THE CENTAUR COMPANY, NEW YORK CITY.

FINEST STEAMSHIP AFLOAT.

The new German transatlantic liner Kaiser Wilhelm II, left her dock on the other side for New York yesterday on the trial trip. She is expected to break the speed record, though it may be on a later trip. The Wilhelm II is equipped with engines capable of forty thousand horse power.

The displacement figures are 25,000 tons, which is enough to fill a canal 30 feet wide, 6 feet deep and 5,153 feet long. As for the coal bunkers, their size will be appreciated when it is known that their capacity is four times as large as of the biggest battleship afloat, and equal to the cargo capacity of a large ocean tramp. The vessel will have accommodations for 800 first class passengers, 400 second cabin and 1,100 steerage passengers, besides the 600 persons who will compose the officers and crew. In its interior fittings and decorations the ship will excel in many respects the finest steamship afloat.

The carefully prepared interview with Ex-Senator Simon published in yesterday's Oregonian will not prove pleasant reading for President Roosevelt. It is not often that a President has been directly charged with intentional falsehood.

A Portland contractor has been found guilty of having put too much sand in a cement walk—seventy-five per cent, when but fifty per cent is allowable. He was too hoggish. The walk would have stood sixty per cent sand, but with three-quarters the walk crumbled when used.

An architect of New York says that with the modern steel frame a building can be carried to a height equal to seven and one-half times the diameter of the base. By this rule on an ordinary city block could be erected a building 1500 feet high, 500 feet higher than the Eiffel Tower. It would have 125 stories, and cost about \$30,000,000.

Those people "up North" who so persistently complain that the negro does not get fair treatment South should heed the statement of the negro president of a Virginia negro college, made in a public address at Chicago Sunday night:

The solution of the negro problem lies with the negro himself. It can be brought about by his acquiring land, saving money, and educating his sons. There is nothing in the cry about social equality. The negro does not want it, and does not expect it.

Ex-Senator Simon accuses President Roosevelt with having lied—that is the plain English of it. And that is not all. He fairly proves it with letters bearing the signature of the President. Really the President's treatment of Mr. Simon does not redound to his credit. The ex-senator says he is loath to believe that the treatment he received was on account of his being a Hebrew, yet he cannot otherwise account for it. That he received fair promises—even specific promises; yet not a single promise has been redeemed by the President. That sounds bad.

Strikes cost. That of the seven cotton mills at Lowell, Massachusetts, affects nearly twenty thousand operatives, with weekly wages aggregating \$128,000.

It is not probable that Binger Hermann will be beaten for the congressional nomination in the district convention to be held in Eugene April 9th. It is Hermann against the field, and hardly one of the other candidates, when disintegration of his forces takes place, but will go to Hermann in preference to his fellows who are in the race against the old and cheerful Douglas County officeholder. His opponents say "the opposition must unite." They will unite—on Hermann.

The Russian government has set about regulating the age at which girls may marry in Turkestan. It has been customary for Mohammedan girls to marry between the ages of ten and twelve years, but orders have been issued now that no Mohammedan shall marry under fourteen. The Tartar and Turcoman chiefs are much incensed, as all seek to obtain brides as young as possible. Russian officials report that seventy-five per cent of the girls who marry under twelve die before they are twenty.

Dyspeptic.

Black—"White's a terribly quarrel some fellow. He'd rather fight than eat."

Stout—"So'd I, if I had his dyspepsia."

League baseball, Saturday: San Francisco 2, Portland 1; Los Angeles 5, Seattle 4; no game between Sacramento and Oakland; rain. Sunday: Los Angeles 7, Seattle 4. Rain prevented other games. The Portland team plays next in Los Angeles.

WHO KNOWS

When His Kidney Trouble Has Fastened and Reached the Chronic Stage? If It Has It Is Incurable by Anything Known Except the Fulton Compounds. We Are the Sole Agents.

As an evidence of the unusual character of the Fulton Compounds that company does not publish or issue testimonials except those reporting recoveries in kidney diseases that have reached the chronic stage, alleged to be incurable. Here is another recovery in a case incurable till the advent of the Fulton Compounds, reported by John A. Johnson, the agent of the Fulton Compounds in Los Angeles.

W. H. Bradley, a resident of Los Gatos, having chronic kidney disease (Bright's Disease) had, like everybody else, found all treatment futile. He commenced on Fulton's Renal Compound in February, 1902, and on December 10th of the same year reported the total disappearance of the disease. He writes that he has gained fifteen pounds in weight and is again able to do a good hard day's work. John A. Johnson, the Los Gatos druggist, confirms this recovery and knows of several other recoveries in similar cases of chronic kidney disease in Los Gatos, all of which were incurable by anything else known to Bradley, S. A. Walker, the leading druggist of Santa Cruz; H. H. Newland, the druggist of San Jose; Dr. M. J. R. Jones, the Berkeley druggist; Dr. Marley, the Livermore druggist; and Dr. J. C. Martin, the Sacramento druggist. All report specific recoveries in chronic kidney diseases that were positively incurable by anything known except the Fulton Compounds.

Every precaution from uric acid, gout and bladder troubles are proofs that the kidneys are not performing their functions. The chronic stage of kidney trouble is Bright's Disease. If you feel languid or miserable, if your kidney trouble hangs on, send for Fulton's. Percentage of recoveries nearly 90 per cent among pure chronic cases. Fulton's Renal Compound is sold by J. C. Fletcher, 40 Wash. St., San Francisco, and by all druggists. Write for free literature. We are the sole agents for the Fulton Compounds in this city.

LINN DRUG CO.

Personals

(Daily Guard, March 30.)

Fred Zeigler is up from Portland. Tommy Wheeler is here from Saginaw.

J. W. Shumate is here from Walterville.

Al Walker went to Comstock yesterday.

Miss Vera Eastham is visiting in Salem.

Attorney A. C. Woodcock is in from his ranch.

Prof. F. G. Young went to Portland Sunday.

Russell Coleman was over from Coberg today.

Mrs. Allie Eastham is in Portland on a short visit.

Mrs. John M. Pipes was a passenger north yesterday.

Mrs. Ralph Brumley is here from Salem on a visit.

W. L. DeLano arrived home from the north yesterday.

Internal Revenue Collector Hobbs is south on business.

Dr. Wm. Tatum was a passenger to Drain this afternoon.

Hon. I. T. Harris returned today from a brief trip north.

Eugene Stockwell returned from Roseburg this afternoon.

Chas. Cochran came down from Cottage Grove yesterday and returned today.

Ray Willoughby came up from Portland yesterday to spend the spring and summer.

E. M. Cramer, the Corvallis Carriage Factory man, was in the city this morning.

Admiral Schley passed through Eugene on his way north early this morning.

S. M. Yoran, L. N. Roney and J. F. Robinson were passengers to Grant's Pass this afternoon.

Miss Kittie Millhorn returned home to Junction yesterday, after a visit with Miss Wanda Logan.

Miss Lela Russell has gone to reside with her father at Seattle. She is attending the High School there.

Chester Washburne left yesterday on a trip to Mt. Jefferson. He will return by foot down the Santiam to Albany.

Mrs. J. W. Stewart went to Comstock Sunday to attend the funeral of Henry Stewart's little 11-month-old daughter.

Oscar Callison, wife and child, visited in Eugene a few days last week, returning home to Cottage Grove Sunday.

Mrs. Frank Hawk and daughter, left this afternoon for Roseburg, to join their husband and father, who is employed there.

The business part of Lyons, Linn county, the town where H. D. Wagoner's sawmill is located, was wiped out by fire Friday night.

Rev. W. A. Wood went to Myrtle Point, Southern Oregon, this afternoon to conduct funeral services over the remains of an old pioneer.

National Master Aaron Jones, of the Grange, arrived in Eugene this afternoon and was met at the depot by a delegation from the local Grange at the depot.

Orville Gross, nephew of Geo. G. Gross, returned this afternoon to Baker City after a short visit here. His father and mother will remain a short time in Lane county with a likelihood of locating.

Possibility of A Stone Building

The Guard is informed that among plans for the proposed new High School building to be erected this summer, the board of school directors has considered plans which call for a stone structure, and it is a possibility that it will be constructed of that material.

A number of the members of the board favor a stone building if the cost is reasonably near the amount desired to be expended.

A stone building would be lasting, would never need repainting and would be much handsomer than a frame one.

Florence, March 29.—The work on O. W. Hurd's sawmill is being pushed as fast as possible.

On Monday Bruce David, of Point Terrace, was thrown backwards from a cart, breaking one of the bones of the right fore-arm. It was immediately placed in position and he is now out with his arm in a sling.

L. P. Tallman has sold his place at Meadow, to Meyer & Kyle of this place, and they have sold it to Eli Bangs, reserving the timber. Tallman received \$4500. The amount paid by Mr. Bangs is not yet made public.

Rev. Tweed, of the Presbyterian church, has just closed a very interesting series of meetings.

Rev. T. A. Yost, of the United Evangelical church, starts on Monday to attend the annual conference which meets at Portland on the 9th of next month.

The tug Roberts has gone to Portland for repairs. When she returns she is expected to bring one or two logging engines from the Willamette Iron Works, for use on this river.

Wm. Kyle has just completed a system of water works at his residence in Florence. In addition to supplying all parts of the house he has a fountain and hose and sprinkler on the lawn. He expects to put in sewer pipes from there to the river, which will make a great sanitary improvement for that part of the town.
