

TIRED AND WORN OUT.

Women Need

A constant supply of blood-making material or their systems will break down. The complicated female organism is so delicately adjusted as to be easily thrown out of balance. As a result, health and strength are affected by divers diseases. Motherhood, family, society all levy such drains upon her strength that most women break under the nervous tension. The demands upon her nervous strength are much greater than similar demands of the opposite sex. If she must be supplied in greater measure with the element-iron-that gives strength. The reason women feel tired and worn out and suffer from headache, pains in the back and limbs, etc., is because they have used up their supply of iron. Menstrual trouble is largely caused by lack of iron.

Dr. Harter's Iron Tonic

Supplies this element. It enriches the blood and restores what strain has used up.

Augusta, Ark., May 10, 1901. "After having sold Dr. Harter's remedies for thirty years I can cheerfully recommend them. I might add that I hold in special favor Dr. Harter's Iron Tonic, and would recommend it as the very best preparation of iron I am acquainted with. To weak, worn-out women, and those troubled with nervousness, nervous headache, and pale, thin blood, I believe it to be a panacea."
"J. B. WILKINSON, Druggist."

60,000 guarantee that above testimonial is genuine.

Cool Slippers

FOR Hot Weather PRICES WAY DOWN AT

Yoran's SHOE STORE

Automobile Accident.

Mrs. Smith Bailey returned home from Eugene Monday evening, says the Roseburg Review. Mr. Bailey was severely hurt by being run into by an automobile near Jefferson, Oregon, Sunday. With his horse and vehicle he was thrown over an embankment where he lay in an unconscious condition until discovered by a passing bicyclist. Several of his teeth were knocked out and he was otherwise bruised. He came to Eugene on the train and is expected here this evening, having recovered sufficiently to drive over the road. The automobile driver mercilessly left him by the roadside, never stopping to see whether he was killed or injured. Such fiends merit severe punishment.

New Store Opened.

A. L. Stephens & Company this morning opened their new general merchandise store in the Sanders building on the corner of West Eight and Charnelton streets, for business. The grocery stock has been placed but the dry goods have not yet arrived. The gentlemen have a good location to command the patronage of residents in the western part of the city, and the Guard predicts success for them. Their advertisement will appear in the Guard later.

Hops Sold.

F. E. Dunn and Geo. A. Dorris have just sold to C. L. Fitchard 75 bales of hops. Mr. Fitchard was busy today in receiving them. The consideration has not been made public.

Died.

Mrs. Gussie E. Williams, wife of B. E. Williams, died at Dexter, Monday, July 27, from consumption. Funeral was held Tuesday forenoon with interment in Pleasant Hill cemetery.

All next week Dr. Lowe, the oculoptician, will be in his Eugene office. His business is to make had eyes good with his superior glasses. If you have head aches and eye aches don't fail to consult him, as delays are dangerous. His 17 years' experience is at your command for reasonable consideration.

PORTLAND'S INDUSTRY

Three Holdups Last Night in Oregon Metropolis.

No Trace of Ten Persons Killed in the Massachusetts Powder Explosion.

(Scripps News Association.) Lowell, Mass., July 30.—A nearly accurate list of the victims of the powder explosion of the United States Cartridge Company's plant yesterday has been compiled.

Eighteen killed have been identified by means of parts of remains, clothing or effects on pieces of bodies.

Of ten persons known to have been killed there is absolutely nothing to be found by way of identification. It is as if they had completely disappeared with the shock of the explosion, blown to fragments.

Forty are seriously injured while many others have minor casualties.

Alleged Streetcar Holdup Men.

(Scripps News Association.) Portland, July 30.—Two men who are believed to be the parties who held up the Sellwood suburban car about midnight July 15th, and shot Fred Day in the back, have just been brought to the county jail.

The sheriff refuses to give names, circumstances of arrest or information as to the charges preferred against them.

Will Not Hang.

(Scripps News Association.) Salem, July 30.—Governor Chamberlain today filed in the office of Secretary of State a commutation of the death sentence of W. P. Peacock, the Polk county murderer, to imprisonment in the state penitentiary for life.

Peacock was under sentence to be hung August 7th for killing Alexander S. Kerr.

The commutation is made on the ground of mental derangement.

The Portland Industry.

(Scripps News Association.) Portland, July 30.—Three desperate holdups in this city is the record for last night.

George Johnson, a resident of Piedmont, was driving a horse near the race track in East Portland about eight o'clock when the order, "Hold up," came from two men wearing masks and standing by the track. The horse shied from the men and as Johnson whipped up two shots were fired at him. Other shots came rapidly but Johnson escaped without injury.

James Wagoner, a wealthy German blacksmith, doing business here, was battered over the head with a revolver in the hands of a highwayman at First and Gilsen streets last night at nine o'clock. Wagoner was relieved of twenty-one dollars.

G. H. Davis, alias "Slim," and Lewis M. Howard worked William Lund out of ninety-five dollars in a saloon on the corner of Sixth and Everett streets last night. The men practically stood him up for the money.

No arrests in either case.

The Escaped Convicts.

(Scripps News Association.) Placerville, Cal., July 30.—The escaped Folsom penitentiary convicts seem to have completely eluded their pursuers.

They have not been seen for two days.

It is the prevalent idea that they escaped by going down the American River.

Many have abandoned the hunt.

A New Station.

The Southern Pacific Company has built a large and commodious station at the Fair Grounds, which will be appreciated by the traveling public. The new station is very neat and attractive, and fills a long-felt want. The management of the state fair feels particularly pleased over the new station, and they say that it is a good attraction for the fair.

RESUME WORK ON TREASURE MINE

(Daily Guard, July 30.) C. H. Park, the well known mine-owner, intended leaving this afternoon, if he could get everything in readiness, for the Blue River mines, where he would resume development work on the Treasure mine, which has been idle for some months past.

Mr. Park has secured as foreman of his crew, Green Pitcher, a well known Bohemia miner, who is as competent as any man on the coast for the position.

It is with considerable difficulty that the necessary crew can be obtained, as labor seems to be very scarce nowadays. The crew will consist of 15 or 20 men for the present.

WILL BUILD SAWMILL.

Mr. Park informs the Guard that it is his intention to erect the sawmill this summer with which to lumber for the permanent buildings at the mines, also to complete the road into the Treasure. He said that it was probable that some of the buildings would be put up this year.

EX-CONVICTS SAY MERRILL IS ALIVE

(Scripps News Association.) Baker City, Or., July 28.—Two ex-convicts, Gale and Barclay, who served a ten-year sentence in the penitentiary at Salem, and who were there when Tracy and Merrill escaped, tell an interesting story to the effect that Merrill is still alive. Gale, formerly a resident of this county, tells the story.

He says that he had charge of the prison baths and knew Merrill well. Merrill, he says, had very little hair on his body, scarcely any on his breast. Merrill had two upper false teeth and two gold ones in front. The body of the man which was brought in and buried as Merrill's had a heavy growth of hair on the breast and all the upper front teeth were gone. Gale says that the man supposed to be Merrill was decoyed to the place where he was killed and shot by both Tracy and Merrill.

Merrill, according to Gale's story, wished to leave the country, but Tracy was anxious to meet a woman whom he knew and who hovered around his neighborhood all the time he was keeping up the running fight with the officers.

June Notes.

(Guard Special Service.)

June, July 25.—Thursday morning was rainy and did not look very much like having but W. H. Lackey hauled in about twelve loads of hay which was in fine shape. He is the only one in the valley who has all his hay in the barn. Mr. Lackey is surely a lucky man. He is now ready to help others. Anyone who needs a hand in haying or any work will do well to get Mr. Lackey. He is a good man, honest worker, and has a good team.

Wild blackberries are in full harvest around June now. People come from far and near and gather them in Mr. W. Gillett's pasture. Some of the ladies ought to make Mr. Gillett a pie, with some of the berries as he is a bachelor and is very busy. (Let's do.)

J. S. Carr had his vetch hay cut Thursday. Just in time for the rain. Since Miss Melvina Tilton's marriage her father has carried the June mail. He will miss her for he has work of his own at home, but the mail must go.

L. E. Matthews and W. H. Lackey cut Mr. Matthews' hay Wednesday. There was about 14 acres but by 2 p. m. they had the hay all down. They are both workers.

C. C. Chandler's little two-year-old daughter has been rather poorly for some time.

L. E. Matthews is building him a new house near their saw mill.

Mrs. W. H. Lackey, expects to soon go over to her mother's at Sginsaw, on a short visit. She expects to bring her sister over home with her. She thinks the mountain air will help her.

BRUTALLY TORTURED.

A case came to light that of persistent and unmerciful torture has perhaps never been equalled. Joe Golobrick of Colusa, Calif., writes: "For 15 years I endured insufferable pain from rheumatism and nothing relieved me though I tried everything known. I came across Electric Bitters and its greatest medicine on earth for that trouble. A few bottles of it completely relieved and cured me. Just as good for liver and kidney troubles and general debility. Only 50 cents. Satisfaction guaranteed by W. L. DeLano, druggist."

A child can operate the Deering self dump hay rake. We have a car load in stock. Chambers' Hardware.

Al. A. Simmons is located at the old stand, 6th and Willamette streets where the best grade photo work may be had at reasonable rates.

IMPROVE RIVER FOR FLOATING LOGS

Roseburg, July 30.—Relative to an application made several weeks ago by the Oregon Boom & Timber Company, for a franchise to use the North Umpqua River for floating timber, an agreement has been reached with the county court by the applicants' agent, Fred J. Blakely, whereby the company will make extensive improvements on the stream from the present western boundary of the Cascade Forest Reserve to Winchester, five miles north of Roseburg. As soon as the company files the required bond for the performance of the agreement, which is only a matter of a few days, the franchise goes into effect.

The stream after being improved is to be open to all parties for floating timber upon payment of specified tolls for the use of said improvements.

This transaction is one of far-reaching importance to the industrial future of Douglas county, for it signifies the first step toward the utilization of her vast bodies of idle timber. The Oregon Boom & Timber Company is composed of eastern capitalists whose operations in this county are intended to be gradually extended to all localities where opportunities are afforded for the profitable maintenance of sawmills. Their first mill will be erected at Winchester during the next year and is to have a daily capacity of 100,000 feet.

BRIDGE READY FOR TRAVEL

The big Coburg bridge, which has been suspended from heavy travel during the past few days, has been declared ready for use by G. W. Taylor, the repairer. The permanent improvement cannot now be made on account of the difficulty of getting timbers. The temporary repairs, however, make the bridge safe for travel. It was opened last evening. Many teams had gathered on both sides awaiting an opportunity to cross.

Irving Items.

(Guard Special Service.) Irving, July 28.—W. B. Smith and wife left here on Thursday for Garfield, Washington, where they expect to reside in the future.

J. W. Baker has been visiting at Jefferson for a few days.

Mrs. Geo. Dooley returned from Yoncalla on Thursday where she had been visiting for a week or more.

S. L. Bond attended a board meeting of the trustees of the Philomath College held at that place on the 22nd inst.

J. P. Zumwalt, of Long Tom, made a business trip to Irving on Friday.

J. E. Martin, who has been working for the S. P. Company in Portland, for some time, has returned to Irving.

Rev. T. E. Armstrong and family started to Belknap Springs Thursday where they expect to spend several weeks for the benefit of the health of Mr. Armstrong. They were accompanied by S. L. Bond.

J. M. Stafford and wife visited in Irving Friday and Saturday.

George McClusky, a young editor from Toledo, Lincoln county, was in Irving on Saturday. There seems to be a peculiar attraction for him in this part of the country, but then, most people are fond of "Lemons" especially at this time of the year.

Mr. and Mrs. Richard Cook had the misfortune to lose an infant son last night. The remains were interred in the Luper cemetery today.

This is the time of year when a great many people betake themselves to the mountains or sea coast for an outing and after wrestling with the tiresome duties of camp life until they are about worn out, return to their homes glad to find a place where they can enjoy themselves with some degree of comfort, and with the full determination that if they should fully recover from the effects of their supposed good time, they will never do so any more.

Notice.

As I have been asked pretty often today if M. S. Hubble and myself are partners in the transfer business, I want to say through the columns of the Guard that we are not, and that we will be two distinctly separate transfer companies.

I don't think it necessary to introduce myself as everyone who has lived here for the past 25 years will remember seeing "Old Bill" Clark plodding round in the same old business, still I do wish to thank you one and all for the past favors and patronage. If at any time in the past 25 years I have not treated you right and you have a kick coming, why just call at my office in the Hampton block or ring me up.

WM. CLARK.

CHAS. GRIF-FIN'S SUICIDE

Young Man Destroyed Himself After Losing at a Game.

Three Persons Fined \$50 Each for Breaking the City Ordinance—Games Are All Closed

(Daily Guard, July 30.)

Chas. Griffin was not accidentally drowned. That he committed suicide is established in the minds of his friends and relatives. That his act of the midnight on the bank of the river was not the result of his disease is also a well established fact. Griffin had never been in better health since his confinement in the Portland hospital. He had improved in every way.

The influences which led the young man to destroy himself in the prime of his young manhood must therefore be looked for in other quarters.

A FRIEND'S STATEMENT.

A Guard reporter interviewed an intimate friend of the deceased on the question today. He said in part: "Who is responsible for the death of Chas. Griffin? It was not an accident. There is not the slightest doubt in my mind or in the minds of his relatives but that Charles committed suicide. And further, it was not because of his illness. He had not been in better health since his return from the hospital, in fact he was contemplating going to Los Angeles for further treatment."

The startling statement caused a look of wonder in the questioner's face and the friend of the young man explained: "Charles had spells of being very cheerful. Indeed, he became greatly elated a week or so ago over the discovery that he could move the joint which had so long been set."

"I lay his death to gambling. Through it he was led to commit a crime which his sensitive nature would not allow him to face after he came to his senses. In order to escape he killed himself, and not because he was sick."

GAMBLER SUNDAY.

It was ascertained that Charles had been gambling in a saloon on the Sunday night previous to the Monday night when he destroyed himself. He had lost all his ready cash. In desperation he wrote five checks and signed the firm's name to them, "Griffin Hardware Co.," which was considered as good as gold by those to whom they were presented to cash. The amount forged in this manner was \$250.00, in five checks. Three of the checks have been paid at the bank by the firm, but two were not honored.

IN BAD CONDITION.

"He was in no mental condition to play at a game where a clear memory is required. He drank absinthe, whiskey and other strong drink and, while not a drinking man, took them in the excitement of the moment. He smoked cigarettes as rapidly as they could be smoked and in every way was in no fit condition to play. Then when the last dollar was played he went into the street with the resolve that his folks and friends should never accuse him of his crime to his living face. That night he died."

ARRESTS MADE.

As a result of the terrible termination of the incident, the relatives and friends of the deceased young man are extremely indignant at the existence of conditions in Eugene where young men can gamble away their lives.

This indignation is expected to show itself in a very decided manner, in fact four arrests were made on gambling charges yesterday afternoon. Complaints were sworn to by Chief of Police Stiles against George Berger of the Reception saloon, J. J. Rude of the Manhattan, Tom Gilliam of the Oregon, and Fred Ware, a well known gambler.

The men appeared before Recorder Dorris on charge of each and severally violating the city ordinance prohibiting gambling in Eugene.

Berger, Ware and Gilliam appeared today before the Recorder and each entered a plea of guilty, as charged. They were fined \$50 each, which was paid at once.

J. J. Rude was not in the city at the time he was alleged to have broken the law and his case has been postponed.

All gambling has ceased in Eugene.

The State Board of Agriculture are making a number of needed improvements at the state fair grounds this year. A new water system costing \$5000 is being put in which will add much comfort to the exhibitors and campers. More new stalls are being built to better accommodate the large number of exhibitors that are preparing to come to the fair. A large amphitheater is being built, where visitors can be seated and witness the live stock judging under cover. Many minor improvements are being made on the grounds, and everything is being done to make a visit to the fair a pleasant event and a joy forever.

SUPERINTENDENT MILLERS REPORT

Superintendent W. M. Miller has filed his annual report of the county's school statistics with state Superintendent Ackerman. Following are the summaries:

STATISTICAL

Total enumeration	8,295
Pupils enrolled	6,312
Enrolled under six years of age	18
Teachers employed	288
Children not attending school	1,983
Whole number of days attended	367,035
Number of districts	109
Legal voters	4,862
Library books	2,677
New books bought	237

FINANCIAL

Cash receipts	\$120,202 00
Disbursements	74,419 76
Value of school property	103,875 00
Furniture and apparatus	23,080 00
Insurance	55,550 00
Average monthly salary paid male teachers	38 70
Female	32 14

MRS. ESSON HAS A BROKEN ARM

Mrs. Clara G. Esson, who resides on East Eleventh street, assistant pastor of the Christian church, fell down stairs last night at her home and suffered a broken arm. The fracture was quite painful but the patient is doing nicely today. Medical aid was soon at hand after the accident. She will be confined to her home for a few days.

Note and Comment.

The erection of a store on Patterson and Thirtieth streets marks another step towards the metropolitan ideal city of Eugene. When a city is growing large enough to demand living goods to be supplied outside the business section, it means rapid development. This innovation will mean other establishments of similar nature.

It is a scene well worthy of preservation, common during the past year on the streets of Eugene—this hobnobbing of real estate men. One thing that the Real Estate Exchange has done that will always be called to mind with a sense of great satisfaction by disinterested citizens, is the perfection of harmony between the members of the exchange. And the members deserve credit for not taking advantage of their combination to the disadvantage of a purchaser. With a dozen real estate offices in Eugene we can safely say that the local land fraternity get along more peaceably than any other list in the valley. We advise other Oregon towns to follow Eugene's plan and organize an exchange.

Married.

W. R. Sharp and Miss Minnie Wolf, both of Cottage Grove, were married this morning at 10 o'clock by Justice C. A. Wintermeier in his office.

The young people will reside in Cottage Grove where they went this afternoon.

The New Deering mower is as near perfection as money and brains can make it. It is the ball-bearing and very light draft. We have a car load in stock. Chambers Hardware.

Use a DEERING IDEAL BINDER

and save all your grain. You cannot afford to use a binder that wastes your grain. The DEERING has a perfect reel and binder, insuring no waste. The DEERING is a very LIGHT DRAFT machine because it is fitted with roller and ball bearings.

WE CARRY EXTRAS IN STOCK. Examine the Deering before buying or send for catalogue.

CHAMBERS' HARDWARE.

NEW STORE BUILT ON THIRTEENTH

L. P. Horton and J. C. Current the Proprietors—Other Items of That Section.

A new store is being erected at the intersection of Patterson and East Thirtieth streets, the proprietors being L. P. Horton and J. C. Current, late of Elmwood, Nebraska. The line will, at first, be groceries. The building will be completed in August and the stock of goods ready by the first of September for the public.

Mr. Horton saw an opening in that part of the city for a store of this kind and believes that a good paying business can be built up with the residents of the southeastern portion of Eugene. His location is three-quarters of a mile from any other grocery and in a part of town thickly settled and rapidly growing.

LIGHT CO'S POLES UP.

A glance down Thirtieth street shows an imposing line of immense poles which have been erected by the new Lane County Electric Company, whose generating plant is being pushed to completion in Springfield. The poles are the heaviest and best material that could be found and are set at intervals of about 75 feet. The poles will support the immense cables which will be strung from the generating plant to Eugene, supplying all the arc and incandescent lights of the city aside from furnishing power to manufacturers which wish it. The capacity of the plant will be sufficient to furnish all the power the city will need in years to come.

THE ELECTRIC LINE.

The electric line which has been talked of by prominent citizens from time to time, will no doubt, follow this line of poles as they are set so as to accommodate such a trolley. This will make East Thirtieth street the boulevard to the University and on to Fairmount. It has been thought that the line would run out Eleventh street, but the right-of-way for the poles was granted for Thirtieth, thereby marking the route of a car line to Springfield.

GROWING PORTION OF CITY.

The south eastern portion of town is the scene of all kinds of building. Probably seventy five per cent. of the new homes which have been built in Eugene have been erected this spring south of Eleventh and East of Willamette streets. The University has had considerable to do with the activity in this section.

List of Letters.

Remaining unclaimed in the post-office at Eugene, Oregon, July 29, 1903:

- Atkins, Harry
 - Cramer, R. M.
 - Davis, A. D.
 - Day, Elmer
 - Hamilton, C. A.
 - Jackson, A. J.
 - LeRoy, J. L.
 - Miller, F. E.
 - Rhine, Mrs. Mary
 - Roe, Fred
 - Robertson, F. A.
 - Savage, Albert
 - Shively, W. B.
 - Whitney, Mrs. Jennie
- When calling for the above please when advertised.
