HORRIBLE WRECK ON SANTA FE

List of Injured--Salvation Army in Mourning--News of Death Broken to Frederick Booth Tucker--Memorial Services to Be Held

Kansas City, Mo., Oct. 21.—The dispatches this morning confirm the death of Mrs. Emma Booth-Tucker, second daughter of Gen. Booth, the head of the Salvation Army.

A fearful wreck on the main line of the Santa Fe, occurred near Dean's Lake last night. The body of Mrs. Tucker was terribly crushed, and she died within an hour after being taken from the debris. Fourteen other passengers were injured, three probably fatally. Mrs. Tucker's body has been shipped to Chicago where her husband awaits the remains.

The wreck was caused by a loose chain on the tourist car catching the switch and breaking the latter. Two tourist sleepers, one Pullman and one dining car were derailed and hurled against the side of an immense steel water tank alongside the track.

Mrs. Tucker was enroute from a visit to the army at the farm colony at Amity, Colorado, to Chicago, where she expected to meet her husband.

Much difficulty was experienced in sending the dead and injured to Marceline, the nearest town of any size, Dean Lake being only a small isolated place. The relief train broke down and did not reach Marceline until five hours after the wreck.

The injured list includes W. H. Murray, of San Francisco, Cal. Col. Holman of the Salvation Army is reported to be dying. Thirty-five were hurt in the wreck, but with the exception of the Salvationists who were in a Pullman car none were seriously injured.

Chicago, Oct. 21.—Frederick Booth-Tucker, who shared with his wife an equal authority in command of the Salvation Army of America, arrived here from New York to meet her at 7:30 this morning. The news of his wife's death was broken to him at the army headquarters and completely prostrated him. Flags at all the barracks in this city are at half mast. The body of Mrs. Tucker will arrive here tonight, and lie in state of the princess rank until tomorrow night, when memorial services will be held and the body will then be shipped to New York where another memorial service will be held. The present plan contemplated is to inter the body beside her mother in London.

SENATORS INVOLVED

Said That Fulton and Mitchell Mixed Up in Land Frauds.

Secretary Hitchcock Says That Report by the New York Sun is Unfounded.

An Oregonian special says: New York, Oct. 21.—The New York Sun, in a special from Washington today announcing the suspension of Receiver Thompson, of the La Grande Land Office, says:

"Although official confirmation cannot be obtained here, it is practically certain that the department's investigation will involve to some extent at least, United States Senators Mitchell and Fulton, and Representative Williamson, of Oregon, who composed the delegation that recommended Thompson's appointment.

"It is known that the Secretary's feeling toward these men has become very bitter since the investigation was started, and it is more than possible that he will ask President Roosevelt not to consider any recommendation that they make for a successor to Thompson."

In another dispatch from Washington, Hitchcock is quoted as saying that the above report is without foundation.

FIRE AT JUNCTION THIS MORNING

Southern Pacific Bunk House Burned--Clothes and Guns Lost.

(Guard Special Service.) Junction City, Oct. 21.—The small building used by the S. P. Co. for a bunk house and store room was burned this morning at 3:50 o'clock.

Several of the railroad boys had their best clothes and some valuable shot guns locked in the locker of the house. These were all lost. It was a close call for the Bushnell & Son warehouse. By hard work the flames were confined to the bunk house. The origin of the fire is not known but is supposed to have been caused by a lamp exploding.

The St. Louis Excitement Abated ---Banks Have Money.

St. Louis, Mo., Oct. 21.—There is not the slightest sign of excitement at the banks this morning. Parkersburg, Ill., Oct. 21.—Two freight trains on the Baltimore & Ohio, collided a few miles east of here early this morning. The engines were completely demolished and the freight cars were piled on top of the engine. The track was torn up and stopped all traffic today. Engineer Frank Morgan and Fireman Cassel were killed instantly. Brakeman Proudfoot was seriously injured.

Cost, but as far as is now known the operations of these companies have been legitimate and wholly within the law.

One story published recently stated that the ring had defrauded the government of \$15,000,000 to \$18,000,000 worth of timber lands, but this story lacked confirmation. Even the department now in possession of a full array of facts, will not attempt to approximate the amount of land or the amount of money, involved in the frauds recently unearthed, and any estimate so far announced is unofficial, in fact, a mere wild guess.

LOOKS BAD FOR HERMANN.

The Oregonian correspondent was told today that while the Interior Department does not think ex-Land Commissioner Hermann is involved in the Pacific Coast land frauds, it is known that when he was in charge of the land office he had it in his power to have taken action that would have thwarted the operations of the ring. Reports were presented to him telling of the alleged extensive operations of Hyde, of San Francisco, and others in the rich timber region of Southwestern Oregon and Northern California, and he was strongly urged to withdraw these lands temporarily from entry. He allowed the reports to lie on his desk for weeks, and in fact never took the action recommended that would have largely checked speculative entries in these two states.

Young Miss of 16 Dons Male Attire and Boards a Train for San Francisco.

Redding, Cal., Oct. 21.—A pretty girl of 16 was required to leave the south bound train at Sims, 30 miles north of here last night. She gave the name of Francis Merriwell, and said her home is in Portland, and she had been a pupil of Miss Alma Williams' private school on Madison street in that city. She said she wanted to see the world and then donned boy's clothing.

The young girl was not well disguised and the conductor held an investigation. After being taken from the train she was cared for by the ladies of Sims and given proper clothes. Sheriff Richardson is now in communication with her friends.

While on the train Miss Merriwell appeared very shy and her girlish face excited the attention of two traveling men who communicated their beliefs to the conductor. He took her to a private compartment and questioned her and soon learned the truth. It is said the girl had about \$50 in her possession.—Journal.

Bilbao, Spain, Oct. 21.—The rioting in the streets by the strikers still continues, and there is no sign of abatement. All the street railways have had to suspend operations. The entire city was in darkness last night, as the strikers had cut the electric light wires.

Over 7000 citizens have left their homes and fled from the city. The priests are prisoners in their homes and do not dare to emerge as it is feared they would be assassinated.

THREE PRISONERS FROM THE GROVE

Constable Bert Lawson and "Buck" Starr brought down on this afternoon's train three prisoners for the county jail to await the next session of circuit court, which meets next Monday. They were met at the depot by Deputy Sheriff Harry Bown, who handcuffed them and escorted them down town.

The prisoners' names are Sam Jacobson, Hunter and John Evans. The latter stole a bicycle from Dr. Anderson and was caught yesterday by Constable Lawson. He overtook Evans on the road from Cottage Grove to Lorain.

CAUGHT IN THE ACT.

Jacobson and Hunter were caught in the act of trying to force an entrance on the Pacific Timber Company's store by Nightwatch Bob Martin Tuesday night. Martin nabbed on to them and promptly lodged them in jail. Before this they had tried to enter Piper & Vandenburg's store and had entered a butcher shop, taking \$2.50 in money which was left in the till.

Jacobson and Hunter are young looking fellows, but Evans is perhaps near 40 years old.

Neither has Mr. Hearst decided to erect a dwelling house in the rear.

Mr. Hearst will deal in general building material, which will include rough and dressed lumber, sash and doors, paints, oils, glass, etc., in fact anything general contractors and builders want.
