The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

Those earnest, self-sacrificing women, the WCTU, are meeting in state convention this week, from today till Friday inclusive.

Maine held a state and congressional election today. While the state is safely Republican the opposition made a spirited campaign.

Those Texas politicians are good stayers. It took 7201 ballots to nominate a Democratic candidate for congress at Fort Worth last week.

There is nothing in a name. Fisher Million, a South Carolina negro, has been tried for vagrancy and ordered sold into servitude for twelve months.

Oregon City waterwheels take all the flow of the Willamette river these September days, putting the 42-foot falls out of business. It will not last long.

They couldn't "whip up" A British bark just in at Portland reports that she was becalmed a solid month off Montevideo on the east coast of South America.

Nature is not partial in the bestowal of anguish attacks on our old fire core-eaten globe. While Pelee is doing such terrible deeds the widely separated points of France and India report earthquakes.

Helen Stone, the kidnapped missionary, says the prayers did more for her release than all the cash contributed. She should have spoken sooner and not allowed the Turks to get all that good ransom money.

Cuba is starting off bad in proposing to start a lottery to repay a \$35,000,000 loan. A lottery is a gamble where the proprietor is a sure winner. A correct national conscience would not tolerate the abomination.

There is one con out of the race for the Republican nomination for congressman for the third district of our sister state of Washington—Charles S. Coon, one of the most prominent candidates. He withdraws from the race.

It was all very well for President Roosevelt to put himself in the way of an honorary membership of the Brotherhood of Locomotive Firemen at Chattanooga yesterday, but the question will come to many minds: "Apart from political reasons what is the Brotherhood to him?"

Talk about miracles! John Larsen while attempting to "loop the loop" on his bicycle at the Portland Elks' Carnival Saturday evening was thrown seventy-five feet through the air and down onto the solidly packed crowd, together with one 95-pound bicycle, and no one was seriously injured.

It seems that a man is not his own boss over in England. A few hundred coalminers quit work there the other day without giving the mineowners notice. Their failure to do so cost them \$100,000 in damages each. Is it necessary to be a rebel to get a raise in pay?

A steamer from New Zealand made an unusual discharge of her cargo at London yesterday. She had the carcasses of eight thousand sheep in her cold storage rooms but through some mishap the meat had spoiled. The ship was ordered out to sea into which the carcasses were dumped.

Klamath county has ceased paying bounties on coyote scalps. There are comparatively few sheep in the county, besides it is claimed that the coyotes should get credit on his ledger account enough to overbalance the debt side through making not a few of his meals off the grass-destroying jackrabbits.

Rev Sam Small the popular preacher and lecturer should not be judged too harshly through falling by the wayside in a Vermont town. It is a prohibition state and in such the people who are supposedly violating the law really do not. The stuff sold in such cases has little resemblance to whiskey, the name is about all.

There is one Illinois man who will hardly show his face in the state metropolis soon. He suggests that the word "Chicago" is derived from an Indian word, Jikag, which translated is "pole-out." Whether it was a favorite resort for the little black and white animal, or the swamp smell was a reminder to the observant Indian, must be left to conjecture.

The Southern Pacific Company has begun construction on an oil tank at Ashland that will hold two and one-quarter millions of gallons. The tank will be thirty feet high and one hundred and fifteen feet in diameter. The use of wood for locomotive fuel by the Southern Pacific is now narrowed down to the Oregon division of the road. And that will soon be changed.

Last Saturday the vaults of the United States treasury contained \$597,936,194 in gold, the largest amount at any one time in its history, and with one exception the largest amount ever held in any treasury. About eight years ago while preparing for the transfer of her financial system to the gold standard, Russia had at one time approximately \$598,000,000 of gold in her treasury.

Oregonian: Don't worry about whether Charlie Schwab is earning his \$800,000 salary. The steel trust can pay it. The trust has cleared \$150,000,000 in the past year.

From the breezy way the Portland paper refers to the steel trust steal—No other word expresses it—one would suppose the writer has a working interest with "Charlie Schwab," at least is glad of it.

It was only a year ago Saturday that President McKinley was shot at Buffalo. During the eight days that intervened till his death the country awaited news from the president's bedside with intense eagerness. Saturday the steel trust played a wicked game of hide-and-seek with the public. It was a few days before the world was told that the president had been shot. And on the day the world was told the steel trust was not to be mentioned. There is time for pacifists to say the irritants have been disposed of.

C C HAMMOND.
Dated at Eugene, Or, Sept 4, 1902.

Oregon is the second greatest peach producing state in the union, Texas leading with Oregon a close second. Then comes California quite a distance behind.

French dealers from Paris have arrived in San Francisco to buy California and Oregon dried prunes. The French prune crop, which is usually 25,000,000 pounds, will be less than one-fifth that amount this year. It is expected that two-thousand carloads of prunes will be shipped from the Pacific coast to France to be dried there under the French process and sold as French prunes.

The Oregon remedy for not a few of the ills that flesh is heir to is prayer. For in the Philippines to check cholera ravages an abundant downpour of rain. The health of Western Oregon is never better than when our winters are rainy from start to finish—no cold or clear sunny spells. They bring the doctors fat fees while they fatten up the graveyards. And our splendid falls should not approach too near winter without having rains.

Four threshing machines exploded in Whitman county, Washington, grain fields Saturday, a total of eight for the season. The cause is a mystery. Last season, when eighteen separators were destroyed by explosions and the fire that followed, was the first to chronicle such an accident. Smut in the grain or the use of petroleum lubricating oils is thought to be the cause.

The throwing of confetti, the Italian name for bits of paper discs, has become a soul-stirring nuisance at the Portland Carnival. The Oregonian remarks that "they have thrown handfuls of confetti down the backs of genteel women, and watching the moment when a woman's lips are parted in laughter, toss the colored stuff into her mouth, often with considerable force." Too bad! And the stuff is not good to eat, while it irritates the skin.

General Chaffee announces that he is going to have peace over in the Philippines though he has to fight for it. That is right. General Crook was our best Indian fighter. And when he went after the Indian it was for his scalp. He fought a merciless foe and fought him mercilessly. The Filipino is no less warlike than our Indian. The Indian war was for that matter a war of extermination. There is time for pacifists to say the irritants have been disposed of.

Encyclopaedia for Sale.

The GUARD offers a ten-volume Americanized Encyclopaedia Britannica for sale. There are 6902 pages of the work, 90 colored maps of states and countries and numerous illustrations. It is durably bound in sheep and has been well used.

In this condensation of the Britannica special pains were taken, as the name indicates, to give special preference to subjects of American interest, at the same time pruning long and prolix articles of all superfluity, though not materially curtailing the presentation of desirable facts.

This encyclopaedia has been in constant use for several years. It is offered for sale for the sufficient reason that the office has been supplied with a complete Britannica with a five-volume "American supplement."

Don't Abuse Your Eyes
If you go on allowing your eyes to smart and ache and trouble you, you may never be able to make them strong again. I have studied the eye, I know what I am talking about. It is a patient, long-suffering organ, but it will snap at last, and then all the oculists and opticians in the world couldn't put it together again.

Don't put it off. Any irritation about the eyes means something. Come and find out.
J O WATTS, graduate optician, Over Chambers' hardware store, Eugene.

Electric Bitters are the surprise of all for their wonderful work in liver, kidney and stomach troubles. Don't fail to try them. Only 50 cents. Satisfaction guaranteed by W L De Lano.

Zion News.

ZION, Sept. 5.—We are sorry to learn that our road supervisor is on the sick list.

Hills Bros have taken a big donkey engine up to their logging camp.

Quite a sad affair happened the other day. Edger Johns on's dog got too much fish without any leaves and it proved fatal.

Quite a number are on the sick list in the valley.

Not long since a boy by the name of Preston was trying the sights of his gun in the way of shooting out the transom over the door of the Dexter school house and ending up by shooting the water bucket and dipper. Saying nothing of the goose that was killed, we consider him a good marksman.

Good luck to Linn county for raising the price for picking hops. You can see the smile all over the faces of the tired women when you give 40 cents for seven bushel and 60 cents for eight bushel boxes.
