

## MALARIA AND YELLOW JACK

(From N. Y. Herald, January 14, 1902.)  
"The widow of Dr. Lazear, who, in the employ of the Government, went to Cuba, was inoculated with Yellow Fever through mosquito bites, and died, applied to Congress for relief to-day."  
The above tells of the sad culmination of a series of experiments by the Government, all of which proved conclusively that the familiar mosquito is a dangerous vehicle for carrying malaria, "Yellow Jack," and other malarial fevers.

These who are exposed to mosquitoes or other malarial influences should take warning. Iron is the fighting element in the blood and provides nature with sufficient assistance to ward off disease. But if the blood is impure or impoverished, or if there is weakness, it means that the fighting qualities of the blood have been lowered, and consequently there is danger. If you would escape keep the blood pure and properly nourished with

## Dr. Harter's Iron Tonic

It supplies the blood with iron in a natural way. It is recognized everywhere as the best blood purifier and tonic in use, and it has been used for half a century.

Houston, Tex., Aug. 1, 1901.  
"I have used Dr. Harter's Iron Tonic myself and in my family for over twenty years, and can heartily recommend it. I regard it as particularly valuable to ward off malarial and other fevers."  
J. H. HAYES,  
Land and Emigration Agent, Frisco Line.  
(\$1.00 guarantee that above testimonial is genuine.)

## Harvest Shoes

Just what you want for harvesting.

Good shoes Little Money

## Yoran's SHOE STORE

### A DOUBLE HOP VINE

Carries Both Male and Female Principle on Same Vine.

The hop of commerce grows on what is commonly described as the "female" vine, the "male" vine producing nothing but blossoms, and that a time when the female vine commences to form the hop burr. At that time the male blossom gives off a light pollen that is carried by the wind and reaches the female hop second.

Hop-growers in setting yards place a male vine every seventh hill in every seventh row thereby getting no direct return at hop-picking time from one forty-ninth of their yard. Hops produced without male vines are light and "fluffy" and are devoid of the rich yellow pollen that gives the hop weight and value.

### A HERMAPHRODITE.

A vine has been brought to the Guard office from the Sam Howard yard that is very odd in that it combines both male and female characteristics. A fully formed hop burr has grown on the end of each "arm" or runner, while the rest of the arm is in blossom like the male hop.

### Mrs. Terry Died Today.

(Daily Guard, August 11.)  
Mrs. Terry, a resident of Pleasant Hill, lately arrived from the East, died this morning at 5 o'clock, afflicted with cancer of the breast. Rev. D. C. Kellems left this afternoon to conduct the funeral which was to have taken place at 5 o'clock this evening with interment in the Pleasant Hill cemetery. She was about 50 years of age and came West trying to find relief for her trouble.

**WORKING NIGHT AND DAY.**  
The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. These pills change weakness into strength, illness into energy, brain-fog into mental power. They're wonderful in building up the health. Only 25 cents per box. Sold by W. L. DeLano.

At Marshfield Tuesday afternoon, the Coos Bay league baseball team of that city defeated the Roseburg club by a score of 3 to 2. Kostal occupied the box for Roseburg and the game lasted 10 innings. Not a run was made on either side until the ninth inning. Roseburg made two runs in her half and an error by Kostal allowed Marshfield to tie the score in the remaining half of the inning. Marshfield won the game in the next inning by shutting out Roseburg and sending a man across the plate. This shows that the Coos Bay and Valley league teams are pretty evenly matched.

## TO BE SHOT FOR MURDER

### Guilty Man Lured Victim to Lonely Spot To Kill Him.

### Fears of Turkish Massacre—Spanish Boy Adrift on Ocean Ten Days.

(Scripps News Association.)

New York, Aug. 13.—A Morgan liner just in from Galveston brought a boy of eleven years, and small for his age, that the steamer picked up off the Cuban coast in a most deplorable condition.

It is a most pathetic case. The boy says he and two companions were fishing from a boat off Havana when the boat was swamped. His two older companions swam ashore and not being able to swim he had no choice but to remain with the boat, drifting five days as near as he could keep account, and all this time without food or water.

Captain Morgan of the liner thinks the boy must have been adrift ten days as the place he was picked up is fully five hundred miles from Havana.

### Turkish Revolution.

(Scripps News Association.)

Sofia, Bulgaria, Aug. 13.—Turkish insurgents are daily becoming more fearless in their aggressions. They seem to court publicity instead of attempting to conceal their hostility to the government for the protection it seeks to give Christian subjects.

There are grave fears of a massacre of Christians, the apprehension among the unprotected people of that faith increasing daily.

### Convict News.

(Scripps News Association.)

Sacramento, Aug. 13.—There is nothing new from the bunch of penitentiary convicts that are in hiding in Amador county according to last reports.

A Marysville rumor says Convict Howard was seen going north dressed in khaki. One other of the gang is believed to have gained Nevada.

### Penitentiary Changes.

(Scripps News Association.)

Salem, Or., Aug. 13.—Edward A. McPherson, warden of the Oregon state penitentiary, and Jay J. McCormick, chapel guard, have resigned their positions and leave the prison tonight.

Both men have contemplated this move for some time. McPherson will return to Portland, his home at the time he accepted service under the state.

It is believed that Deputy Warden Smith will be promoted to the vacant position.

### To be Shot for Murder.

(Scripps News Association.)

Salt Lake, Utah, Aug. 13.—The Supreme Court of Utah handed down a decision today in the appeal of Peter Mortenson, the murderer of James Hay in December, 1901, affirming the decision of the lower court.

The case is remanded back to the inferior court with directions that the trial judge re sentence the convicted man to be shot. (Utah shoots criminals convicted of murder in the first degree in place of hanging. —Ed. Guard.)

It has been a celebrated case. Mortenson was very religious, a Sunday school superintendent. He lured Hay to a lonely spot, shot him to death in the back and took from his body a note for \$2800 that he had given the murdered man on account of indebtedness of the lumber firm of which he was a member. He had made sure that Hay had the note on his person before killing him.

Mortenson went home and that same evening led the prayer meeting. Since held in jail he asserts that God will punish anyone who harms his servant.

Physicians who have examined Mortenson say he is not the least crazy but seeks to make religion a cloak to cover his crime.

### A 20-Cent Hop Offer.

Salem, Or., Aug. 13.—It is reported that 20 cents has been offered in Salem within the last two days for contracts for hops of the crop of 1903. While the information comes from a reliable source, the names of the men making the offer are not given. Several days ago 17 1/2 cents a pound was offered by a leading firm for contract hops, and the raise to 20 cents is said to be due to advice that the German crop is turning out poorly.

## ENLARGING DEPOT YARDS

A deed conveying about two lots at West Third and Lincoln streets, north of the railroad and immediately east of the Eugene Planing Mill Company's plant, from F. L. Chambers to the Oregon & California Railroad Company, Southern Pacific Company lessee, was recorded in the county clerk's office today.

This means the extension of the railroad company's depot yards in this city to the west for a distance of nearly a block and is in line with the extensive improvements to be made in the yards, as heretofore announced by the Guard.

Between these lots just acquired by the company and the western line of the depot yard is another lot owned by R. McMurphy, but the company has an option on it, the Guard is informed, and the transfer will probably be made in a short time.

### THE YARD IMPROVEMENTS.

The Guard has known for a certainty that extensive improvements were to be made in the yards, and prominent officials have given out information to that effect, but they have been very reticent in stating when this work will be done. Some time ago it was announced that the warehouses on this side of the tracks were to have been moved to the other side right away and contracts were let for moving them, but for some reason the work has not been done, and it was supposed by many that the improvements were postponed, but the purchase of these additional lots, by the company, gives rise to the belief that the work on the yards will be commenced this fall.

When the big bridge across the Willamette at Springfield is built and the connecting link between the main line and the Wendling branch is finished, considerable more yard room will be necessary to provide terminal facilities here, hence the purchase of this additional strip of land.

## NEW REAL ESTATE FIRM LAUNCHED

Eugene has a new real estate office to become acquainted with. The new firm will bear the name of Williams, Denhart & Wells. The individuals are O. W. Williams, formerly of La Grande and a first class real estate man there; Henry Denhart, of Eugene, formerly of Pipestone, Minn., where he was a real estate dealer, and J. G. Wells, recent arrival from Chicago, a practicing lawyer and a shrewd business man.

The gentlemen will conduct their business with office rooms at 4 and 5 in the First National Bank building, where they hope to establish a record of fairness and square dealing with the public.

The new firm will be ready for business immediately.

### Note and Comment.

John Paul Jones, Traveling Passenger Agent of the Southern Pacific Company, is rapidly becoming famous for his Hermesque handshake. Whenever an acquaintance sees him his arm commences advancing involuntarily and a good long shake ensues. Too bad John is not a politician.

Another sad reminder of the irony of fate comes home to us as we read of the sudden death of O. S. Munger, hundreds of miles from home and his family 70 miles from a telegraph station. When this is read the bereaved wife and five sons are probably just hearing the news in Eastern Oregon of the demise of husband and father which happened Tuesday morning.

The Register may have all the glory out of the boast made in its half-page advertisement of itself that it is "The only paper in Eugene boasting a clean-cut, paid circulation." Nothing to boast about.

Five years ago today Manila surrendered to the American army and navy. It marked the beginning of the jealousy of the Filipinos and the war with the insurgents broke out shortly afterwards. With many of our young men the anniversary has a more vivid meaning than mere history can impart.

No other order or lodge has the sad duty of attending so many funerals as the G. A. R. Posts of the country. Never a week goes by, even in a state so sparsely settled as Oregon, without the record of death being made opposite the name of some respected soldier who fought his country's battles when a youth. And the funerals will grow more and more frequent as the years roll on.

### Killing Chinese Pheasants.

Chinese pheasants are being slaughtered out of season, two months ahead of time. The Democrat is told of considerable pothunting, the meanest of all hunting, to say nothing of the season. One man, whose name is not reported, it is stated, recently killed five, and others are shooting them, mostly from the cities. The farmers are too busy. It is time the deputy game warden, if there is one, got a move into the outskirts.—Albany Democrat.

## FIREBUGS AT ALBANY

### Three Business Houses Set on Fire Tuesday Night.

### Fire Set in a Planing Mill, a Saloon and a Cabinet Maker's Shop

Albany, Or., Aug. 13.—A daring and very sensational attempt was made Tuesday night to destroy a large portion of the business and manufacturing sections of Albany. The rear of the Last Chance saloon was set on fire at 9 o'clock in the evening, but the fire was discovered before any damage was caused.

At 3 o'clock yesterday morning fire was discovered in the Albany Planing Company's mill and as soon as this was extinguished the shop of Roehner Brothers, cabinet-makers, was discovered on fire. All these fires were plain and undeniable cases of incendiarism.

Shavings and other combustible materials were found arranged ready to be set on fire in the storehouse of the Albany Iron Works, but had not been ignited. The buildings are in the central part of the city, the manufacturing establishments being along the water front. Had any of the fires secured headway, several of Albany's leading industries would have been destroyed. The police think they have a strong clue to the identity of the incendiary. It was one of the boldest attempts at incendiarism on record, but was poorly executed. The affair has caused great excitement here.

## THE OREGON MINERAL SPRINGS

(Daily Guard, August 13.)

Lee Hoselton returned yesterday afternoon from a timber cruising trip in the vicinity of the Oregon Mineral Springs at London, twelve miles south of Cottage Grove. He informed the Guard today that as an outing place the springs are hard to beat. A fine hotel has recently been erected, the finest camping grounds are near by and the water of the springs seems to be a splendid remedy for a number of complaints, especially stomach troubles.

This new resort is easily accessible, a good road running from Cottage Grove, and a stage makes daily trips to and from the springs.

### KICKED BY A HORSE.

Mr. Hoselton is hopping around with a cane as a result of being kicked on the right knee by the same horse that kicked J. T. Rowland and broke his arm recently. The horse belongs to Levi Geer and seems to be quite vicious. Lee was laid up for awhile and thought at first his leg was broken, but he was soon able to walk around again.

## GRAIN TURNING OUT PRETTY WELL

From a number of farmers in town today the Guard learns that the grain crop this year is turning out quite well, in some places much better than expected. Taking the county as a whole the crop is considered a good one. Threshing is in full blast everywhere and consequently the farmers are very busy.

### Newport by the Sea.

Lawyer Louis Barzee, writing to the Review, of Roseburg, gives the following as life at Newport:

Fog. Sand. Water. People. Oysters. Bathing. Water agates. Beach combing. Fishing excursions. Moonlight picnics. Comely costumes in the surf. Water, 10c a quart; some milk in it. Boys. Girls. Maidens. Young men. Middle aged. Elderly people. Lots of fun. Newport and Nye Brook. People making money. Cottagers, boarders and campers. Having a jolly, joyous vacation. Such is Newport, Newport by the sea.

### BRUTALLY TORTURED.

A case came to light that or persistent and unmerciful torture has perhaps never been equalled. Joe Gelobrick of Colusa, Calif., writes: "For 15 years I endured insufferable pain from rheumatism and nothing relieved me though I tried everything known. I came across Electric Bitters and its greatest medicine on earth for that trouble. A few bottles of it completely relieved and cured me." Just as good for liver and kidney troubles and general debility. Only 50 cents. Satisfaction guaranteed by W. L. DeLano, druggist.

## THE CAR FOR VETERANS IS HERE

(Daily Guard, August 13.)

The special car promised by the railway company for the use of the G. A. R. veterans who go to San Francisco in the morning, arrived this afternoon. The porter is also along to look after the needs of the travelers. The G. A. R. members assisted by the L. of G. A. R., decorated the car this afternoon and it is in gala attire for its trip.

It will be taken on tomorrow morning at 1:15 on the southbound passenger train and will proceed directly to San Francisco where the National encampment will take place, commencing next Monday.

Following is the list of those intending to take the trip: Mr. and Mrs. E. Wheeler, J. E. Butler, E. F. Chapman and wife, J. M. Wheeler, wife and daughter, Mr. and Mrs. A. Rogers, R. A. Bartlett, J. E. Gardner and daughter, W. H. Dinehart, J. G. Hall, Wm. Ruth, J. W. White, Mrs. Agnes McElroy, Mrs. Clendenen, J. T. Martin, Mr. and Mrs. G. L. McGinnis, Mrs. Berneson, A. C. Jennings, Miss Ethelyn Adams, Mr. and Mrs. John Lugham; C. H. Baker, Camp Creek; S. A. McKay, Creswell. Mr. and Mrs. A. Verington will leave Friday afternoon.

## WILL OF AUGUSTA PETERREINS

The last will and testament of the late Mrs. Augusta Peterreins was filed for probate today. The instrument was drawn up March 9, 1903, and was witnessed by Isabella Watson and S. P. Ness. Walton & Ness are attorneys for the estate.

The value of the estate is estimated at \$3800. The will provides as follows:

The sum of \$500 to her son, Charles Peterreins, to hold in trust for payment of funeral expenses and just debts, and balance to be paid her husband, Peter Peterreins, for his use and benefit as may be deemed best.

The sum of \$1700 to son Charles for and in consideration of the care and loving kindness with which he has treated his mother and father.

The sum of \$1000 to her son, John P. Peterreins.

The sum of \$200 to each of the following daughters: Emelia Watson, Hattie Bendix and Mollie Langdon. Her sons, Charles and John, are named executors without bonds.

### La Porte-Renninger.

(Daily Guard, August 13.)

Yesterday, Aug. 12, at the home of the bride's parents, Mr. and Mrs. Louis Renninger, of Mohawk, Miss Nettie Renninger was wedded to Mr. Le Roy LaPorte, a citizen of that place. The event was celebrated by numerous guests and the couple sped on their way with the well wishes of the throng. Rev. Phillip Workman performed the ceremony. The couple will take up their residence in Mohawk after a brief trip to Portland and other points north.

### Died.

(Daily Guard, August 13.)  
A. G. Hunicutt, an old soldier and a member of the G. A. R., died yesterday at his home near Coburg. He was aged 65 years. The funeral was held this morning under the direction of the J. W. Geary Post, G. A. R., which attended in a body. Interment was made in the I. O. O. F. cemetery of Eugene.

### Married in Portland.

Mrs. Allie Eastham, of Eugene, and Mr. M. S. Wallis, also of Eugene, were united in marriage Tuesday, August 11, in Portland. The couple will arrive in Eugene in a few days where they will probably make their home.

### Caldwell-Davidson.

Wednesday, August 12, Miss Stella Davidson of this city, was married to Mr. Willis Caldwell, of Stayton. Rev. W. A. Elkins, pastor of the Christian church at Stayton, officiated.

The scenery, painted and built especially for Ringling Brothers' magnificent and inspiring spectacular production of "Jerusalem and the Crusades," depicts churches and palaces, magnificent in architectural design, and the sumptuous inner courts of the fabulously rich Emirs of Egypt.

Arthur Comegys, who has for several years past been night operator in the S. P. depot here, has secured a day shift at the same work in Grant's Pass, where he goes shortly. His departure from Eugene, which has been his home for years, is regretted. The day work will be more congenial.

W. G. Allen, manager of the Allen Canning Company's plant in Eugene, when seen by a Guard reporter today said that the cannery would resume operations in about two weeks. They will work first on Bartlett pears. He said that the pear crop is fine this year, the best for a long time. The cannery will put out a larger number of cases of the excellent Bartlett this year than for a number of years.

## "CONQUEST" DRAMATIZED

### C. B. Clement Gives Guard Important Information.

### Will Finance a Company to Produce Plays to Advertise the Lewis and Clark Centennial.

C. B. Clement, who is in the city, gave a Guard reporter some important information regarding the organization of a company to produce the dramatization of the famous novel, "The Conquest," written recently by Eva Emery Dye, of Oregon City. The information has never been made public before and the Guard feels under obligations to Mr. Clement for the courtesy.

### NOVEL DRAMATIZED.

The authoress of the book, Eva Emery Dye, has written her own dramatization of the name and the manuscript is in Mr. Clement's hands. He is to finance a company, in partnership with Wm. Keefer, of Portland, which will handle repertoire plays and make "The Conquest" the leader of them all. All preparations have been made. Miss Marie Kelly, one of New York's famous stage artists, has been secured to play a leading role and C. E. Lloyd, one of the best known Shakespearean artists of the United States, has accepted a prominent masculine role. The other members of the company are people well up in the art world and will make a grand success of the venture.

Mr. Clement has purchased the manuscript and has just completed its copyright on the same. He will be manager of the company and Mr. Keefer secretary and treasurer. In embarking upon the enterprise these gentlemen have the assurances of the most conservative that they will meet with success.

### PURPOSE OF THE PLAY.

The purposes of the play will be to make an educational crusade which will arouse enthusiasm in the Lewis and Clark Centennial. Its nature is historical. Sacajawea, the Indian princess who guided the explorers across the mountains in 1805, will be a leading soubrette role. President Thomas Jefferson will be a character, as in the book. The most vivid of the experiences of the exploring trip will be portrayed in scenes made realistic by the finest scenery. James Monroe, then minister to France, will be portrayed. There will be eighteen speaking parts in the drama.

### THE FIELD TO BE COVERED.

The field to be covered by the company is for the next year, the Pacific Northwest. The next season will be played continuously at the World's Fair in St. Louis. Following the campaign of education the play will be put on at the Lewis and Clark Centennial in Portland, California will be covered. The management is about to commence booking for Oregon and try to cover the entire state as thoroughly and as rapidly as possible. The directors of the fair have not this information but will, without a doubt, welcome the innovation.

### NO PITY SHOWN.

"For years fate was after me continuously," writes F. A. Guldge, of Verbena, Ala. "I had a terrible case of piles causing 24 tumors. When all failed Bucklin's Arnica Salve cured me. Equally good for burns and all aches and pains. Only 25 cents at W. L. DeLano's drug store."

Use a DEERING IDEAL BINDER, and save all your grain. You cannot afford to use a binder that wastes your grain. The DEERING has a perfect reel and binder, insuring no waste. The DEERING is a very LIGHT DRAFT machine because it is fitted with roller and ball bearings.

WE CARRY EXTRAS IN STOCK. Examine the Deering before buying or send for catalogue.

## CHAMBERS' HARDWARE

tion as one worthy of their best support.

Walter Ross, of Eugene, has been selected as advance agent by Mr. Clement. The selection is a good one as Mr. Ross is well posted on things theatrical and operatic advertising.

### ORGANIZE IN SEPTEMBER.

The company will be organized September 1st. The headquarters will be 221 Martin building, Portland. Its official name will be "The Clement Keefer Dramatic Company."

## PLEASURE TRIP IN A BIG WAGON

(Daily Guard, August 11.)

A huge and strangely built wagon drawn by four horses arrived in Eugene this afternoon from the north and stopped in the city for a short time. Its occupants were a party of people from Seattle who said they were on a pleasure trip to California. Their outfit created considerable curiosity on the streets.

The members of the party are as follows: A. H. Holcomb, wife and child, of Seattle; C. W. Holcomb and Miss Laura Holland, of Everett, Wash., and Mrs. Mary Hawkins and daughter, of Seattle.

A. H. Holcomb, who is a Seattle dentist, has been planning the trip for several years, and left Seattle with his party over three weeks ago. The trip from Seattle to Portland was made in two weeks and from Portland up in a little over a week, the party stopping at different places of interest and taking their time on the trip.

The trip is expected to last three months as the party intends to visit Yellowstone Park before returning home.

### New Idea Woman's Magazine.

The women who clamor for advice—how to turn their time and talents to account—will receive many valuable hints from the series of articles entitled, "Profitable Industries for Women," which is begun in the September number of the New Idea Woman's Magazine under the heading of "Poultry-raising," from the pen of Sarah E. Slater. The new department of "Correct Dress for Men," also begun in the September issue and contributed by Hawthorne, a well known authority in haberdashery, bids fair to be of paramount importance in this periodical, because many women do much of the shopping for the men of their families and are glad to have suggestions. Every item in the September number, either technical or fictional, is of more than passing interest.

### Portland Woodmen Row.

Portland, Aug. 11.—The division of the profits of the carnival given by the Woodmen of the World has caused a row, and will cause a lawsuit.

There was a profit of \$2900, and the directors, of whom there are ten, voted themselves \$100 each. They also voted that the balance should be divided among the camps in proportion to membership.

Each camp subscribed for one share of stock, and Sunnyside Camp claims an equal division among the camps, and objects to the payment of salary to the directors.

That camp has employed an attorney to sue the directors and the other camps for a division on the basis of stock holdings.

### NO PITY SHOWN.

"For years fate was after me continuously," writes F. A. Guldge, of Verbena, Ala. "I had a terrible case of piles causing 24 tumors. When all failed Bucklin's Arnica Salve cured me. Equally good for burns and all aches and pains. Only 25 cents at W. L. DeLano's drug store."
