

The New Philippine Coins.

Claude Gatch, of the bank of Iadd & Bush, is in receipt of samples of the coins being minted in this country to be circulated in the Philippines. They are seven in number, as follows: One peso, 50 centavos, 20 centavos, 10 centavos, 5 centavos, 1 centavo, and one-half centavo. All but the three latter are silver pieces, and correspond with our dollar, half dollar, and the smaller coins, excepting the quarter, which is not to be used there, the 20 centavo piece being equivalent to 20 cents here.

These coins are minted and sent over to the Philippines for the purpose of driving out the Mexican and Peruvian dollars in circulation there. They will be worth just half their face in exchange for gold, and they will be maintained at that valuation, being backed by \$20,000,000 in American gold. As the Mexican and Peruvian coins fluctuate, according to their bullion value, it is altogether likely that the natives will soon prefer the newly minted coins—as soon as they find that they are always worth the same. The half centavo is worth only a quarter of a cent, as the cent goes in the United States.

This is getting down pretty fine, but there has been a demand for some time for the half-cent in this country, and it will no doubt, ere long come into use, especially in the East. These new Philippine silver pieces have on one side a Filipino design, representing some kind of a goddess or female figure, but on the other side is the American eagle in all his glory, showing that we have expanded. Mr. Gatch, being an ardent expansionist, and believing that our government is good enough for all the world, is rather proud of his new coins, and he will no doubt tell anyone interested how he can get some of them for himself. They are very handsome pieces, and the quality of their beauty rests partly in the significance which they hold in representing the majesty and greatness of this glorious and expanded nation.

Lately in the course of time the Philippine will like a simple currency so well that they will come up to the full measure of American citizens and demand regular dollars and half dollars, that any in plain English what they are, and that are always what they say are, and not half-price money.—Salon Statesman.

The Socialists of Anaconda, Montana, carried the city election last spring, and took the offices occupied formerly by their employers. There were contests over some of the offices and the employes of the smelters were arrayed against the employers and won the case against them, and are now running the city government. There have been some radical changes in the mode of conducting municipal affairs, and the smelter and mining men are dissatisfied with the rule of the workmen, and now in order to bring about a change, have declared that active Socialists will not be employed in the works, hoping by this means to drive them out of the city. The country has reached great crisis in industrial progress, if a man must pass a satisfactory political examination before he can get a job. No wonder Socialism is growing. The way to make it successful, is to employ just such methods, wherever a Socialist is found in office.—Pendleton East-Oregonian.

Abercrombie, a young lawyer of Astoria, will probably coach the Albany College football team. He played half back one year and full back two years with Wisconsin, and last year coached a Wisconsin normal team. The Albanians will be about the same as last year with the exception of Jarvis and Griffith.

A SCHOLARSHIP AT YALE

Marvin Scarbrough, assistant instructor in biology at the University of Oregon, under Prof. A. R. Sweetser, has been awarded a scholarship in medicine at Yale. This scholarship is for four years and is given by an Oregon man, whose name is unknown. Mr. Scarbrough made application for the scholarship directly to the dean of the medical college of Yale and received a telegram Saturday informing him that it had been awarded him. Mr. Scarbrough is to be congratulated upon his good fortune. He is a graduate of the University of Oregon with the class of 1902, and held the position of assistant instructor in biology last year. Members of the faculty of the University speak in highest praise of his work and say he is thoroughly fitted to take up the work at Yale. He leaves for the East in a short time. The Guard is especially glad to see Mr. Scarbrough thus honored. For two years he acted as University reporter for this paper, filling the place very satisfactorily. We tender hearty congratulations.

Elmira Notes.

(Guard Special Service.) Elmira, Sept. 7.—Mr. Fisher, of Nott, who was spoken of in our last week's "writeup" is reported very sick. William Sweet's family are better this week. W. Sanders, the Eugene chittim man, was in Elmira this week. From here he went to the lower Sierras. Mrs. Jno. Holland, of Cottage Grove, who has been visiting here, returned last Thursday. Joe Nichols, of Junction, passed through here Monday. Newton Bryant, of Smithfield, was in Elmira Tuesday. Geo. Jordan is having a severe attack of heart dropsy this week. We noticed Johnny Goldson in our midst Saturday. Fred Walters started up his logging camp the first of this week. Mrs. Mattie Pratt, of Leaburg, is visiting her parents Mr. and Mrs. T. A. Fountain. Last Thursday papers were served on Peter Johnson of Eugene by Mrs. S. E. McClure. Her claim for damages are as follows: \$25 for the loss of two night's sleep; \$10 for disappointment in not having her teeth extracted; \$6.75 for buggy repairs. Total \$41.75. Mr. Johnson was given until next Thursday to answer.

Major-General William R. Shafter, of San Francisco, arrived at Medford Saturday, and was driven to the farm of J. C. Pendleton, ten miles north of there, where he will join Mr. and Mrs. Captain William McFittick, daughter and son-in-law, and spend several days fishing on Rogue River.

WILL WRITE UP EUGENE

In "The Pacific Northwest," a New Magazine.

P. S. Bates Here to Secure Material for Write-up—The State Mining Association.

(Daily Guard, September 5.) Philip S. Bates, of Portland, one of the best known men in Oregon mining circles, being publisher of the Pacific Miner, a leading mining journal of the coast, was in Eugene today. In addition to the Miner, Mr. Bates has begun the publication of "The Pacific Northwest," a monthly journal, printed at Portland, for the purpose of advertising the Pacific Northwest states and the Lewis and Clark Centennial Exposition in the East. Mr. Bates was in Eugene for the purpose of securing material and cuts for a writeup of Eugene and Lane county in the next issue of his new journal. Eugene, Albany and Salem will occupy most of the space in that issue and thousands of copies will be sent to all parts of the East, thereby advertising the three named cities extensively. The first issue of "The Pacific Northwest," now before us, is a splendid number, and the magazine will attract much attention wherever circulated.

THE MINING ASSOCIATION.

Mr. Bates is very enthusiastic over the mining interests of the state. He was largely instrumental in the organization of the Oregon Mining Association, which was effected in Portland yesterday. Mr. Bates said the meeting was a great one, mining men from all over the state being present. Officers were elected as follows: President, J. F. Wyckham; vice president, J. H. Fisk; second vice president, M. Kaiser; secretary, A. L. Morris; treasurer, J. F. Watson. A committee was appointed on constitution and by laws consisting of R. E. Wright, W. H. Dodge, of Blue River, P. S. Bates, L. Y. Keady and R. O. Kinney. W. H. Dodge, of Blue River, was elected assistant secretary.

Among those in attendance from Lane county were: C. F. Rohweder, of the Lucky Bay, Blue River; C. H. Thompson, of the Oregon Securities Company, Bohemia; V. H. Belne of the Star Consolidated Mining Company, Bohemia; C. T. Bowen, G. L. Davidson, H. W. Prettyman, of Bohemia; Wm. Lodge, C. Runyar and Lewis Wagner of Blue River; P. J. Hard, of the Vesuvius Mining Company, Bohemia, and Dr. C. F. Candiani, who owns extensive properties in Blue River. The association, Mr. Bates says, starts out with bright prospects, and it is expected that it will do great things for the mining interests of the state. It will work for the National Mining Congress for Portland in 1905, which will be a big thing for Portland and the state, as several thousand delegates will be in attendance. Mr. Bates left on the afternoon train for Albany and Salem, where he will secure material for the write-ups of those cities.

MANY YOUNG DENNY PHEASANTS

Sportsmen in this locality are getting anxious for the coming season for upland birds, which will not be until the first of next month. The law makes a difference of a month between the opening of the season here and in Douglas county, the adjoining county, and on just what grounds the difference was made by the legislature cannot be understood. Regarding the abundance of the game birds, reports differ. Farmers in some localities report that more birds were seen during the summer than usual, while in other localities where they have always been plentiful they have been reported scarce. It is safe to say that there are fully as many young Denny pheasants as last year, but not so many as have been known in former years. The birds last year were killed off very closely and there were not so many old ones last spring as usual. The season has been favorable for them and they have been very successful in rearing good coveys, which is the only redemption. The first broods are now nearly full grown and are very inviting to the sportsmen or the lover of fine dishes. From this size they range down to quite small birds, the latest hatching being now only just feathering out, and there are some not large enough to fly. If the law is respected until the open season, there will be an opportunity for much sport, and it is now believed that there is less unlawful shooting than usual.

NO PITY SHOWN.

"For years fate was after me continuously" writes F. A. Golle of Verona, Wis. "I had a terrible case of piles coming 24 times a year. When all failed Jackkin's Anodyne Salve cured me. Equally good for burns and all aches and pains. Only 25 cents at W. L. Delano's drug store."

Personals

New Telephone to Bohemia.

The O. & S. E. Ry. Co. and the Oregon Securities Company have decided to build a new telephone line to Bohemia. The building of this line is occasioned by the rapid increase in business of the two companies that have taken the matter up. The old line has been of much service, and was put in by subscription. The new line will be double, with the central station at the Warehouse, and will be provided with booths, so that private conversations can be carried on. It is understood that the new company will purchase from the old company what material is on hand and utilize it in the construction of the new line.—Nugget.

AFTER BABY COMES.

The Disappointments of a Weak Mother.

After the baby's coming the weak mother often has her first great disappointment in not being able to nurse her child. Perhaps she is not strong enough to sustain more than her own life during the days of slow convalescence. Perhaps there is a lack of the secretions which make the baby's food. In any case she feels robbed of half the joy of her maternity because she cannot nurse her child. And she envies the healthy woman who cares for it and who permits her mother to occasionally see and care for her own baby. If women would consider the matter they could hardly expect to be strong after the baby's coming if they were weak before. The period—also is nervous and sleepless and without appetite, is exhausting her.

It was in this condition that I began the use of your valuable medicine. On receipt of your letter of April 6th my husband purchased a bottle and I used it as you directed. When you wrote me words of encouragement on April 27th I had received no benefit from the medicine, but determined as a last resort to give it a fair trial. I am now well and have a lovely baby girl three weeks old that
