John Hawkinson, a Blue River miner, is in the city. He has just made a strike on his two mining claims, the Blue Bird and Red Cloud, that is bound to make him a rich man. State Senator R A Booth, of Lane county, is spoken of as a possible candidate for United States senator at the coming session of the legislature, says the Portland Telegram. Senator Booth is one of the best known politicians in Southern Oregon and was chairman of the last Republican state convention, when W J Furnish was nominated for governor. Senator Booth's name had been casually mentioned for governor prior to the convention, and it was in recognition of his prominence that he was selected as permanent chairman. There are many politicians who declare that Booth could have landed the nomination for governor had he been willing to permit his name to be presented at the time. Of late the name of Senator Booth has been heard in connection with the presidency of the state senate. He was considered quite a formidable candidate for the place, and it is natural now that he should be discussed as being in the field for the higher honor the position of United States senator. Southern Oregon has not had a senator in many years, so that geographically Senator Booth has an element of location in his favor, but Senator Charles W Fulton, of Clatsop county an avowed seeker for the toga, also has this advantage. And so have other.

The rumor that Senator Booth may be considered as a factor in the race originated in his own county. A close political friend of Senator Booth is responsible for the statement regarding the Lane county statesman. The information was made that a combine is now being effected in which Senators Booth and Fulton figure prominently. It is further stated that in the event of Fulton being unable to land the nomination himself he will throw his strength to Senator Booth and that between them they have enough votes to carry off the prize. Fulton's strength is unknown, but is rated by a follower as being but a handful short of the requisite number necessary to elect.

## Those Organ-Grinders.

The people who dropped their nickles and dimes into the tin cups of the blind man and woman who played their hand organ and accordion all day long on the street corner yesterday will probably regret their action when they read the following from the Salem Statesman: "The Pinkerton detectives accompanying the Wild West show stated in Salem that they had not seen a professional pick-pocket or criminal of any kind follow the show for several weeks, that the criminal gentry were beginning to avoid Buffalo Bill's outfit. One of the Pinkerton's stated, however, that one camp follower had been with the show for over 26,000 miles. It was the accordion player and his wife with the hand organ. The officer stated that these people were constantly with the show following it from town to town and they had garnered up thousands of dollars which money was loaned out and was bringing in sufficient revenue to support him and his family in luxury."

## No Wheat for Export.

The Eugene correspondent to the Oregonian writes the following concerning the wheat situation in Lane county: "From present indications little wheat from this portion of the Willamette valley will reach the export market this season. Mills in this vicinity and other parts of the valley are in need of all the wheat they can get and are paying slightly better prices than can be had for export. Representatives of the Salem mills, as well as others, have been through this county for the purpose of buying wheat for their mills. Besides the mills in this city, Springfield and Junction City are reaching out to get what they can. Offers of as high as 60 cents per bushel have been made in some instances, but the ruling price now is 55 to 57 cents, which is better than the farmers have been getting for three or four years."

## A Bad Bicycle Accident.

Floyd King, aged 18 years, a son of W S King, residing four miles below Eugene, met with a bad accident last night about 12:30 o'clock. He had ridden to town on his bicycle to take in the Wild West show and when returning home the forks of the wheel broke square in two, pitching young King with great force to the ground, striking on his face. The portion of the road where he hit was gravelled and the sharp edges of the gravel cut a big gash clear through his tongue and lacerated his lip and other portions of his face in a terrible manner. He managed to reach home and Dr L W Brown was sent for to attend the boy's injuries. The doctor sewed up the cuts and this morning the boy was brought to the Eugene hospital where Dr D A Paine further administered to him.

An unknown man, apparently Swede, was discovered beneath the elevated sidewalk on South Willamette street last night after the show. He had quite a gash in his scalp and utterly refused to be helped out of his predicament. Several young men offered to help him, but he was a powerful fellow and did not seem to appreciate the intended kindness. He finally crawled out and walked down the road, lost in the crowd. He probably fell from the sidewalk and was temporarily dazed by the shock.
