Collectors of notes and promissory notes, city and county warrants, bonds.

W. E. BROWN, President

F. W. OSBURN, Cashier

OVERLAND TO WEISER, IDAHO

P. Dougherty and Family Left in Two Prairie Schooners Today.

P. Dougherty and family, who have lived at Lewellyn, ten miles west of Eugene, for several years, left here this morning for Weiser, Idaho, where they expect to make their future residence.

They started out in two covered wagons, "prairie schooners," as they are called in pioneer days, and will cross the Cascade mountains via the McKenzie route.

Mr. Dougherty told a Guard reporter that they expected to consume 20 days on the route and were well supplied with provisions to last them that length of time.

They evidently expect rain on their journey, as the tops of the wagons were covered with oil-cloth.

Charge Dismissed.

Salt Lake, Utah, Oct. 7.—The case against former U. S. Senator Arthur Brown, charged with adultery, was dismissed in the district court today on the technicality that a wife cannot swear out a complaint against her husband. Mrs. Annie Bradley, the woman in the case, who pleaded guilty last week, will be sentenced Oct. 16.

Japan's Disclaimer.

London, Oct. 7.—The Japanese minister here denies that there are any warlike preparations in Japan because of doubt of Russian evacuation of Manchuria as agreed upon.

National Bank OF EUGENE.

Paid Up Cash Capital - \$50,000

Surplus - \$50,000

T. G. HENDRICKS, President.

S. B. EAKIN, Vice President.

P. E. SNODGRASS, Cashier.

L. H. POTTER, Assistant Cashier.

ANOTHER CRANK TODAY

Called at the White House to See The President.

Promptly Taken In Hand by the Secret Service Officers --No More Publicity of Such Affairs.

Washington, Oct. 7.—Another crank tried to make his way to the presence of President Roosevelt this forenoon.

He appeared at the north entrance of the White House, was admitted by the door keeper, but after being questioned by a secret service man, was handed over to the police. All officials having knowledge of the matter are reticent.

The crank was first observed about ten o'clock by the officer after he had managed to sneak into the executive mansion without detection. How long he had been in the lobby before his presence was discovered is not known.

He gave his name as Decker, of Norwich, Conn., but made no hostile demonstration. He went with the police readily. There is no doubt but what he is mentally unbalanced. Under orders issued from the White House, none are allowed to see or speak to him. Secretary Loeb has issued orders to all attaches of the White House that they are not permitted to give out any information relative to such callers hereafter. It is feared that the notoriety will attract attention of other cranks. The incident caused wild excitement here.

FROM PULPIT TO GROCERY

Rev. H. A. Green, pastor of the Baptist church, has purchased a half interest in the "Bee Hive" grocery store on West Eighth and Charnelton streets, from D. R. Walker.

The Rev. Mr. Green, the Guard is informed, will soon resign his pastorate and devote his whole time to the business of the store.

Miners Suffocated.

Eureka, Utah, Oct. 7.—Wm. Benlove, a miner, and six other men were overcome by smoke while endeavoring to put in a bulkhead in the Centennial & Eureka Mine to check a mysterious fire. All were resuscitated except Benlove. Three mines are filled with smoke and over four hundred miners are idle.

Old Resident Dead.

Kansas City, Oct. 7.—Colonel Allen McGee, of Kansas City, the oldest resident of the city, died here today, aged eighty-eight. McGee was the man who fitted out both of the "Pathfinder" expeditions for General Fremont.

War Imminent.

St. Petersburg, Oct. 7.—There is widespread belief among the czar's Mohammedan subjects that war is imminent between Russia and Turkey. Emigrants are leaving the southern districts of Russia via Sebastopol for Constantinople by ship loads.

Dropped Investigation.

New York, Oct. 7.—Morris Park Stewards dropped the Fiddler investigation and are satisfied that things are as represented.

INTERESTING ARMY STATISTICS

White Men Stood Philippine Climate Better Than Blacks.

Washington, Oct. 7.—The annual report of Surgeon General O'Reilly, issued today shows that the death rate of the army for 1902 was 1,549 compared with 1,394 for 1901.

Of 485 cholera cases about three-fifths, 386, died, being about four deaths to the thousand men. This was the first appearance of cholera

in the American army since 1866, when it reaped nearly thirteen hundred victims. The utmost care has been taken to eradicate the disease, nearly all the cases being the result of willful violation of orders. Except for cholera the death rate is lower than last year.

Gunsbot wounds caused 174 deaths, twenty of them in action. Eleven wounded accidentally, 30 suicides and 12 homicides.

Of 6473 cases of dengue fever, not one was fatal.

The death rate among white soldiers was 14.40 per thousand, among negro soldiers 24.11 and Filipinos 24.04, showing the white man stood the climate best. There were 84 cases of insanity.

MAY SUCCEED SENATOR KEARNES

Election of Geo. A. Smith as an Apostle Has Political Significance.

Salt Lake, Utah, Oct. 7.—The election of Geo. A. Smith at the semi-annual conference of the Church of Jesus Christ, or Latter Day Saints as an apostle of the Mormon church, yesterday, is regarded in political circles here as the first step towards his selection to succeed Senator Thomas Kearnes. The new apostle has been prominently identified with the Republican party of Utah for years.

Attempted Murder and Suicide.

Dawson, N. W. T., Oct. 7.—Countess Morawski, wife of a wealthy Russian nobleman, made an attempt on the life of Capt. William H. Galpin and herself near Rampart. The party were on their way to Siberia, where her husband owns vast estates. No effort has been made to apprehend the woman. Both parties were wounded, but not dangerously.

Dynamited Railroad.

Sault St. Marie, Oct. 7.—An attempt was made to dynamite the Algona switch tracks of the Michigan Central early this morning. The charge was not heavy enough to do any considerable damage.

More trouble is expected as dissatisfied workmen claim they have unlimited dynamite, which may be used.

Strike in New York.

New York, Oct. 7.—Fifty young women, encouraged by a crowd of a thousand, created a small riot at the First street woolen rag factory this morning. The police had a hard time to suppress the rioters, who smashed out all the windows and injured many policemen with stones and bricks. The leaders were arrested.

Glove Makers Strike.

Chicago, Oct. 7.—Over 500 glove makers struck this morning for a 10 per cent increase in wages.

Three hundred glove makers of the Eisendorff Company demand an increase November 1st, when present contract expires.

HIGH SCHOOL NOTES

Assembly this morning opened by a vocal solo by Miss Faith Lister, after which Dr. Beecholt made a very pleasant talk on Student Enterprises. Several students from the University were visitors.

The Protonian Literary Society held a short business meeting this afternoon. This society is a very popular organization and rivals the Amateurs.

The Amateurs will hold their regular meeting next Friday evening, October 9th. The program is as follows: Piano solo, Burke Williams; roll call; extemporaneous speeches by members; reading, Ray Kerr.

The "News" staff have fixed up their office in the High School building very prettily, having added some new furniture to the room and decorating the walls with posters and nets.

Great interest is being taken in the football game next Saturday between the University second eleven and the High School team. The High School has won from the "Varsity" for the past three seasons and will do its best to defeat them again this year. The team is light this year but Coach Bryson hopes to overcome this deficiency by fast playing.

Dean and Crabtree are showing up well at half back, while Kestley puts up his usual strong game at full back. The line is a strong one and the rooters have faith in its ability to hold the "Varsity."

Friday evening there will be a football rally on the High School campus. It is expected that all the boys will come out and yell for the High School.

A DOUBLE KILLING

Jack West and John Saxton Murdered at Burns.

Jack Frost, Alias Harry Egbert, A Fugitive Burglar From Douglas County, the Murderer.

Burns, Or., Oct. 7.—The dead body of John G. Saxton, Burns lawyer, was brought to this place last night, he having been shot and killed by Jack Frost, alias Harry Egbert, a fugitive burglar, wanted in Douglas county.

Saxton was acting as deputy sheriff. He had arrested Egbert, but he escaped from the officer on Sept. 25th. On Oct. 4th Saxton and Jack West came upon him at the ranch of Chas. Fields, 135 miles south of Burns.

Egbert and his wife were in the house alone and as the two men approached Egbert fired upon them, killing West almost immediately. Saxton entered the house and then a battle was fought between the two men through a partition, resulting in Saxton's death.

Officers are in pursuit of the murderer. A reward of \$500 has been offered for his capture.

Roseburg, Or., Oct. 7.—The Harney desperado is believed to be Jack Frost, wanted here for burglary at Drain several months ago. Frost is an ex-convict and served in the Oregon penitentiary.

FLOOD ON THE SOUND

Heavy Rains Carried Out Dam and Sluices.

Fifty Thousand People Cut Off From Seattle-- Street Cars and Railroads Tied Up.

Seattle, Oct. 7.—Heavy rains carried away the dam and washed out the sluices on the government canal between Lake Union and Salmon Bay, near Seattle, early this morning.

Fifteen thousand people of the Fremont and Green Lake districts are entirely shut off, no cars are running, and the Northern Pacific trains are all tied up. Government engineers are repairing the dam. The property damage will be large, but there were no lives lost.

CHAMBERLAIN WILL SEE ROOSEVELT

Salem, Oct. 7.—If his official business will permit, Governor Chamberlain will leave Oregon next Saturday for Washington, D. C. The purpose of this proposed trip is to talk with the President, the Secretary of the Interior and officials of the General Land office, concerning land matters.

in Oregon. He desires to secure what information he can at Washington regarding past and present land transactions so far as Oregon is interested. He finds that correspondence is a very slow and unsatisfactory way of getting information, and by a brief trip to Washington he expects to get a pretty thorough understanding of the principal features of public land matters.

It is not certain that he will make the trip, but that is his intention if he can get away.

Washington, Oct. 7.—The President has appointed William R. Pope, Associate Justice of the supreme court of New Mexico.

S. P. COMPANY ECONOMIZING

Traveling Conductor Will be Abolished--Other Sweeping Changes.

Ashland, Or., Oct. 6.—Some rather sweeping changes go into effect in the operating department of the Southern Pacific Railroad, in Southern Oregon, by orders which become effective today. The position of traveling conductor has been abolished, according to well-authenticated report, and P. H. Tynan, who has been the incumbent for several years past, will be assigned a regular division run.

The position of train agent on trains Nos. 15 and 16, created about four months ago, between Roseburg and Dunsuir, has been cut out. These are the day light runs between the two places. Peter Nelson and W. W. Young, who have been running south from here, and A. T. Morian and Ora Crasman, on the northern run, who have been filling that position, will resume their former duties as brakemen.

Overland passenger trains Nos. 15 and 16, which have been running in two sections for the past six months, will, beginning with today, go as one section.

The daily freight service between there and Roseburg will become a tri-weekly run.

The steam shovel, which is now operating at Glendale, on the fill-in of a trestle, will shortly be taken off. These changes are being made in the interests of economy, it is said.

The Big French Strike.

Lille, France, Oct. 7.—The striking factory operators who made an assault on the city yesterday succeeded in gaining an entrance late in the evening.

There are many disturbances in the streets in consequence, collisions constantly occurring between the troops and bands of rioters.

The situation is so grave that a thousand additional troops are being sent in haste from the nearest army post.

Stock Depreciating.

London, Oct. 7.—Figures issued at the stock exchange today show a depreciation of \$1,000,000 in value of the South African mining shares since peace was declared between the British and South Africa.

Diplomatic Succession.

London, Oct. 7.—It is unofficially stated that the government is considering the appointment of Sir Nicholas O'Connor, to succeed the late Minister Herbert at Washington.

Air Navigation.

Widewater, N. Y., Oct. 7.—The sixty-five-foot arrodrome was launched at noon with Charles Manley aboard as navigator.

Hon. N. H. Looney, of Jefferson, has been appointed superintendent of the state reform school to succeed H. E. Bickers, removed by the governor.

MANY REFUGEES DYING

Those Who Reach Bulgarian Frontier Given Proper Care.

Mothers and Children Form the Largest Percentage and Furnish Many Victims.

Sofia, Bulgaria, Oct. 7.—Snow has fallen in the mountains of Macedonia to a great depth and it is reported that Macedonian Christian refugees therein are dying from exposure at the rate of a hundred a day.

All who are able to reach the Bulgarian frontier are supplied with food and clothing, but the majority are so weakened by exposure so frightened that they are unable to reach a place of safety.

The most pathetic part of the daily enacted tragedy lies in the fact that by far the greater percentage of the refugees are mothers with children.

STRANGE CASE AT SAN FRANCISCO

San Francisco, Oct. 7.—A suit contesting a sixty thousand dollar estate left by Ferdinand Knauer to his wife Marie today developed some startling charges. The story of Mrs. Knauer's life as told in the suit is that she originally eloped to this country with a German army officer, after deserting her husband. While living in Chicago she induced a lieutenant, whom she had married, and son, that they had adopted, to insure their lives in her favor.

Both husband and son died of mysterious ailments, supposed to be poison. While the son was being buried Marie eloped with the undertaker and fled again for Germany. Here the undertaker died suddenly. She then returned to America and came to San Francisco, setting up in business as a massage artist. While here she became employed as nurse to Mr. Knauer, aged 73, induced him to take a flat. Moved by her pitiful story that she had lost husband, brother, son and her dear old grandfather, Knauer induced to marry her. In December a surgeon informed Knauer that an operation was necessary, and to please his wife, he attached a codicil to his will, bequeathing her all his estate. Knauer did not survive the operation.

Suit is brought by Knauer's relatives.

Chamberlain's Plans.

London, Oct. 7.—The general inclination is to await further details of Chamberlain's plan as outlined by his speech last night before giving the final verdict. The Liberal provincial papers do not attack the scheme so much as they do Chamberlain personally.

What's in the Pill?

London, Oct. 7.—At the Token auction house today a pill put up was bid to \$250.

The owner refused the offer, claiming the price was inadequate. The pill is said to contain a secret essence of great value.

Latest Style Shirtwaists Handed Out in Huge Bunches.

This a fact and they are beauties.

This only a few days we have been showing the New Styles in Fall and Winter Shirtwaists and they're pleasing and selling in a caution.
