Fine Mining Prospects.

Mr. George Heilman this week received a report from Herbert Leigh, manager of the Fairview group of mines in the Bohemia district, giving particulars of the running into a big ledge of rich ore in the Miscellaneous mine one hundred feet earlier than had been anticipated. which is being

gotten out preparatory to the installation of a mill in this mine this year. The ore is much richer than that of the Musick, owned by the Portland company, which has produced some paying results. Development work has been very satisfactory, but is not yet complete, and the company have decided to put on the market 40,000 more shares at four cents to keep the work going before the mill starts up in the summer. Reports from Bohemia indicate one of the best mining camps in the world in the future. — Albany Democrat.
