Note and Comment.

That was a terrible accident up at Pendleton, a woman-worker in a laundry getting both hands caught in a mangle and mashed to a jelly, necessitating amputation!

The report of the Superintendent of the Oregon insane asylum filed April 30, showed 1298 unfortunates under treatment. Just think of the misery under that bit of roof!

The theory that salmon eat nothing after entering fresh water has received a decided negative at the mouth of the Columbia fisheries this season. The toothsome smelt is running in with the salmon, and in many instances smelt have been found in the stomach of the salmon. And this to the sorrow of the cannerymen, as smelt which have eaten smelt spoil very quickly—soon smelt as it were!

Mrs. Costello shot the father of her children at Buffalo, New York, yesterday, and all because he would not give those children to her care. A divorce tragedy.

William Lloyd Garrison, son of his father, the latter the famous old abolitionist of "before the war" days, is in Portland. And he is an old man. Time not only flies but seems to take lightning express train conveyance.

And now Hearst is digging up Hermann's record and will tell why the Roosevelt administration kicked him out of the general land office. It will make no difference. Just think of the rotten record of Furnish, and Governor Chamberlain beat him less than three hundred, and that at a general election! He should have beat him ten thousand, and would have ment voted their honest sentiments.

INCURABLE.

That is What the Books Say of Chronic Kidney Disease. But the New Fulton Compound Have a Record of 87% of Recoveries Among Chronic Cases Incurable by All Other Medicines.

Doctors know that kidney disease that has hung on eight or ten months has become chronic and that it is then regarded by physicians as incurable. It is the aim of the Fulton Compound to break up the chronic disease before it becomes incurable. It is a proven fact that nearly nine-tenths of all cases are now curable, and druggists themselves are failing the new Fulton Compound. One of the secretaries was Dr. J. H. Linn, the pioneer druggist of 422 Pacific street, San Francisco, and so goes it to cure a chronic disease also required. There is another important feature. (We are in the appropriate sense of the word.)

After six or seven months of chronic disease J. H. Linn, of San Francisco, has recovered his health and is now in the best of health. He writes: "I was afflicted with chronic kidney disease for six months, and was regarded by physicians as incurable. I was advised to try the Fulton Compound, and after taking a few bottles I was cured. I am now in the best of health and have no more of the disease." The Fulton Compound is a powerful medicine, and it is the aim of the Fulton Compound to break up the chronic disease before it becomes incurable. The editor of the News is well as the friend of the sick. He has been afflicted with chronic kidney disease for six months, and was regarded by physicians as incurable. They don't do it. And we don't lay the blame at Republican doors exclusively. The Democrats are just as bad.

Carnegie is in favor of putting the railroads under state control. How about iron works? If the state had not given iron manufacturers the chance to charge people almost as they please, Carnegie would not now be throwing thousands and hundreds of thousands of dollars about with as little care as you throw biscuits at your dog.

Hermann's years in congress are dwelt upon as great reason why he should be kept in office. Somehow, though, they fail to mention his distinguished services as commissioner of the land office. That is a sore spot. It is hard to vindicate Hermann and express full confidence in the Roosevelt administration at one and the same time.

It is said the German emperor's visit to the Pope has for its object the winning of the friendship of the Vatican from France. The Kaiser certainly is not so foolish as to suppose for a moment that the Pope will favor a Protestant country at the expense of one whose people, generally, are loyal Catholics!

Chicago is going dirty through strike of laundry employees; and Portland is not much better off, though the latter city has the ever-ready-to-work Chinaman to fall back upon in the dire emergency.

They must take heroic measures up at Frank, the little town where eighty lives or thereabouts were lost by a rock slide from the top of the mountain the other morning. Careful inspection of the top of the mountain shows that other slides are possible, therefore they will knock the loose and dangerous rock off with dynamite. It may wreck more of the town, but public safety demands it.

Living under the constant fear of being crushed by falling rock would be about like taking up living quarters in a powder factory.

The recently harvested wheat crop of Australasia is estimated at 20,000,000 bushels, compared with 44,231,000 bushels the previous year, and 55,000,000 the year before that.

John Bull robbed Bismarck on one occasion, at least—got Zanzibar on the east coast of Africa in exchange for insignificant Heligoland, off the German coast. The rock of which the latter island is composed carries a large percentage of salt and is slowly melting into the North Sea. Eight hundred years ago it was five times the present size. Of course Bismarck was aware of the wasting nature of Heligoland, but at that time Germany was not affected by the colonial fever and Zanzibar was considered practically worthless. If the German emperor had the rich island now it would take a pretty consideration to take it from his grasp.

Pallid in Court.

The complaint filed yesterday evening by the ministers and their agents against the directors of the Eugene Baseball Co. which was incorporated a few weeks ago, resulted this morning in the members of the organization being cited to appear at 3 o'clock to answer the charge of violating the Sunday amusement closing law, last Sunday.

Constable Jack Smith delivered the papers to the gentlemen cited and they were the same as being under arrest the remainder of the day.

At the appointed time the gentlemen appeared in the courthouse, stricken with fear, their faces pallid and their forms vibrating in psychic union with slow heart beats which made the blood flow with but faint energy through their veins. They sneaked quietly upstairs. There was a movement among some of them to make a bold break for liberty, but the hand of the law was hard upon them. They covered as caught chickens cover before the longing, hungry eyes of a visiting preacher. Their once bright manhood seemed blighted by the cold wind of justice. Where once there lived ambition and hope there was a future ever blighted by the remembrance of having been in the toils of the law. Where once the light, elastic step of Al. Hampton trod the stone on business into the majestic court house, there now covered a man frightened with the penitentiary staring him in the face.

The loving expression of Frank Gilstrap's face had faded to a listless gaze of longing for the freedom of the editorial sanctum. A look of pain and regret crossed the handsome features of Mr. Traver as he thought of his reputation as a driving gentleman being ruined. D. E. Yoran and W. H. Kay sat with stolid faces, so with determination to bear the opprobrium without flinching. The wives and children of the six were too broken with grief to appear.

Mon. Lark Bilyou and Helms W. Thompson made eloquent appeals for the discontinuation of the case in behalf of the ballists. L. T. Harris sternly demanded the law to be invoked in the name of the churches. Justice Wintermeier felt the weight of his duty and refused to settle without help.

A jury trial set for Thursday morning was the result of the afternoon's work.

The men have their liberty, but don't josh them.

Amount Was Subscribed.

Subscriptions for the new issue of school bonds were opened yesterday by the board of school directors. It was found that the amount of \$25,000 asked had been exceeded in the bidding by \$11,000, making a total of \$36,000 in subscriptions sent in.

This is an additional evidence of the stability of the district. No bonds find a livelier or quicker market than Eugene bonds. The names of the subscribers will be published tomorrow.

Ringer Hermsen is announced to speak in Eugene Monday evening, May 11. The meeting will take place in the court house.

The trial of Fark A. (Doc) Ingels for the killing of Thomas Barker in the Clay Moore saloon in Marshfield on the night of Dec. 6th, 1902, took place before Judge Hamilton in the circuit court Tuesday and Wednesday and resulted in a verdict of manslaughter, for which the penalty is imprisonment from one to fifteen years, or a fine of \$500, or both.

The Mutual Life Insurance Company

OF NEW YORK, offers the most liberal policy contracts at the lowest possible premium rates consistent with safety; they provide large Cash and Loan Values each year after the third, also paid-up and extended insurance. If the insured ceases to pay premiums the paid-up insurance is immediately provided without any further action on his part. Five per cent. interest only is charged for money loaned on policies.

The "Distribution Policies" of The Mutual Life

are by far the most desirable for the insured, as may be seen by the following illustration:

Life Policy—Twenty Payments; Twenty-Year Distribution:
Age Thirty-Five; Amount, \$10,000; annual Premium \$368.70.

After Three Full Years' Premiums shall have been Paid:

The policy by its terms will become a paid-up policy for \$1,500
Or, it can be exchanged for a policy of \$10,000 full paid for 5 years and 5 months; \$440
Or, it can be surrendered for cash \$680
Or, a loan can be obtained to the amount of \$680 from which the next premium is payable.

After Ten Full Years' Premiums shall have been paid:

The Policy by its terms will become a paid-up policy for \$5,000
Or, it can be exchanged for a policy of \$10,000 full paid for 10 years and 4 months; \$2,560
Or, it can be surrendered for cash \$2,880
Or, a loan can be obtained to the amount of \$2,880 from which the next premium is payable. This feature of the policy enables the holder to keep it in force.

After Twenty Full Years' Premiums shall have been paid

The policy by its terms becomes a paid-up participating policy for \$10,000
Or, it can be surrendered for cash \$6,310
Or, a loan can be obtained for \$6,310

In addition to the above the SURPLUS can be drawn in CASH or applied, under terms of policy, to purchase additional paid-up insurance.

All the above figures are absolute guarantees for the end of the years for which complete annual premiums have been paid.
