HIGH SCHOOL BALL TEAM

Three Games Will Be Played This Week—One in Eugene.

The Eugene high school baseball team returned home from Albany on Saturday night's train with another splendid victory added to their list, having defeated the Young Albany in a very clever and exciting game Saturday afternoon by a score of 9 to 5. The Albany papers say that the Eugene lads won by their "magnificent team work," which is one of the highest compliments any team could wish for. The high school team has an excellent record so far this season, having won every game played. Teams meeting defeat at their hands are Cottage Grove high school, Eugene pickups, University of Oregon and Young Albany.

The team will play three games this week. They will meet Cottage Grove again Wednesday at that place, and on Thursday will go to Drain to play the normal school team. On next Saturday they will meet the Albany team on the Eugene league grounds, and the people of this city will have the opportunity to see the school boys in the national game.

Bright's Disease and Diabetes News.

Pacific Coast Circuit Co., R. C. Pell, Manager. San Francisco, April 25, 1904. To parents of children having Bright's Disease:

I feel impelled to write you my personal experience with this disease, the gravity of which I feel strongly through the death of my father some twenty years ago from that trouble and the serious illness of my son nearly two years ago when he was pronounced by two physicians to have Bright's Disease, in its worst form with recovery impossible. His whole body was swollen with the dropsy, great difficulty in breathing and death at any moment would not have surprised us. Medical science having been exhausted we put him on the Filton treatment for Bright's Disease. In six months his recovery was complete. Physicians have five times since found him normal and without physical defect. Hearing that the son of a friend (an attorney) was dying of Bright's Disease I told him and at last reports the boy had recovered. Last year a Mr. Baruch, representing a New York firm doing business with us, shocked us by his appearance. He said it was Bright's Disease and feared it was his last trip to California. I told him, too, of my boy's case. Eight months later he called again. I hardly knew him. He said he was nearly well. There are lives to be saved and it is my duty as well as my pleasure to lay these facts before you.

Yours, etc., R. C. PELL. The above refers to the newly discovered Filton Compound the only cure the world has ever seen for Bright's Disease and Diabetes. We are the sole agents. Ask for pamphlet. Linn Drug Co., Eugene.

An Enterprising Sheet.

The Oregon Daily Journal, of Portland, is making hosts of friends all through the valley on account of its enterprise in a general way and particularly on account of its attention to baseball, which is a never-ending source of interest to a large percentage of the general reading public. Each day shows the tabulated scores of the Oregon State League games and this tends to give to the state organization the prestige which it deserves. The Oregon State League is a fully recognized member of the national association of professional baseball leagues, and as such is on a par with all the other leagues throughout the United States. The Journal is the only Portland paper that has given the league the recognition it deserves, and the public appreciation of it.

GRADUATION AT JUNCTION CITY

Closing Exercises of the High and Grammar Schools Held Friday Night.

(Guard Special Service) Junction, City Or., May 9.—On last Friday evening an immense audience greeted the exercises attendant upon the graduation of students from the public and high schools of this place. Many beautiful floral offerings were made to those who had successfully passed the examinations and the board of directors can congratulate themselves and the patrons of the school upon the improvement and advancement of school matters during the past year.
