All stoves have advanced again but buy as the stock lasts. Buy yours at same old price at Chambers Hardware.

The main entrance to Cockerline & Wetherbee's new store in the McClung block is being laid with a pretty pattern of tiling.

The Pitts Drag Harrow has a relief spring on the teeth and don't shake out loose. The Pitts is good. See it at Chambers Hardware.

Why pay $3.50 or $4 for a poorly made household treasure table when you can get the best table made for $3 at Day & Henderson's.

A Portland man has figured out that reclaiming the arid lands of Oregon would add 200,000 people and $200,000,000 in wealth to the state of Oregon.

Ten miles from Oregon City a destructive forest fire is raging. So far several barns and graneries and thousands of miles of fence have been destroyed. Six families have been rendered homeless.

W L Jones, Francis W Cushman and Will E Humphrey were nominated for congressmen at the Washington Republican convention at Tacoma yesterday. Jones and Cushman are present encumbents.

Don't go a foot in the big wagon, or a buggy and get a part of the pleasure of living. Chambers Hardware can fix you up from a $5 buggy to as good as you best needed. A good assortment still on hands.

A JEWEL FOR B F DORRIS

Fifty Years an Odd Fellow--The Presentation Made Last Night.

Daily Guard Sept 10

B F Dorris, the genial and efficient secretary of Spencer Butte Lodge No 9 I O O F, was last night presented with a veterans' gold jewel, to which all Odd Fellows having belonged to the order 50 years are entitled. Mr Dorris was initiated into Nashville, Tenn lodge No 2, in February, 1852, and has the distinction of never missing a meeting only when compelled to, and and of never becoming delinquent.

The affair last night was a complete surprise to Mr Dorris. It was arranged while he was away at the mines recently, and the acting secretary at this time made record of the proceedings on a separate sheet of paper and did not record it on the books, thus keeping Secretary Dorris in ignorance of the arrangements.

After the regular business session of the lodge last night a large number of Rebekahs were admitted and the presentation ceremonies were carried out. Hon J J Walton making the presentation speech in his usual happy manner. Mr Dorris was completely overcome with emotion and it was some time before he could reply and warmly thank his brethren.

After the exercises were finished the company repaired to the banquet room where C C Hammond of the Hazelton restaurant had prepared to accommodate 150 persons at the tables. The supper was thoroughly enjoyed.

VALUABLE PROPERTY PURCHASED.

Attorney Geo B Dorris agent for the Swift heirs has sold to Drs D A Paine and W Kuykendall, the property at Tenth and Willamette streets occupied by Buchanan's boardinghouse, the purchase price not being made public.

The lot is 82x160 feet in dimensions and is considered a valuable piece of property, having a splendid location.

Drs Paine and Kuykendall, when asked by a GUARD reporter about their plans as to what they intend doing with the property, stated that their plans not yet being fully matured, they have nothing yet to give out.

Foot Badly Mashed.

Daily Guard, Sept 11

Louis Wilson, employed in the Booth-Kelly Lumber Co's logging camp east of Saginaw, met with a painful accident this forenoon. He was chopping a log when it swung around and rolled on his left foot, severely crushing that member. He came to Eugene on the 1:42 train this afternoon and was driven to the hospital where the injury was dressed.

List of Letters

Remaining uncalled for in the postoffice at Eugene, Sept 10, 1902:

D T Clland, Johnie Mathews, J P Meuth, Mrs M E Wheeler, Jas L Scott, F Spelding, J P Snodgrass, Robt Tatum.

When calling for the above, say when advertised.

H F McCORMACK, P M.

Terms: for boarders per month $12; music per lesson, 50c; day pupils, primary and intermediate grades, per month, $1.00; day pupils, higher grades, per month, $2.00. For further particulars apply to SISTER DIRECTORS.

Each pair of our GLOVES sell another, at the Racket Store.

New furniture, new designs, new goods and Chambers Hardware prices which means always low.

CASTORIA. Bears the Signature of Chas H Fletcher. The Kind You Have Always Bought

CALEF-GRIMES NUPTIALS.

Mahlon H. Calef and Miss Anna Grimes United in Marriage Today.

Special to the Guard.

HARRISBURG, Sept 11.—A pretty wedding took place at the home of Mr and Mrs John W Grimes near Harrisburg today at 11 o'clock when their accomplished daughter, Miss Anna, was married to Mr Mahlon H Calef, of Portland. Rev Wm S Gilbert, of the Calvary Presbyterian church of Portland, pronounced the impressive ring ceremony under a banner of English ivy.

The bride was attired in a dainty gown of white over silk while the groom wore the conventional black.

Many beautiful and valuable presents were received as tokens of the high regard in which the young people are held. Only the immediate relatives and a few friends were present at the ceremony.

After a dainty wedding breakfast Mr and Mrs Calef left for Portland, their future home. They will be at home after September 23rd, at 386 Clifton street.

Prineville Planing Mill Burned.

The Prineville Review of Sept. 6 has this about the burning of the planing mill owned by Ed Harbin a former resident of Camp Creek, this county:

Wednesday morning between 8 and 9 o'clock the magnificent planing mill of Ed Harbin caught fire from the furnace and burned to the ground. It seems the fire originated in the boiler room. The mill uses shavings for fuel and a quantity of these were in front of the firebox, leaving the door open for an instant. But that instant was enough. A puff from the firebox ignited the shavings in front, and in a jiffy the fire spread all over the building. In five minutes the mill was a mass of fire, outside and in.

At one time during the hottest of the fire it was feared that the boiler would become overheated and explode. It was in the building and had full head of steam on; but upon feeling the heat from the outside began to "pop" and the escaping steam did much toward keeping down the fire in the interior of the building. Fortunately there was not even a suspicion of wind. Had there been the blaze would have been much more serious than it was.

The boiler and engine were saved; and strange enough they were the only insured property on the premises. The building, tools and equipment, with the exception of the engine and boiler were insured for $1,000. The building and fixtures were valued at $3 000.

The many friends of Ed Harbin will be pleased to know that he will rebuild immediately, upon the site formerly occupied by his planing mill. The new building will be 40x100 feet, two stories high and will be equipped with all modern machinery.

Straw hats for all hop pickers at any old price. P Frank & Son.

Good boys' wagons for good boys, all sizes at Chambers Hardware.

One of the strangest things conceivable is that farmers will pay $60 and $75 to strangers for a stove or range no better than those of local dealers to be secured for $40.

The Oliver plow lasts forever and you can always get extras. Do as your neighbors have done, set aside the old make and get an Oliver. They do the work easy.

Another unsuccessful attempt was made to loop the loop at the Portland carnival last night. H C Feltham made a good start and got to the top of the loop when he fell 30 feet to the ground, receiving no injuries, however.

E J McClanahan informs us that coming up on the train last night were nine women and seven men hailing from Illinois, on their way to Ashland where they would take teams for the Klamath county pine belt for timber land locations.

Albany Democrat: The Democrat takes back all the mean things it has said about Eugene's slowness. Last Sunday a Eugene woman while in Portland attended four churches in the morning, the First Christian, First Congregational, First Baptist and the Taylor St M E church. She had to get a regular Albany hustle to do it.

ON LAKE CREEK ROAD

Bicycle Trip to the Siuslaw is a Pleasure.

A Man With a Theory Which Might Interest Capitalists --Forest Fires on Road Not Dangerous.

A bicycle trip over the Lake creek road is not an unusual performance but is quite frequently the means of travel. This road is said to be the best route to the lower Siuslaw, as the grade road is in much better shape and the other parts are not so rough. The dust at this time of year makes riding hard, but after the heavy timber is reached there is very little dust. There is nothing more pleasurable than to have a coaster and take a good adventuresome speed down the grades of these smooth roads this side of Triangle Lake. The rider whirls down the mountain in all too short a time and then toils with his machine to the top of the next grade to enjoy it again. The trip is a decided pleasure if you do not mind the up side of the hills.

After making a long coast, a sudden turn in the road brings the rider into a full view of that pretty dash of water, Loon or Triangle Lake. Its surface contains at least 1000 acres and the bottom has never been reached by sounding. The banks are covered with a wealth of as fine timber as ever knew a woodsman's saw. This does not belong to the Oregon and California railroad but is all taken up by homesteaders. There are several claims in that region which will run 12,000,000 feet of timber to the 160 acres and there are thousands of acres of it.

This lake is the source of Lake creek, which winds on a gentle grade down to the Siuslaw river.

A GIGANTIC PROPOSITION.

Talking to one of the claim-holders on the lake we found that he has a perfectly feasible plan for the handling of that vast stretch of timber. It was this: To organize a company and erect a big saw mill on the shores of the lake, put a steam tug on the lake, cut the surrounding timber and chute the logs into the water, tow them to the boom of the mill. This would reverse the usual mode of floating logs for 50 miles through the creek. For the transportation of the sawed lumber he would copy after the Chico, California, flume which floats the sawed lumber for miles out of the mountains to the door of the planing mills in the city. This flume would be cheaper than a railroad and just as serviceable. It would control the whole Lake creek output of lumber and do a gigantic business. Thus do we find the chrysalis, which some day will grow into an industry wherever there is timber in this country. It is bound to come.

The residents along the road are mostly homesteaders who are making their living from the soil and not from timber. All claims are about taken in that district and the claimants are not disappointed in their holdings.

FOREST FIRES.

The pall of smoke which has obscured the landscape from the eyes of valley folks would cause them to think the whole country was on fire in the mountains. There were but two dangerous fires on the road, one near Blachley's, burning on the railroad property, and one to the south of that place. The great smoke is caused by burning slashing made during the winter and spring. Everything is dry and great care must be exerted by those who burn slashing lest the fire get away.

PRARIE ON FIRE.

On the road home there was some excitement caused by some half a dozen teams coming on the road west of Junction on the gallop. Information had come that the standing wheat belonging to Jeff Cox was in danger of fire and the reinforcements arrived just in time to prevent a great loss.

The trip can be made in better time than the stage. A comfortable rate is to take one day each way and spend a day between, enjoying the trout fishing and hunting in the mountains.

To Board the Park.

Plans for the carnival are taking shape. The board of directors held informal session on the scene of the anticipated festivities last evening and outlined the plan which will govern the general appearance of the park for the fair. A high board fence will exclude the curious and include the sights. Work on the same will not commence next Sunday as was stated by the morning paper, but on the Monday following. The board meets again tomorrow evening.

Not Doomed for Life.

"I was treated for three years by good doctors," writes W. A Greer, McConnellsville, O. "for piles and Fistula but, when all failed, Bucklen's Arnica salve cured me in two weeks." Cures Burns, Bruises, Cuts, Corns, Sores, Eruptions, Salt Rheum, Piles, or no pay. 25 cents at W L DeLano's drug store.

SEVEN MILE TUNNEL PLANNED

To Reduce Chicago-San Francisco Railroad Time to Two and One-half Days.

A San Francisco dispatch says the Southern Pacific surveyors that have been engaged since last spring to find a tunnel route for the Central Pacific railroad through the Sierra Nevada mountains are putting the results of their work into shape for submission to President E H Harriman. The route laid out for the surveyors provides for a tunnel 34,800 feet long, or nearly seven miles. The estimated cost is $14,000 000. It will cut down the summit grade 1500 feet and enable the company to get rid of all but three miles of the 42 miles of snowsheds. The proposed tunnel will pierce the mountains at an elevation of about 5800 feet.

The tunnel is part of Harriman's plan to reduce time between San Francisco and Chicago 12 hours, or from three days, as at present, to two days and a half.

Take Care in Selecting a Home Site.

It is most essential to people who are coming to our fair city to locate and who are contemplating to build homes, that they should carefully select a building site that is high and possesses perfect drainage, pure water, and as much beautiful scenery as can possibly be obtained to the eye of nature. Fairmount addition offers all of these advantages and is located directly adjoining the State University on the east and south. No location can offer better school facilities, and lots and acreage tracts will be sold on terms to suit any purchaser with a low rate of interest on deferred payments. For further information call on the Eugene Real Estate & Investment Company at 499 Willamette street, Eugene, Ore. They will take pleasure in showing the advantages offered in this plat.

Public Sale.

The undersigned will sell at public auction sale at the Kirk farm, four and one-half miles northwest of Irving on the Smithfield road, on Friday, Sept 26th, 1902, at 10 o'clock in the forenoon, ten milk cows—five with calves at sides; one dry cow; three two year-old heifers; three yearling heifers; one yearling steer; one shorthorn yearling bull; six spring calves; two heavy work horses, seven and eight years old; two work horses, seven years old; two driving horses, six and nine years old; one heavy two-year-old mare; three brood sows with eight, five and four pigs each; two Osburn binders; two mowers; one hay rake; one 7-foot disc; two 16-inch plows; two 14-inch plows, No 40; one cultivator; one harrow; one 3 ½-inch wagon; a hack, buggy incubator and breeder, and a 7-foot saw; also household and kitchen furniture. Terms: All sums of $20 and less, cash; over $20, a credit of six months, if desired, on note with approved security at 8 per cent interest. Five per cent discount on cash sales.

Y A GRAY.
G L JENNINGS.

J S STILES, Auctioner.

Escaped and Captured.

Daily Guard, Sept 11

Acting according to telephonic communication from Sheriff Huston of Linn county, Sheriff Withers last night located an escaped jail bird who had broken out yesterday in Albany. He was on the roof of a coach on the south bound train and when arrested said he had been held as a witness in a case and wanted to be moving on south. The young man proved to be Will Schmidt, son of A Schmidt of Albany and was held in the county jail on a charge of larceny.

He secured a sharp pointed instrument and dug through the walls. The capture was a quick one, the man being out of jail about seven hours.

Ladies.

We have taken the agency from the Inventor of the Ladies' Taylor Dress Cutter. The latest out. Kept up to date free. Those wishing to learn cutting please call at

BUCKNER & CLEVENGER, milliners.

Born.

Tuesday, Sept 9, 1902, to Mr and Mrs Geo F Warner, of Fall Creek, a ten pound daughter. All doing well.

Turkeys Wanted.

The Seattle Produce Company will pay 12 cents a pound for turkeys.

Monroe, Oregon.

LABOR TROUBLES IN SPAIN

Fourteen Thousand Masons and Hodcarriers on a Strike.

Asking Increased Wages.

Special to the Guard.

SAN FRANCISCO, Cal., Sept. 11—Official announcement is made that the kindred railroad men's organizations known as the Railway Conductors and Brotherhood of Trainmen have merged themselves into a strong, compact organization.

An increase of wages will be asked of the railroads. The claim is made that the transportation business is prospering and that the increased earnings are amply sufficient to permit the payment of better wages without impairing the productive power of railroad properties.

A Spanish Strike.

Special to the Guard.

BARCELONA, Spain, Sept 11—The labor organizations in which the masons and hodcarriers throughout the principal cities of Spain are united, have called a strike. Fourteen thousand men have laid down the trowel and hod and building operations are at a standstill

The anarchists have taken advantage of the excitement attending the strike, and the presence of so many idle men, to engage in rioting. Troops are held in readiness to suppress serious disorders.

Scalded to Death.

SALEM, Sept 11.—The little 2-year-old daughter of J H Fitzwater, after suffering thirty six hours from the effects of the scalding received in the camp of the family at Horst Bros.' Independence yard, passed away at 7 a m yesterday at the Salem Hospital. The child suffered intense agony, and death relieved the little one from its pain, after all efforts had been made to save the fleeting life spark.

The remains were yesterday shipped to Lebanon where the family resides and where burial will be had today, the grief stricken family accompanied the remains to their home.

Timber Burning.

Daily Guard Sept 11

W W Haines, of the Eugene tannery, left this afternoon for the upper Santiam country in Linn county in response to a telephone message informing him that a big forest fire is raging in that section and is now very close if not on a tract of hemlock timber land of about 200 acres owned by the tannery firm. This land was bought for the tan bark that it contains and if it burns it will mean a big loss to the tannery.
