

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of

Chas. H. Fletcher

The Kind You Have Always Bought
In Use For Over 30 Years.

A FIVE-YEAR-OLD CHESS PRODIGY.

There has risen in Vienna a prodigy of a new sort—not musical this time, but a five-year-old child who seems to have been born master of the intricate game of chess. He watched his father, the village apothecary, play the game till at four he knew all the moves and was allowed to play a game unassisted. The child played and lost, but in such a manner as to show that his infant brain had already grasped the rudiments of the game. Day by day he improved, beating not only his father and his friends but also old veterans of the great game from far and near, until the five-year-old child was acknowledged the chess champion of the neighborhood. Then he was taken to Vienna to astonish the recognized masters of the game—in which he seems to have succeeded.

He is big for his age, plump and rosy, looking just as other healthy and normal children. There is absolutely no external indication of his extraordinary brain development, which is so often obtained at the expense of some physical disadvantage.

THE ROLL OF HONOR.

The Oregonian will obtain from the office of the Secretary of State the list of names of those persons who have so little pride in their state as to try to defeat the Lewis and Clark Centennial; and it will publish the list by counties. In this way it will be shown what dead weight Oregon is doomed for the present to carry.—Oregonian March 22.

The robber hits his victim on the head with a club or shoots him in case he resists. The Portland paper proposes to take a more cowardly course—to attempt to injure its victims without taking chances of personal hurt. It will think some more, though, before it publishes the names of people who want the voters to have the opportunity to say if a half million dollars shall be taken from the wealth of the state that Portland may have a holiday. The Oregonian is in business. Not a few of the people whose names it might publish are its patrons. There is an evening paper in Portland, that is not owned by the Oregonian, and it is a pretty good one too.

Frank G. Carpenter, the newspaper correspondent, writes from Munich that in Germany "Beer takes the place of water. I venture there are ten glasses of beer swallowed here to every glass of water, and also that there are hundreds of men who drink on the average something like a gallon a day. Men, women and children drink early and late, and the total consumption surpasses conception. One of our consuls, of an arithmetical bent, recently made an estimate of the annual beer bill of the nation. His figures show that the Germans swallow enough beer every year to make a lake six feet deep and more than a mile square, and so much that it will average forty gallons to every man, woman and child in the country. Much of the beer is Bavarian, which country is said to make the best beer in the world. Munich alone ships nine million barrels every year, and it drinks more than it ships."

TIMBER LAND CHANCE.

A Roseburg dispatch says: "Official notice has been issued from the Roseburg Land Office that township 31, in ranges 9 and 10, will be thrown open for entry Friday, March 27. This township consists of a large body of timber land lying almost west of West Fork, and is in the extreme southern portion of Douglas County. As there have been many 'squatters' on this township there is expected a large rush at the Land Office Friday morning for, as usual, the timber shanks will be ready to crowd the settlers out, as the land office officials register only those who can get to the counter in a first-come-first-served order.

"The last time a new township was thrown open the counters in front of the Land Office rooms were crowded with settlers, who slept there all night in order to be first at the counter, and when the doors were opened the rushing crowd broke several panes of glass and a number of fights for positions occurred."

AN EXTRAVAGANT LEGISLATURE.

Of all reputations the late Oregon legislature did not make one for economy. Here are the figures for the last three sessions by way of comparison:

For 1899-1900.....	\$1,383,044.25
1901-1902.....	1,795,000.91
1903-1904.....	2,513,717.52

It does not seem possible that the needs of the state should have nearly doubled in four years and become a half more or thereabout in two years! It must be sized up as an extravagant legislature.

The sheriffs of Oregon and a few others are invited guests to Portland to a function set at the early hour of 6:30 o'clock next Friday morning. It is to the hanging of Belding, the murderer of his wife and almost murderer of her father. He committed the crime for which he must lose his own life the 11th day of July, 1902. Justice has not been particularly swift in this case.

Judge Hamilton makes a very good showing in comparison with the work of Oregon circuit judges as published elsewhere. The last regular report of the Supreme Court shows he had but three cases reversed, other districts with about the same amount of work showing four and five reversals. And it is to Judge Hamilton's credit that a less number of cases were appealed from his decisions than from most of the other judges.

Great Britain can buy our wheat and hops, but we may not buy of them though British ships come here in ballast, thereby making wheat cargoes pay for sailing the ships both ways. The tariff for the benefit of the eastern manufacturer is responsible for the robbery of Pacific Coast producers. In this connection it is not to be wondered at that British manufacturers are not hurrying over themselves with affirmative answers to the invitation to exhibit at St. Louis.

Teachers' Institute.

Following is the program of a local teachers' institute to be held at Cottage Grove, April 19 and 21:

FRIDAY EVENING—8 P. M.

TO WEEKLY GUARD SUBSCRIBERS.

Readers of the GUARD have doubtless noted the change of partnership whereby I. L. Campbell disposed of his interest in the GUARD publishing business.
To enable us to meet the considerable financial obligation involved in the purchase of his interest, we are calling on those indebted for subscription to the WEEKLY GUARD one year or more for the amounts due.
Kindly give the notice sent you prompt attention. We must meet our obligation—a considerable one of nearly five thousand dollars. We can do it if our subscribers will meet their obligations—small ones.
