MALARIA AND YELLOW JACK

"The widow of Pr. Lazeare, who, in the employ of the Government, went to Cuba, was inoculated with Yellow Fever through mosquito bites, and died. applied to Congress for relief to-day."

The above tells of the sad culmina tion of a series of experiments by the Government, all of which proved conclusively that the familiar mosquito is a dangerous vehicle for carrying Ma-laria, "Yellow Jack," and other mala-tal fevers.

Those who are exposed to mosquitos or other malarial influences should take warning. Iron is the fighting element warning. Iron is the fighting element in the blood and provides nature with rafficient resistance to ward off disease. But if the blood is impure or impoverished, or if there is weakness, it means that the fighting qualities of the blood have been lowered, and consequently there is danger. If you would escape, keep the blood pure and properly nourished with
