICTS.

The escaped convicts Tracey and Merrill are having a good time over in the Puget Sound country notwithstanding bloodhounds, sheriff's possees and reward-hunters. A Tacoma dispatch of July 2nd gives this very circumstantial account of the latest exploit of the two men:

A rancher named McCloud, living at Belmore, five miles west of Olympia, rode into town this morning and reported that just after dark last night the fleeing convicts, Tracey and Merrill, entered the house of an old man who lives alone next to McCloud, stripped the old man of his clothing, bound him tightly, took other clothing and all of the provisions in the house, washed and shaved themselves, and departed about 11 o'clock at night.

The old man was found at 7 o'clock this morning. While bound he watched the convicts for two hours, heard parts of their conversation, and knows they are the wanted men.

Such fools ought to get caught and hung for not knowing enough to keep out of the way when there is no necessity for public performances on their part.

General Jacob Smith, he of Philippi fame, must have had an excellent pull with the court-martial that considered his case, his famous order "100" to "kill, burn" and make a "howling wilderness" of Samar to the contrary, notwithstanding. Instead of dismissing such a brute from the honorable service, the court finds that he should be cautioned by the reviewing authority, the President, to be more circumspect in the future. That means, we suppose, that if he is caught at it again he may be punished.

Tracey is keeping up his reputation for a dead-sure marksman at a human target. Those people who are so anxious to capture him would do well to take out some extra life or accident insurance. Still the latter policy might not hold good. The insurance company would have good reason for evading payment with the claim that a death at the muzzle of Tracey's rifle was not an accident—that it was a sure thing.

King Edward of England has not forgotten Mrs Langry. When her daughter got married the other day there were included in the gifts a jewel and an autograph letter from the king. When his queen first heard that it is probable she felt for a few moments at heart that Edward would make a handsome centerpiece for a royal funeral.

The weather is obstinate, discrediting weather prophets, even the barometer. The generally sure aneroid instrument gave good indications of better weather last evening and early this morning, but still it rained. And there is no particular reason for our bad weather to continue now that the Fourth of July celebrations have been spoiled all over the country.

Mayor Williams commences his mayoralty term at Portland with work blocked out that might well make a younger man hesitate—the mayor is near the eighty mark. He would suppress the worst features of the social evil, as seen in Portland's "north end," also stop gambling and regulate saloons.

Without the proof is direct and borne out by witnesses of unimpeachable integrity the hanging of a man like August Schlieff at St Helena, yesterday, when he stoutly proclaimed his innocence on the scaffold, must make one question if judicial murder has not been committed.

Salem Journal: Jack Matthews, as United States Marshal, is a fitting appointment since the organizer got hold of the Republican party.

Wealth is no compensation for ill health. A Chicago millionaire took the short route out of the world yesterday to escape the ills that flesh is heir to.

THOSE KILLED

By Tracey, the Outlaw, Thursday Night.

The dead—Deputy Sheriff Charles Raymond, Policeman E. Breeze.

Fatally wounded—Deputy Sheriff John Williams, Guard Neil Rawley.

This is the list of the men who fell before the unerring rifle of the Oregon desperado, Tracey, in and near Seattle Thursday night.

\$5,000 REWARD

The reward for the capture of Tracey, dead or alive, is now \$5,000. Governor McBride, of Washington, has placed \$2,500 on his head, believing that a sufficient amount would be a potent factor in ending the long series of crimes committed by the desperado.

NO TRACE OF MERRILL.

OLYMPIA, Wash, July 4.—Officers here admit that they are "up in the air" in regard to the whereabouts of Convict Merrill. Not the slightest trace of him has come to light. Sheriff Mills, who has been in the chase for a week, states that he has had no authentic information of Tracey and Merrill being together north of the Cowlitz country. At several places where Tracey secured provisions he stated that Merrill was close by, but Merrill was not actually seen. The search for Merrill has practically been abandoned so far as Thurston county is concerned.

MARRIED.—Harvey Barmum and Miss Albee Gun were married at the home of the bride's parents in the Santa Clara district below Eugene July 2, at 7 p.m., Rev G W Gregory officiating. They will continue to reside in the vicinity which they were married.

GOLD MEDAL.—Jasper Wilkins has received his gold medal for the exhibit of grains and grasses at the Buffalo Pan-American Exposition. It is three inches in diameter and of very neat design.

THE ELIXIR OF LIFE.

The Secret of It Revealed.

The old philosophers had a dream that there existed or could be compounded a rejuvenating elixir, by the use of which men could live on and on in youthful vigor and enjoyment. Some thought that there was a fountain of youth to be discovered, and so went far afield to seek it. They failed to find the fountain, but they found new lands. Others shut themselves in secret chambers and with crucible, alembic and retort sought to distill this elixir. They too failed, but they created chemistry. Only a few years ago Dr. Brown-Sequard was announced as having at last discovered this precious elixir. But his discovery also failed under test. And yet the elixir of life exists. It is such a common-place thing that we overlook it.

The real elixir of life is the food we eat. All physical life is sustained by food, and food alone. You can't live without eating. But you can eat without living. Because it is not what is eaten which sustains life, but only so much of it as is digested and assimilated. That is why physical weakness and wasting of the body point inevitably to disease of the stomach and its allied organs of digestion and nutrition.

NO MAN CAN BE STRONGER THAN HIS STOMACH.

In a condition of perfect health the measure of a man's strength would be the quantity of nutrition contained in the food eaten. When there is disease of the stomach and its allied organs, the measure of strength is the quantity of nutrition extracted from the food eaten. Disease of the stomach means loss of nutrition, and loss of nutrition means weakness. That is why weak stomach means weak man. Stomach "trouble" which is spoken of so lightly is often the root of heart "trouble," lung "trouble," kidney "trouble," etc. These are all organs of the body, and when the body as a whole is deprived of nutrition because of "weak" stomach, the organs which make up the body are, of course, the real sufferers.

If this theory is not sound how can we account for the cures of heart, liver, lungs, kidneys, etc., by Dr. Pierce's Golden Medical Discovery, which is essentially a medicine for the cure of disease of the stomach and other organs of digestion and nutrition? Such cures are a matter of constant surprise to those who sought only relief from stomach "trouble" and found health for the whole body in the use of the "Golden Medical Discovery."

"I had been afflicted for four years with what the doctors called indigestion and liver complaint," writes Mr. J. M. Clark, of Heald, Tenn. "I had tried medicine until I had given up all hope of getting well. I wrote to Dr. Pierce and he advised me to use his 'Golden Medical Discovery.' I commenced its use at once, and after using two bottles

BOLD TRAIN ROBBERY.

The Denver Express Was Held Up Near Dupont, Ill., Last Night.

JOLIET, Ill, July 5.—Three men held up the Denver express on the Rock Island near Dupont, a few miles from here last night. They compelled the engineer and fireman to accompany them to the express car where on threats of death the engineer asked Express Messenger Kane to open the door. Kane showed some resistance and was shot through the groin. The robbers then took a sack of jewelry with which they fled. A few hours later one was captured. He gave his name as Chas E Lester, of Molina, Ill. Kane has been taken to Chicago in a serious condition. An unusually large amount of gold was in the express safe, but the robbers secured none of it.

The establishment of the mail delivery at Peuliston has been postponed for another three months.

The Oregon Fish and Game Association has planted 8,000 lake trout in Triangular lake, cut west of here this year.

Leston Lewis, who just recently graduated from the U of O accepted a position last week as bookkeeper in the Booth-Kelly mill at Saguaw.

The loss on the J C Small residence at West Sixth and Washington streets which was recently injured by fire has been adjusted by M L Campbell, local agent for the Continental Insurance Co.

Winters Wallace has resigned his position on the Cottage Grove Leader and accepted a position with Hemeway & Burkholder, general merchants of that place.

Cottage Grove is to have a laundry, the plant having arrived this week. The Nugget says that between \$200 and \$250 is sent out of that place every month for laundry work at present.

of the "Discovery" and some of Dr. Pierce's Pellets I was able to do a reasonable day's work. When I commenced taking it I weighed 155 pounds, and when I quit I weighed 178. The "Golden Medical Discovery" is the best medicine for such diseases and to build up the constitution that I ever knew of, and I take pleasure in recommending it. "You may publish this if you wish, and if any one doubts it being true, if they will refer to me I will write to them myself, and if they will try it they will be convinced."

WEIGHT IS THE WITNESS.

There is a witness to the soundness of the cures effected by "Golden Medical Discovery," whose testimony is unimpeachable. It is the witness of weight. There's no sentiment in the scales. No imagination in the pound weights. They deal absolutely with the solid facts of solid flesh. When a man is sick with indigestion and liver complaint he generally loses flesh. When he takes "Golden Medical Discovery" and cures the indigestion and liver complaint his lost flesh is regained. That was the case with Mr. Clark. He gained twenty-two pounds as the result of his cure; twenty-two pounds of solid flesh, not flabby fat.

"For six long years I suffered with indigestion and my liver and kidneys, which baffled the best doctors in our country," writes Mr. E. L. Ransell, of Woolsey, Prince William Co., Va. "I suffered with my stomach and back for a long time, and after taking a 'cart-load' of medicine from three doctors I grew so bad I could hardly do a day's work. Would have death-like pains in the side and blind spells, and thought life was hardly worth living. I decided to consult Dr. R. V. Pierce, and his staff of physicians. They said my case was curable and I was greatly encouraged. I began taking Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets,' as advised. Before I had taken half of the second bottle I began to feel relieved. I got six more bottles and used them, and am happy to say I owe my life to Dr. Pierce and his medicines. These words are truths, as I live, so if this testimonial can be used in any way to be of benefit you need not hesitate to use it. I shall stand for the Invalids' Hotel and Surgical Institute as long as life lasts."

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It purifies the blood, and builds up the body with sound flesh and solid muscle. It is the best of tonics for those in a debilitated and nervous condition, speedily restoring them to vigorous health. Those who suffer from chronic diseases are invited to consult Dr. Pierce, by letter, free. All correspondence strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's offer of free consultation by letter, is not to be confused with the spurious offers of "free medical advice" made by men or women without medical knowledge or training, and who are therefore incapable of giving genuine medical advice.

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose. Therefore accept no substitute for "Golden Medical Discovery."

NOTHING TO PAY

except expense of mailing to obtain a copy of the great medical work, Dr. Pierce's Common Sense Medical Adviser, containing over a thousand large pages and more than 700 illustrations. This book in paper covers is sent free on receipt of 21 one-cent stamps, to pay expense of mailing only. For the cloth-bound volume send 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

Virulent Cancer Cured.

Startling proof of a wonderful advance in medicine is given by druggist G W Roberts of Elizabeth, W. Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his one hopeless till he used Electric Bitters and applied Bucklen's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and uric acid poisons at the same time this salve exerts its matchless healing power, blood diseases, skin eruptions, ulcers and sores vanish. Bitters 50c, Salve 25c at W L DeLano's.
