

TIRED AND WORN OUT.

Women Need

a constant supply of blood-making material or their systems will break down. The complicated female organism is so delicately adjusted as to be easily thrown out of balance. As a result, health and strength are affected by divers diseases. Motherhood, family, society all levy such drains upon her strength that most women break under the nervous tension. The demands upon her nervous strength are much greater than similar demands of the opposite sex. Hence she must be supplied in greater measure with the element—iron—that gives strength. The reason women feel tired and worn out and suffer from headache, pains in the back and limbs, etc., is because they have used up their supply of iron. Menstrual trouble is largely caused by lack of iron.

Dr. Harter's Iron Tonic

supply this element. It enriches the blood and restores what strain has used up.

Augusta, Ark., May 10, 1901. "After having sold Dr. Harter's remedy for thirty years I can conscientiously recommend it. I must add that I hold it in special favor. Dr. Harter's is a tonic and would recommend it as the very best preparation of iron I am acquainted with. To weak, worn-out women, and those troubled with nervousness, indigestion, and pale, thin blood, I believe it to be a panacea."

"J. E. Wilkinson, Druggist."

Lake County Weather.

A Lakeview dispatch of February 12 says: Last week was the coldest in 12 years. The entire country was under a pall of snow varying from eight inches in the valleys and on the high plateaus to several feet in the mountain areas. No far travel has been impeded the delight being excellent. Mail is arriving on time and many are enjoying the exhilarating. The lowest mercury has been six below. At Lakeview there is plenty of hay and cattle are being driven to feed here. Nearly all sheep are on the desert. So far no losses are reported except lambs on the range. It is thought less there will be heavy if the cold weather and northern winds continue.

ACCIDENT TO CHILDREN

Train Struck Trolley Car Loaded With School Children.

Humbert Swindlers on Trial at Paris--No Change for the Better in the Cold East.

(Scripps News Association.) Cleveland, Ohio, Feb. 19.—There is no appearance of abatement of the cold wave that is causing so much suffering throughout the East and Middle West.

The thermometer here stands at four degrees below zero, while in the central part of the storm belt it reaches as low as eight degrees below the zero mark.

HUMBERT SWINDLERS. (Scripps News Association.) Paris, Feb. 19.—The trial of the Humberts for wholesale frauds and swindling was re-commenced at noon today. All the Humberts appeared in the court, though Madame Humbert is undoubtedly ill. She shows signs of severe mental distress and physical suffering.

The court room was crowded with interested spectators, even standing room being packed to its limit.

PANAMA CANAL TREATY. (Scripps News Association.) Washington, Feb. 19.—Senator Culom gave notice this morning that at noon he would move for the Senate to go into executive session to consider the Panama canal treaty. Also to remain in continuous session until the treaty was rejected or ratified.

Senator Morgan's desk is piled high with reference books, as if prepared to hold the floor with an indefinite continuation of his speech against the referendum.

SHOCKING TRAIN ACCIDENT. (Scripps News Association.) Newark, N. J., Feb. 19.—A Delaware & Lackawanna Railroad train struck a trolley car on a crossing in this city this morning at 8:50. The trolley was loaded with children going to school.

Eight were killed and seven injured. The car was demolished.

VICTIM OF RELIGIOUS BELIEFS

Authorities Not Notified and Doctor Called to Treat a Case of Diphtheria—Child Dead.

There is considerable feeling in the community in the east end of town over the apparent intentional disobedience of the city health laws by the R W Welsh family who reside on East Twelfth street.

The little five-year-old daughter of Mr and Mrs R W Welsh has been very ill for the past week. Those who had charge of the child were believers in Christian Science and declined to call a physician until yesterday, when the case grew so alarming that Dr D-Bar was asked to stop in on his way to the country and diagnose the case.

When he called he found that the child was suffering from an attack of diphtheria in the worst possible form and could not live. He informed them of the disease but was not asked to do anything for the child. He ordered the parents quarantined at 2 o'clock and upon his return to the city found that the health authorities had been notified at 4 o'clock.

The child died at 2 o'clock this morning. Dr D-Bar is now treating the other children of the family for the same disease.

Guard Special Service. (Crow, Feb 16.—Those who were present at the Valentine social at Crow last Saturday night say that it was a grand success both socially and financially, \$45.40 being realized from the sale of the lunch baskets.

A protracted meeting is booked for Crow next month, to be conducted by Revs Bally, Day and Varney.

J W Doster is up from his place on Wolf Creek to see his daughter, Miss Annie, who has been spending the winter with Mrs W L Ford.

B A Smith, of Isle, was in our neighborhood last week.

Mr. Norris Owen and Mrs A J K... were visitors of Mrs Richard Liles today.

Foundation Stone on Hand.

The foundation stone is on the grounds of the new G-o Gross hotel and workmen are taking advantage of the nice weather to rush the work of construction. The lumber for the frame work is also on hand and will be erected as soon as the foundation is laid.

JAIL LIFE OF LYONS

Appears Indifferent and Has Little to Say to His Jailers.

We herewith give the picture of the man who foully murdered Sheriff Withers. The picture was taken last fall and is a good representation of the features of Lyons as he appears today.

EDWARD ELLIOTT LYONS.

A visit to the county jail gives one a slight insight to the life and condition of Elliott E. Lyons, who lies incarcerated awaiting trial for the murder of Sheriff Withers.

Since the tragedy he has not read any of the papers containing the account of the shooting or the subsequent chase, nor has he asked to see them. He eats and sleeps regularly, and, as he has recovered from his terrible flight, is not exhibiting any outward signs of physical worry. Neither does he appear repentant of his crime.

He lounges on the couch in his cell or sits on the solitary chair, with his back to the light and reads such books as are furnished the prisoners of the county bastille. He appears comfortable and entirely oblivious of his surroundings or the enormity of the penalty which he is sure to suffer within the next two months.

Lyons exhibits no religious tendencies which so often appear in the criminals who are about to suffer death. He looks well but has very little to say, sometimes passing whole days without a word to anyone. In spite of this he does not appear melancholy. Mrs. Lyons, wife of the murderer, has also become eased somewhat from her nervous tension and sees things in amore rational light. She appears to feel the disgrace more than her husband. The routine of jail life has also agreed with her and she looks quite well in spite of the terrible burden upon her mind.

BIG BOX FACTORY FOR ROSEBURG

Roseburg, Feb. 18.—Willard P. Andrus, of Roseburg, and Thos. K. Campbell, of Cottage Grove, last week filed articles of incorporation with the secretary of state, at Salem, for the Double Lock Corner Box Company, of Roseburg; capital stock \$100,000, divided into one thousand shares of \$100 each.

This is the introductory step toward the establishment of a box factory in Roseburg which has been in contemplation for some time by the promoters of the enterprise. Two of the incorporators, Messrs Campbell and Alexander, are connected with the Roseburg Lumber Company, and also have extensive lumbering interests at and in the vicinity of Cottage Grove. A few weeks ago they purchased a large tract of cottonwood east of Eugene for the proposed box factory here.

When interviewed in regard to the factory, Mr. Andrus stated that if the weather permits, work on the structure will begin inside of 60 days, and thirty days thereafter it will be completed.

The site of the factory will be near the depot grounds of the Great Central R. R. in Kinney's Improved Plat of the city of Roseburg. It is proposed to start up the manufactory with a force of about 25 men and a capacity of 1000 boxes per day, to be gradually increased as business expands.

Was Not Landless.

It will be remembered by a great many of the GRAND readers that two men were foully murdered down in the Coon Bay country something like two years ago by a man by the name of Landless. A reward for the arrest of Landless was offered but he has been missing ever since. It is believed by some that he is still in hiding in the coast country.

Last evening Chas MacQuibben and Peter Coigard, of Elmira, brought to Eugene a man whom they thought to be Landless, but when brought before people who knew Landless he was turned loose. This man gave the name of Carr. He somewhat resembles Landless and the Elmira men thought they had him.

THE LOGGING STREAM BILL

Reported Purpose of Supporters to Slip it Through in Modified Form.

Portland Journal dispatch, Feb 17. While it is practically certain that House Bill No 197, granting exclusive privileges of streams to corporations or individuals for logging purposes, will die in the Senate, Booth of Douglas, Josephine and Lan is working frantically to put it into form that will permit it to sneak through. The bill is now in the hands of the committee on municipal corporations, having been refused recommendation by the commerce and navigation members. It is subject to be reported at any time, and is now undergoing manipulation which will change its provisions materially.

"I intend," said Senator Booth, "to reduce the duration of franchises from 50 to 25 years; to arrange for the protection of irrigation privileges and water rights; to do away with the collection of toll altogether, and to insert a clause which will render it impossible for one person or corporation to secure a number of franchises to the exclusion of others."

But it would be hard to candy over the glaring defects of the original bill and it is being condemned on every side.

MAY BE BIG STRIKE

According to the Portland Telegram there is likelihood of a big strike of employees of the Southern Pacific Company. The Telegram says: Involving every line and division of the Southern Pacific is a strike threatened by the United Brotherhood of Railroad Employees. * * *

The plain of the United Brotherhood of Railway Employees is simple in the extreme, yet it involves one of the fundamental principles of the order, and consequently will be insisted upon to the very end. It may be briefly summarized in the following statement: With the resignation of F A Baneroff as local agent of the Southern Pacific, to accept the postoffice of Portland, came a new agent, Mr Merriman, formerly station agent at Salem. Within a week he announced a policy totally at variance with the old order of things. The old men were to go and younger blood introduced into the clerical and agency forces. Immediately following this new program came the dismissal of Hoff and Tyrell, for more than 20 years in the company. Other changes are announced, and Mr Merriman is only waiting for the right kind of new blood to displace them.

This is the situation and unless Hoff and Tyrell are reinstated, a strike will be ordered by the local union, in which more than 1000 men will be involved, with the imminent probability of all the Harriman lines becoming directly concerned. This of course means a complete tie-up. Less than three years old, the United Brotherhood of Railway Employees is one of the strongest organizations in the United States. There are 100 divisions, with a membership exceeding 65,000. Oregon claims 1500 living in Portland. Concerning the threatened strike, William R Apperson, agent Division No 4, of the United Brotherhood, said to The Telegram: "I may say without violating any confidence that unless Hoff and Tyrell are reinstated, a strike will certainly follow. These men are fully able to attend to their duties, and to discharge them now is an outrage we will not quietly submit to. Hoff has been with the company twenty years as agent at Irving, while Tyrell is a San Francisco employee of twenty-two years standing. Both men were assigned to the Portland office at their own request."

The Order of Railway Trainmen have asked for a 20-per cent increase in wages, and they, too will strike with Brotherhood if their concession is not granted. Both organizations now have committees in Frisco looking into the settlement of the matters at issue.

HOMESTEADING TO OBTAIN FUEL

Edward Deady, special U. S. timber inspector, who left this afternoon for Roseburg, told a Guard reporter at the train that the city of Ashland, Jackson county, was being supplied with wood cut from homestead claims which were taken up for the purpose of getting the wood, a direct violation of the law. He said he forwarded a report of his find to Washington and that there would be steps taken soon by the government to punish these homesteaders.

Man Drowned.

SALEM, Feb. 19.—A special to the Journal from Jefferson, says that Wm Meeker, an old resident, was drowned yesterday in the Manistowic river about a mile above the town. He had been trapping, and it is supposed accidentally upset his boat. The body was found in the afternoon.

COLD WAVE CONTINUES

Five Deaths from Freezing at Chicago in Past 24 Hours.

Thermometer Away Below Zero in the Northwest--Charity Fuel Exhausted in Chicago.

(Scripps News Association.) Chicago, Feb. 18.—The cold wave continues all over the Middle States and West, extending well into the South.

The lowest point reported by the weather bureau this morning was Bismark, North Dakota, 22 degrees below zero. It was ten below at Milwaukee and seven at Chicago. There is much suffering among the poor, hundreds of whom are out of fuel and are compelled to frequent public laos to keep from freezing. Five deaths from freezing are reported during the past twenty-four hours.

The Bureau of Charity has exhausted its supply of coal. The officials have strained every nerve to get coal, but without success owing to the badly crippled condition of the railroads from cold and snow.

Telephone and telegraphic service is being conducted in a hap-hazard way.

CORTELYOU'S NEW JOB

(Scripps News Association.) Washington, Feb. 18.—Former Private Secretary Cortelyou took the oath of office as the first secretary of the newly created cabinet position of the Department of Commerce before Chief Justice Fuller at eleven o'clock this morning.

(George B. Cortelyou probably owes his appointment to the ninth and last cabinet position to his holding the position of private secretary to President Roosevelt, at least to the personal friendship of the president.—Editor Guard.)

BEEF TRUST INJUNCTION

(Scripps News Association.) Chicago, Feb. 18.—Judge Georoscopus of the United States circuit court granted a temporary injunction this morning against the beef trust merger. The order virtually restrains packers from completing the trust.

OFF FOR THE FROZEN NORTH

J J Baruch, who with his brother, Chris, was employed in the butcher business in Eugene some years ago, and who has been spending the winter in the Willamette valley, away from the land of the midnight sun, where he has been for the past three years, will start for the Klondike next week with a band of sleek cattle.

Mr Baruch has had considerable difficulty in selecting his cattle but will be ready for the trip next week. His brother will join him in Hood River and the two will take the first steamer ply up the Yukon about the first of May but they will be at their destination long before that time, going via Skagway. They say there is big money in handling stock in that region.

THEODORE GEER CRAWLING UP

(Guard Special Service.) State House, Salem, Feb. 18.—The vote for United States Senator on today's ballot stood: Fulton, 32.

Geer, 27. (35 yesterday.) Wood, 16. (Democrat.) Williams, 5. Malarkey, 2. George I. Mills, 1. Mulkey, 1. Hermann and Jones were paired in the House.

ONE DAY DIFFERENCE

(Guard Special Service.) State House, Salem, Feb. 18.—The Senate passed a resolution this forenoon fixing Friday next at midnight as the hour for final adjournment.

The House refused to concur and this afternoon passed a resolution fixing Saturday midnight as the hour. Both houses have passed conference committees to secure an agreement as to the hour of adjournment.

BORN.

To Mr and Mrs E H Craig, of Camp Creek, February 18, 1903, a daughter.

In Eugene, February 18, 1903, to Mr and Mrs Frank Craig, 196 Washington street, a son.

WILL PRESENT NO MORE BILLS

Both Houses Will Spend the Time on Those Already Up--Veto on Forest Fire Bill.

(Special Correspondence.) Salem, Oregon, Feb. 19.—Last night both branches of the legislature passed resolutions to the effect that no new bills shall be received from either house during the remainder of the session. Hence both houses will, during the remaining hours of the term, consider measures which are now in their respective hands.

The governor's veto of the forest protection bill by Booth was not overlooked, since several of the provisions of this measure were known to have not been in accordance with the chief executive's ideas of justice to the taxpayers of Oregon. While the appropriation is made of \$500, annually, to carry out the provisions of the act, the bill authorizes the creation of claims against the state which might reach the sum of \$50,000 per year. This would of course be paid by a deficiency appropriation at each succeeding session of the legislature.

Lane County people in attendance at the legislative assembly today are, J. M. Williams, L. E. Bean, G. R. Chrisman, C. A. Hardy, Roy Booth, Eberly Kuykendall, M. Svarverud and Frank Moorhead. No doubt this representation will sway enough votes to elect a senator.

Today the house has been considering senate bills, each member choosing a bill as his name was called, thus allowing each member an equal chance with every other member. The Senate is following a like rule.

Speaker Harris has received numerous congratulations on his very able effort in behalf of the corporation assessment bill. His able arguments advanced on the floor of the house were fully appreciated, and only the strong ties of finance held many of the members from supporting the proposed law.

HANGING AT THE PENITENTIARY

SALEM, Feb. 18.—Death sentences will be executed at the state penitentiary instead of the various county seats, after 90 days from yesterday.

The bill has been signed by the governor, and, according to the original bill, would have been effective after five days, as it contained an emergency clause, but on account of the referendum, and as it would apply to no present case, this was omitted.

Otherwise the beginning would have been made by two notable cases, and the first executions at the prison would have been A L Belding and Elliott Lyons.

MR. HYLAND IS AGITATED

A D Hyland, the timber king of the upper Willamette, is down from L. well. He is considerably agitated over the proposed passage of the franchise bill now being discussed in the senate giving corporations the right to control logging streams in their own interest. He has a right to be agitated because he owns 6,000 or 8,000 acres of fine timber as there is in Oregon and would be a big loser if the bill were to pass.

He communicated with the governor today using his influence to induce him to veto the bill should it be passed. He was surprised when he heard of the measure and that Dr Kuykendall is standing in with it.
