T. G. HENDRICKS, President.
S. B. EAKIN, Vice President.
P. E. SNODGRASS, Cashier.
L. H. POTTER, Assistant Cashier.

POWDER EXPLOSION

Magazine Near Lowell, Massachusetts, Blew Up.

The California Penitentiary Escapes Hemmed in by the Officers and Troops.

(Scripps News Association.)
Lotus, Cal., July 29.—The escaped convicts from the Folsom penitentiary are now located in Greenwood Creek bottom, about ten miles from Pilot Hill where the first fight took place.
Sheriff Bosquitt's pickets on one side of the canyon opened fire on the convicts, then they attempted to get out on the other side.
They were met by Sheriff Keema's men and driven back.
They are now well hemmed in and the posse is waiting for reinforcements and militia, the latter being due to arrive there this afternoon.
The convicts returned the fire of the posse, fifty shots being fired by both sides.

The Portland Police.

(Scripps News Association.)
Portland, July 29.—Councilman Sharkey of this city will, this afternoon, ask and insist that the city council investigate the police force from top to bottom.
Sharkey declares that he will not stop till Portland is rid of the corrupt, grafting police department that is cursing it.

Oregon City Locks.

(Scripps News Association.)
Portland, July 29.—The project for the general government to buy the present locks across the falls at Oregon City, or failing to come to terms for purchase to build new ones, will again be taken up.
The Oregon delegation at Washington have promised to push the matter, and Federal engineers will be asked to look the matter over again.

Counterfeit Money Circulars.

(Scripps News Association.)
Portland, July 29.—This city is flooded with green goods circulars offering to send counterfeit money cheaper than the government can make it. Other Oregon towns are also believed to be receiving similar proffers.
The circulars give the address of C. A. Benton, 740 East street, N. Y., by wire only. City Superintendent of Delivery Barrett is on track of the fraud.

Powder Explosion.

(Scripps News Association.)
Lowell, Mass., July 29.—The powder magazine of the United States Cart-ridge Company, fifteen miles from here, exploded at nine o'clock this morning.
Thirty houses occupied by employes about the magazine were wrecked and twenty-two lives lost. Many of the killed were blown to atoms, not a trace of their bodies being found. In some instances parts of bodies were found half a mile away.
An immense quantity of dynamite is stored two miles from the magazine, but although the dynamite did not explode.
Plate glass windows at and over twelve miles from the magazine were broken by the terrible force of the explosion.
The concussion was heard thirty miles.
There is great excitement over the disaster.

Arm Improving.

J. T. Rowland and party returned this afternoon from their camping trip. Mr. Rowland suffered a severe kick and a resultant broken arm while gone. His arm is improving rapidly and he says that it could not be in better condition.

New Pastor to Be Here.

The Rev. R. T. Cross, of York, Neb., who has accepted a call to the pastorate of the Congregational church of this city, is expected to arrive here during this week and will begin his pastorate next Sunday, August 2nd.

Another Hop Sale.

C. L. Fitchard, buying for his company, today took charge of the Thornbury lot of hops, consisting of 40 bales and consigned them to Eastern markets. Figures private.

RAILROAD RUMORS REVIVE

The Paisley, Or., correspondent to the Portland Telegram writes as follows:

"Francis G. Burke, of Minneapolis, spent two days here making a personal examination of the country and a feasible route for a railroad which he thinks will be built from Salt Lake to the coast, terminating somewhere near Eugene, Or. He expressed the belief that the \$10,000,000 recently paid the Union Pacific Company by Clark for the Oregon Short Line, will be expended on a road through this country to the Pacific Coast.
"After an examination of the country he has concluded that the most practicable route for such a road would be across the desert from Stein's Mountain, striking Lake County at a point where Oregon and California corners on the Nevada line, thence bearing northeasterly west, and passing through Chevaucan Valley to Paisley, and in a north-westerly direction to the low pass over the Cascade range on the headwaters of the north middle fork of the Willamette River.
"Nearly all the timber in this part of Oregon would be accessible to such a road. Mr. Burke goes from here to San Francisco thence to New York."

BIG SENSATION AT SUMPTER

Baker City, July 29.—A sensation of the most decided nature was made yesterday when Justice of the Peace Evans and M. Kline, two prominent citizens, were thrown in jail at Sumpter.

It appears that these two men broke the bank at a game of "Twenty-one," and afterwards compelled Jack Pearson, running the game, to cash the checks he (Pearson) had issued. Evans and Kline played Pearson's game and lost heavily the night before. Later they won and broke the bank for the sum of about \$500. The payment was made in checks. Yesterday morning Pearson tried to stop the payment of his checks at the bank when they were presented by Kline and Evans. He shouted to the cashier as the two winners stood receiving their money, not to pay a cent.
The cashier obeyed.
Kline and Evans then jumped onto Pearson and beat him up and took all the money he had in his clothes away from him. As a result they are in jail and are seeking a bond.

BASEBALL GAME IS CANCELLED

The baseball game planned between the Woodmen of the World and the Knight of Pythias to have been played tomorrow (Thursday) afternoon, has been indefinitely postponed on account of the death of Chas. Griffin, a prominent member of the Knights. It is not probable that the teams will play this year.

Council Meeting.

A special meeting of the city council was held last night for the purpose of setting upon the time of maturing the \$15,000 sewer bonds recently voted by the city. It was agreed that \$5000 should be paid every three years—in 1906, 1909, 1912, 1915 and 1918. It was ordered that the sale of the bonds be advertised, the advertisement appearing in today's Guard.
Bids are to be received up to 7 o'clock p. m., Sept. 28, 1903.

NEW EXCURSION SCHEME

(Daily Guard, June 29.)

John P. Jones, traveling passenger agent of the Southern Pacific Company, was in Eugene today talking up a new Sunday excursion proposition, about which he and John H. Pearson, general manager of the new Bohemia railroad, have had some correspondence.

The scheme is to run excursions from Eugene to the present terminus of the Bohemia road, leaving here early Sunday morning giving the crowds a whole day in the mountains and returning in the evening.

Mr. Jones told the Guard that he thought the scheme a good one and that he was in favor of inaugurating this Sunday excursion service if enough business could be had to cover expenses which would be considerable for the S. P. Co.

It seems that these excursions ought to be well patronized by Eugene people, as few have ever seen the country through which the new Bohemia railroad traverses. Those who have been up the line say the country is very pretty and that there are many spots where a very enjoyable Sunday could be spent.

A very low rate for the round trip would be given if it is decided to run these excursions.

MAY PLAY BALL GAME IN SALEM

(Daily Guard, July 29.)

The baseball directors today received information that Roseburg did not want to play with Eugene in Eugene next Saturday or Sunday. This unsettles the situation when it was thought that the game would be pulled off here. It may be decided to play the game off in Salem. In that case the Eugene management would get half of the gate receipts which would, no doubt, be larger in Salem than in Eugene on account of the close rivalry of the top notchers of the league.

The matter was to have been settled this afternoon but the local directors came to no definite decision.

CHANGE OF MILLERS AT SPRINGFIELD

C. A. Parker has resigned his position with Washburne & Sons of the Springfield flour mills and will leave shortly for Eastern Oregon and Washington. J. A. Humphrey, who successfully ran the mills for ten years is again in charge, and will superintend the operation of one of Springfield's important industries.

Humphrey is a miller of many years' experience, commencing in the state of New York when but a boy, working his way across the continent grinding in every important milling state between the Atlantic and Pacific, coming in contact with all the different varieties of wheat and machinery, thereby gaining a knowledge which few millers obtain. Patrons of the Springfield mills will be pleased to learn that Mr. Humphrey has again resumed his old position, which in itself will be a guarantee that SNOW BALL FLOUR will possess its old time excellence.

Andy Taylor, who has been employed in C. Marx's barber shop, has purchased the shop formerly conducted by S. W. B. Haynes at No. 9 West Eight street in the Lane County Bank building, and has taken charge. He will make a number of improvements on the interior of the place.

SUITS IN WARE LAND CASE

Federal Government Seeks to Recover Lands.

Four Men Cited to Show Cause Why They Should Not Give Up Grant

Portland, July 29.—The first of the suits to be instituted by the federal government for the recovery of lands granted under the fraudulent affidavits made before Marie L. Ware, as United States Commissioner at Eugene, were filed in the United States Circuit Court yesterday afternoon. The defendants named are G. B. McLeod, William H. Watkins, James E. Warwick and Samuel L. Carson, and all four have been cited by United States Commissioner Sladen to appear before him on September 7, and show cause why the lands granted to them should not revert to the government.

The suits were begun by District Attorney Hal in the name of Henry M. Hoyt, acting Attorney General of the United States. The allegations of the complaints in each case are exactly the same, excepting the difference of the localities of the lands alleged to have been fraudulently involved. In all 480 acres so far are involved. They are located in township 24 south of range 1 east of the Willamette meridian. The first affidavits, by Watkins, Warwick and Carson in 1892, and proofs were issued by the Roseburg Land Office in 1901, upon the presentation of fraudulent affidavits which were sworn to before Miss Ware.

FICTITIOUS PERSONS.
All three of the parties, the complaint alleges, were fictitious, and the names were used only in order to gain the lands, which were afterwards transferred to McLeod, who now holds them. Watkins, Warwick and Carson are supposed to have lived at Cottage Grove, and although the Commissioner has cited them to appear, the officers do not expect that they will ever be seen. The three are, in the minds of the officers, simply non-existent persons.

Force of Habit.

An inebriated individual was observed to walk up to the U. S. mail box in front of Magnes & Matson's store last evening. He opened the letter trap and dropped in a nickel, then closed the trap and waited for results. As nothing seemed to come he stooped down and looked for another nickel, but some one across the street commenced guffing him, and he jumped the game.—Marshfield Mail.

Man Shot for a Deer.

Grant's Pass, Or., July 29.—The open season for deer had scarcely arrived in Southern Oregon when the usual report of a "man shot for a deer" came in. The victim was Dr. Cooper, of Chetco, Or., a well known citizen of Curry county. The accident happened in the mountains of that district a few days ago. Dr. Cooper was shot by a young man from Oakland, Cal. He lived but a few hours. The bullet penetrated the abdomen and went completely through his body, fracturing the spine.

BELKNAP SPRINGS IN GOOD SHAPE

Nightwatch Geo. Crouer will take his vacation this summer, as last, at Belknap Springs, the management of that ideal spot of McKenzie territory being again in his hands. Mr. Crouer left for the Springs at four o'clock this morning with a load of supplies, in all about twenty-hundred pounds. By getting an early start he can lay by several hours in the heat of the day, not only resting his team but getting some sleep, as he was on duty last night. The round trip will take five days.

He will get a layoff from service after he returns and go back for his annual outing, thus combining business with pleasure, while recuperating from the strain of months of night-work.

Mr. Crouer has been fortunate in securing Milt McMurray to take charge of the Belknap Springs business during his absence. Mr. McMurray has the mechanical ability to make the numerous repairs incident to such property, besides understanding the use of the water, owing restored health to it himself. He will see that the camp grounds are kept in condition and that campers have attention.

MORE CHANCES AT UNCLE SAM'S CASH

Archie Livermore, secretary of the local board of government examiners of applicants for civil service appointments, announces that four examinations will be held in Eugene shortly for government positions.

There are but four places in the state where these examinations can be taken, Astoria, Baker City, Eugene and Portland. The following positions will be available:

Pharmacist, examination September 2, salary \$50 per month.
Miscellaneous Computer, examination September 2-3, salary not given.
Entomological Draughtsman, examination August 26, salary \$1000 per annum.
Testing engineer, examination September 2, salary \$1200 to \$1500 per annum.
Application blanks may be had at the local postoffice.

Sunday Excursions.

W. E. Coman, General Passenger Agent of the Southern Pacific, was in Eugene last evening and this morning. He stated to a reporter today that it had been decided by the company to run excursions on Sundays to Yaquina Bay. The service will be announced when it is to begin, but that date will not be far off.
The trains will leave Eugene early in the morning and reach the seaside in plenty of time to enjoy the day on the beach. It is thought that the excursions will be well patronized by the general public.

Will Resume Practice.

Dr. C. E. Loomis has decided to re-open an office in Eugene. He will be ready for business the first of next month. Dr. Loomis is well known in Eugene and will have no difficulty in building up an extensive practice. He has recently been graduated from a special course taken in Chicago which will especially fit him for treatment of the eye, nose, ear and throat. His office will be located in Preston & Hale's building.

Hundreds have taken advantage of these prices.
