A large audience attended the piano recital given by the pupils of Mrs. Rose Bailewick, assisted by Miss Grace Mount, soprano, Friday evening, April 8th.

The two-piano work of the Misses Esson, Harris, Hendricks, Watkins and Potts was of a very high order, and merited the applause it received.

Miss Edna Hoolsten's playing of Bartlett's "Polka de Concert" was gracefully given and was one of the gems of the evening.

The rooms were beautifully decorated and completely carried out the "out door" effect while Japanese lanterns shed a soft light throughout.

A short musical program delighted the guests, after which the games of finch and pit were engaged in. A delicious lunch was served "picnic fashion," in the dining room, whose decorations in green and yellow had transformed it into an ideal picnic ground.

Washington, D. C., April 9.--If Attorney General Knox acts upon the recommendations made in a recent report of Inspector A. R. Green to Secretary Hitchcock, Bliger Hermann may be indicted for complicity in the timber land frauds now under investigation by the government.

Hermann's acts while United States land commissioner have been the subject of several investigations and reports by Inspector Green. It was Green who caused Hermann's removal from that office by the revelations made in a report to the secretary of the interior in 1902.

The contents of that report have always been kept from the public, but a government official who has read the paper's authority for the statement that if its charges should become known, Her-

dent that the contents of the Green reports may possibly be made public, in order to prevent Hermann's return to congress.

The recent investigations in the Benson and Hyde cases placed Hermann in a damaging light. In a number of other cases where fraudulent entries were made and which are the basis of indictments now pending in Oregon, the records of the land office afford strong evidence against Hermann.

In many instances patents were issued with extraordinary celerity upon claims which have since proved to be fraudulent, in some instances within a fortnight after the claims were filed, while legitimate claimants are obliged to wait from ten months to two years before they receive their patents.

Secretary Hitchcock is said to have stated that these claims could not have been railroaded through the land office without the knowledge and authority of Hermann himself.

The Long Wanted Witness.

There is an interesting personage--that is, from a male standpoint, in the McKinley-Ware-Puter land fraud mixup, else the Portland Telegram's reporter is more than usually impressionable. Witness his description of Mrs. Watson in Saturday's paper:

"Mrs. Emma L. Watson is not an ordinary looking woman. On the contrary, she is what most men would call pretty. The stories contained in the dispatches from Chicago about her being striking in appearance are not exaggerated. While not so delicate with diamonds today as was heralded from the East, Mrs. Watson wore in her ears two sparkling gems, whose brilliancy made Old Sol look ashamed.

"Attired in a skirt of blue, maybe it was silk, there was no judge nearby--a white shirt waist and a blue veil over her handsome face, and with a hat--well, it looked up-to-date--Mrs. Watson presented an appearance that would cause one of the opposite sex to gawp and gaze most anywhere."

Coast League Scores.

Saturday's games: San Francisco, 10; Tacoma, 5. Los Angeles, 4; Seattle, 2. Oakland, 5; Portland, 4.

Sunday's games: Morning game--Portland, 2; Oakland, 2. Afternoon game--Oakland, 6; Portland, 5. San Francisco, 6; Tacoma, 1. Los Angeles, 7; Seattle, 6.

The percentage of the teams at the end of the third series of games is as follows: Los Angeles, 750; Oakland, 750; Tacoma, 600; Seattle, 400; San Francisco, 375; Portland, 125.

First Through Stage.
