

THEY WERE INDICTED

Miss Ware, McKinley and Puter for Forgery.

Grand Jury Charges Them With Forging Names of Fictitious Persons to Homestead Applications.

(Daily Guard, October 27.)

The United States grand jury this morning returned an indictment against Former United States Commissioner Miss Marie L. Ware, Horace G. McKinley, and S. A. D. Puter, charging them with forgery in connection with that clause of the information filed previously by United States District Attorney Hall relating to the uttering of forged signatures in the Southern Oregon land fraud cases.

The indictment against Miss Ware, McKinley and Puter is a long one, covering 45 pages of type written paper, and setting forth in the redundant verbiage of the law a total of 26 counts against the principals.

The specific charges are that Miss Ware, McKinley and Puter have been guilty of forging the names of fictitious persons and those of other persons to homestead applications and final proofs, with the intent to defraud the Government of the United States out of its public lands.

Notwithstanding wild reports to the contrary, circulated at the time these cases were under consideration, the jury came to the conclusion that the names of the six personages involved in the homestead applications and proofs, were purely fictitious and invented for the sole purpose of gaining possession of timber lands.

But the end is not yet. The information filed against the principals in these cases adds the charge of conspiracy on their part to defraud the Government, and before the grand jury lets go on the case there may be an indictment returned in this respect and also of individual cases involving the trio.

After the grand jury has completed its investigations of the charges against Miss Ware, McKinley and Puter, they will be required to appear, plead to the charges and have their bonds renewed. In the meantime, the bonds required for appearance before the grand jury by Commissioner Sladen hold good.—Telegram, Oct. 27.

SOLD SAME LOT TO TWO PERSONS

Two Real Estate Agents Sold Underwood Corner—Mr Gaylord Cannot Build.

The Guard the other day made announcement that N. R. Gaylord had purchased the Fifth and Willamette street corner on the Underwood property and had commenced to haul material on the ground for the erection of a two-story building.

As soon as the announcement was made it was discovered that the lot had been previously sold to another party, so the building operations were at once stopped and it looks as though Mr. Gaylord will have to secure another lot on which to build.

The case is this way: One real estate agent made arrangements for the sale of the property to a Mr. Hearst, from South Dakota, and telegraphed at once to Mrs. Underwood the owner of the property, that the price was satisfactory, etc.

It seems that later another agent made the deal with Mr. Gaylord without knowing anything about the previous deal, and they did not know until what everything was all right until they received notice that no more building material should be hauled on the lot.

SPRINGFIELD MILL ALSO CLOSED DOWN

Lack of Logs Given as Reason—A Long Period of Idleness, Say the Loggers.

The Booth-Kelly Lumber Company's big mill at Springfield closed down Saturday night for some time. This makes the company's two largest mills now idle, the one at Wendling having closed down several days before work was stopped at the Springfield mill.

The reason given for closing down the latter mill is the lack of logs, and the reason as given to the Guard for the closing down of the Wendling mill is the lack of cars to haul the lumber away.

A number of prominent loggers, who have been in the city since the Wendling mill closed down, say that it is reported that this is the beginning of a long period of idleness among the loggers employed by the Booth-Kelly Company, and that the Wendling mill instead of commencing operations again within ten days, as stated by the company officers here, will not be started up again for many weeks and perhaps months.

They do not state the reason for this, but one thing which they claim points that way, is that all the men in the logging camps adjacent to Wendling have been laid off.

The Guard simply gives this as a generally circulated report among the loggers and print it for what it is worth.

A HEALTH POLICY

The system is, from nature's causes, debilitated or exhausted both in the spring and fall. The seasons' changes are always a trial on the human organism. In the spring, blood becomes impure in the blood, and vitality lags in the system. A little care, a little medicine, and nature will do the rest, so that frequently trying to maintain health shows the most disagreeable results. For the debilitated condition of spring or fall, or any other time, for the matter, the right thing to do is to build up the whole system. It is not your stomach, or your liver, or your bowels, or your nerves alone that cause the trouble; you are weakened all over and must have renewed strength and vitality. You cannot get this quickly or easily, unless you take Dr. Harter's Iron Tonic safely as by using

When you use Dr. Harter's Iron Tonic you are helping to keep the vigor of every fibre of your body. You are cleansing your system, enriching your blood, and strengthening your stomach, and are building up the vitality and activity of your kidneys and liver, and you are feeding and rebuilding your nervous system. You cannot do this without getting well, and you cannot take Dr. Harter's Iron Tonic without doing it.

CHICAGO, ILL., Nov. 2, 1901.
 GENTLEMEN:—I desire to express my appreciation to Dr. Harter's Iron Tonic. I have been suffering from a nervous prostration, and have taken a bottle of your medicine, and I feel as if I had been given a new lease on life. I have taken a bottle of your medicine, and I feel as if I had been given a new lease on life. I have taken a bottle of your medicine, and I feel as if I had been given a new lease on life.

Must Be Vaccinated.

The following is a requirement of the state board of health relative to children in school: It shall be the duty of all school boards in all the districts of whatever class in the state of Oregon, to prohibit the entrance into any of the public schools of the state, of all children not previously vaccinated (the evidence of which is shown by the scar without proper vaccination; and it will be the duty of the teacher or teachers in any of the public schools in the state of Oregon to satisfy themselves that such order has been properly enforced, the evidence being a scar, or by a certificate signed by a reputable physician.

Sues for Back Rent.

H. W. Holden, formerly of Eugene, builder of the old street car line, has commenced suit in the circuit court against his wife, Anna Holden, and son, Harry M. Holden, for a decree of the court declaring him to be the owner of certain land in Eugene on which the building occupied by the Dunn bakery is located, and for rent to the amount of \$2,917.50, at the rate of \$30 per month since Dec. 11, 1894.

An Extended Trip East.

W. Sanders and wife have left for an extended trip through the East and South. Among other cities they will visit San Francisco, New Orleans, Cincinnati, St. Louis, Chicago, New York, Boston and other principal places. They expect to be gone a month or six weeks.
