

PROFESSOR BAILEY DEAD

Pioneer Instructor at the U. O. Died at Tacoma

Was Professor of Mathematics at the Institution for Twenty Years--He Died Suddenly.

Word was received in Eugene today that Professor Mark Bailey, the pioneer educator, formerly of Eugene, died in Tacoma, Wash., last evening at 5:30 o'clock.

Professor Bailey was a member of the first faculty of the University of Oregon, being elected professor of mathematics in 1876, when the institution was established.

Professor Bailey came to Oregon from Massachusetts in the early days. He was a staunch member of the Baptist church, was a man of strict integrity and of high morals.

The widow has the deep sympathy of the many friends of the family in Eugene.

HIGH SCHOOL TEAM HOME

A Successful Trip South--Another Game Here Tomorrow.

The high school baseball club returned home today from their trip south, where they proved their efficiency on the diamond by winning two victories, one from Cottage Grove and one from the Drain Normal.

The team is now the pride of the high school and every boy on it is a star. Tomorrow afternoon the high school students will be at the league grounds in full numbers to see their team in what promises to be a fast game of ball with Young Albany.

SERVICES OVER W. W. WITHERS' GRAVE

At the request of Mrs. Withers, widow of the late Sheriff W. W. Withers, the uniform rank, W. O. W., of Springfield, will perform the unveiling ceremonies at the L. O. O. F. cemetery in this city on Sunday, June 5th.

Harriet Bowman.

Mrs. Harriet Bowman, a resident of Springfield for many years, died at Igoua, California, this morning. The interment will take place in the Springfield L. O. O. F. cemetery Sunday afternoon at 2:30 o'clock.

Rachael Cochran.

Another of the sterling pioneers who braved the dangers of the trip across the then wilderness of nearly two thousand miles, consuming from three to five months, has passed away, full of years and honor.

Rachael Chapman was born in Indiana in 1823. The family moved to Missouri, and there she was married to James J. Cochran in 1843. Crossed the plains with the emigration of 1852, being one of the party that was lost while taking the "Meeker cutoff."

Died.

At Cottage Grove on Tuesday morning, A. F. Johnson, better known as Tom, passed away after a long and severe illness, at the age of 67 years.

R. M. Veatch's Dates.

Hon. R. M. Veatch, the Democratic nominee for Congressman, will address the citizens of Douglas county as follows: At Myrtle Creek, Monday evening May 16th.

Rev. M. L. Rose Coming

Rev. Morton L. Rose, formerly pastor of the First Christian church, of this city, but now of Tacoma, will be here Sunday, May 29th, and will deliver the baccalaureate sermon at the Divinity School.

The cement walks in the west park are now completed. The park is being filled in with sandy river loam and leveled. It will soon be newly seeded and will then be in fine condition.

An old decrepit man applied to the county judge Thursday evening to be sent to the poorhouse, and was given an order to take temporary shelter there.

The Albany clerks are meeting with a good deal of encouragement in their early closing movement, having been opposed in only one or two cases.

J. A. Loughmiller publishes in "The Silverton Appeal" this notice: "The person who borrowed my spray pump last season will please return same at once; another man wants to borrow it."

The University of Oregon track team left on the afternoon train for Forest Grove, where they will meet the Pacific University tomorrow afternoon.

TO BUILD ANOTHER RAILROAD

A Logging Road to Be Built Out of Cottage Grove.

It Will Extend South Out Past the London Springs Into the Heavy Timber Belt.

Cottage Grove seems to be particularly favored in the matter of railroads, says the Nugget. The Southern Pacific passes through it, the O. & S. E. has seventeen miles of its road built toward Bohemia, and now comes the announcement of another road to be soon built to the south for the purpose of bringing the almost countless logs to the city, to be sawed into lumber for outside markets.

For some time past J. C. Long has been quietly securing the right of way along the Coast Fork to the south, and it is stated all rights have been secured and the deeds will soon be in the hands of the promoters of the road.

The road will start from the Long & Bingham sawmill and parallel the S. P. track for some miles, when it will turn into the heavy timber. It is proposed to build about twelve miles for the present, but will as occasion requires be extended on past London as far as the timber will justify.

For some time all the logs will be sawed at the Long & Bingham mill but it is probable other mills along the line will be added later. The road will be standard gauge, and a Shay engine especially adapted for logging purposes will be used.

It is understood arrangements for the rails have already been made. The names of the parties interested with Mr. Long have not been given to the public as yet, but may be within a few days.

ORVILLE WALLER INJURED

Accidentally Shot With Revolver Through the Leg.

He Was Alone in a Canyon and Crawled Up Steep Hill to Mining Camp.

Orville Waller, a well known university student of this city, a son of Mrs. Ollie Waller, and who recently went to the Lucky Boy mine on Blue river, where he was engaged as night watchman at the stamp mill, met with a serious accident on Wednesday night about 9 o'clock while making his rounds through the mill.

While looking over some electric machinery young Waller stumbled on a loose board and fell forward, dropping the heavy automatic Colts 38-calibre revolver which he carried. In some way the gun was discharged, the ball entering the right leg, directly under the knee, passing through the limb, shattering the bone and inflicting a severe wound.

Dr. Chick, the camp physician, dressed the wound temporarily and at 6:30 o'clock Thursday morning the wounded man, accompanied by Charles Austin, started for Eugene in a light spring wagon, arriving here about 8:30 o'clock last evening.

Waller was taken to his home in the McClung block where he was waited upon by Drs. F. M. Day and W. Kuykendall. The wound is not serious and the patient will probably be able to be out in five or six weeks.

Some Cold Facts.

Several reasons why "The Palms" is better able to give better satisfaction to patrons of ice cream and soda than any other place in Eugene:

First--They have the only up-to-date apparatus in Eugene. Second--Their automatic carbonator for soda is the only thing used by the largest dispensers of soda in the United States and the soda is always charged to the same degree, which it is impossible to do with the old style apparatus.

Third--They have the only contrivance to keep their syrup, made of the purest extracts, ice cold at all times.

Fourth--They use nothing but the best ice cream, made from the purest and freshest cream. Cream that is taken direct from the separator and frozen without glucose, arrowroot or gelatine for a doctor. Cream that is not allowed to stand until it reaches a certain age and then, if sour, sweetened by artificial means.

Fifth--"The Palms" has the only soda and soft drink dispenser in Oregon. Anybody could draw a glass of soda, but it takes an experienced dispenser to give the soda the proper flavor and mixture.
