# THE NEW MOSBY CREEK SAWMILL

## Site Being Cleared For Cottage Grove Lumber Co's New Plant.

**COTTAGE GROVE, Sept 20.**—A crew of men are engaged in preparing the site and building a dam and race for the new saw mill soon to go up on Mosby Creek, mention of which has been made in the GUARD several times. The incorporators of this company are F E Wheeler, F B Phillips, and J E Young, with capital stock of \$100,000.

The company has already secured 5000 acres of fine timber land and the enterprise bids fair to grow into one of the most substantial mill organizations in this section. The mill will be located about 10 miles from this place, and four miles off the main line of the O & S E R R. The company expect to haul the product of the mill the first season to the railroad by team, where it will be put aboard cars and sent to its destination, a market for the lumber having already been pledged.

It is understood that the management of the enterprise has encouragement that a branch line of the O & S E R R will tap the Mosby Creek timber section the coming season. It is expected that the mill will be in operation within 90 days.

### Surveys Finished.

Portland Telegram: Deputy United States Surveyor L E Willets of Hillsboro, has just completed the survey of a number of townships along the line of the Oregon Central Military Wagon Road grant, southeast of Eugene. These surveys were made in response to the demand for timber lands, on the western slope of the Cascades, and along the headwaters of the Middle Fork of the Willamette. A number of United States surveyors are still at work along the line of the grant, but they expect to get through before the winter storms begin.

### Blue River Road.

Brownsville Times: Work will again be resumed Monday, by Lin county, on the Calapooia river wagon road to the mines, and will be continued until the same is finished in this county. Ex-Commissioner Swan will have charge of the work. As the season will be rather late for mountain road building when Mr Swan has completed his task, it is doubtful if the remaining five or six miles yet to be completed in Lane county is finished this year.

# McKENZIE MAIL.

## Postoffice Department Makes New Order in Regard to Service.

Ell Bangs, the contractor on the McKenzie mail route, has received instructions from the postoffice department regarding the mail service between Eugene and upper McKenzie office, commencing from last Monday, the 15th.

The stage and mail goes to Blue River daily, except Sunday, the entire year, also daily to the other two offices farther east on the route, McKenzie Bridge and Foley Springs, during July, August and September and three times a week to them in April, May, June and October. One time a week to McKenzie Bridge in November, December, January, February and March, no service being given Foley Springs during the latter months.

The schedule has been arranged to cut out the useless service to Foley Springs during the winter months also curtailing the service to McKenzie Bridge during the same period, while it gives splendid service a daily mail—during the summer season when guests and campers through the resort places.

## Encyclopaedia for Sale.

The GUARD offers a ten-volume Americanized Encyclopaedia Britannica for sale. There are 6992 pages of the work, 96 colored maps of states and countries and numerous illustrations. It is durably bound in sheep and has been well used.

In this condensation of the Britannica special pains were taken, as the name indicates, to give special preference to subjects of American interest, at the same time pruning long and prolix articles of all superfluity, though not materially curtailing the presentation of desirable facts.

This encyclopaedia has been in constant use for several years. It is offered for sale for the sufficient reason that the office has been supplied with a complete Britannica with a five-volume "American supplement."

## City Property for Sale.

I own and have for sale about 300 lots in seven different additions to Eugene. Am laying off a new addition. Lots sold on reasonable terms for \$50 and upwards.

I employ no agents. I alone sell my property. These lots are going fast, so anyone wanting to purchase would do well to call early.

Some of this property would be exchanged for desirable timber lands.

T G HENDRICKS.

# MILLINERY DISPLAY ATTRACTS LADIES

## Many Fair Inspectors of the Latest in the Line of Headgear at the Shops.

**Daily Guard, Sept 20.**  
At the millinery stores this afternoon could be seen a fanciful display of fine fall wear. The predominating colors are still black, white, green and blue with little variation. Some of the hats are dreams of beauty, and expressions of delight were heard on every hand as they were placed on the heads of Eugene's fair maistrons and misses.

Miss Salzman on East Ninth street has two very pretty windows, one of them trimmed for the carnival in the pretty cream and crimson colors. Red and white hats predominate in this window.

Miss Whitecker has the latest of everything in the millinery line and the artistic appearance of the interior of her parlors attracted a throng of ladies.

Miss Kauffman has a nice stock already on hand but her big day is not until next week.

At Buckner & Clevenger's establishment on Willamette street could be seen some very pretty hats indeed. These ladies are also specializing on carnival colors just now.

# LOST THEIR HARD CASH

## Good Citizens of this Vicinity Part With Their Money to Salem Pick-pockets.

The pickpockets at the Salem fair made pretty good wages off of Uncle Dan Hunsaker of Goshen, and A C Jennings, our respected fellow townsman, last Thursday. In the crush of the crowd they were relieved of their cash to the extent of about \$118, Mr Jennings bearing \$100 of the loss and Uncle Dan the remainder. They do not remember when that light feeling came over them at all but first noticed that they were short of funds after passing through the crowd. They are the subjects of many quips today, all of which they take good naturedly.

# MR. COOPER HOME FROM NEBRASKA

## He Did Good Work For Eugene And Lane County While East.

**Daily Guard, Sept 20.**  
Willard Cooper, of the Willamette Valley Land Co, returned last night from Lincoln, Nebraska, where, for several months, he conducted a branch office of his company and where he exhibited a fine display of Lane county's products at the Nebraska state fair.

Mr. Cooper brought with him to Oregon a dozen or so families, quite a number of whom stopped off at different points in the state to look around before settling. Those whom he brought clear through to Eugene with him are: J W Mitchell and wife, Mrs. Mary Crane, Ed Hollenbeck, Al Ward and a German gentleman and his wife whose name cannot be recalled. These are all people of means and intend to purchase homes.

Mr. Cooper, in an interview by a GUARD reporter this morning, said that there is great interest taken about Oregon in Nebraska and he is sure of a big immigration from there this fall. He said that the display of grains, fruits, etc., which the company had at the state fair attracted great attention and will be the means of inducing many people to sell out their farms there and come to the Willamette Valley where farms can be bought cheaply and where crops never fail.

Mr. Cooper said that his company will conduct two more personal excursions of home-seekers to Oregon later this fall. The harvest season in Nebraska has been very late this year and a majority of the farmers are not yet through with their threshing.
