

MUNICIPAL OWNERSHIP A FACT

The city council met in adjourned session last evening with a board present and transacted important business.

An ordinance granting right of way a tram road to connect the Eugene Water Company with the Southern Railway tracks was taken up and discussed, both by members of the council and Mr. Hopkins, of the lumber company, who made a short statement to the council. The matter was referred to a committee, and when it is ready to report the mayor will call a special meeting to act on same. The object of way in question is to leave S. P. track at the junction of Third and Lincoln streets, run west on the north side of Third to Lawrence, thence north on the west side of Lawrence to Cheshire and east on the north side of Cheshire to the company's mill. Only horse or electric power is to be used, and no cars are to be left standing on the track at any time, and the council is to make necessary rules for the running of the same.

The city attorney made a report on law with respect to the liability of the city for the care of paupers. His report showed that the county is liable for the keeping of all the paupers within its boundaries, if same are residents of the county, and the cost to be made to pay for transports. A resolution was passed instructing the city attorney to present findings to the county court and the city court that from this time the city would no longer be held responsible for the care of paupers, except as to cases of quarantine and other matters as were made by law government.

The council then ordered that three officers, known as Colt's special 30, with holsters, be purchased for use of the police officers, to be the property of the city, and to be used over by said officers when in term of service had expired.

The by-laws of the city were ordered to be bound up separately from the city charters.

Several rebates of interest on special assessments were then made, on account of non-residence or wrong descriptions.

A resolution was passed disclaiming liability for the publication of proceedings of council in any newspaper except the council directly ordered.

A petition for the erection of an arch at the intersection of Fourth and Lawrence streets was referred to a proper committee, as well as the petition for a sidewalk on a part of 11th street.

A lengthy petition from H. R. Kind in regard to special assessments against his property occasioned considerable levity and was finally referred to the city attorney for adjustment.

The committee on fire and water were authorized by special resolution to employ competent engineers to make permanent surveys, plans and specifications for the proposed canal power plant and the right of way for the transmission of power to the city of Eugene, and to cause complete surveys and specifications in detail to be made as a basis for securing bids for the construction of same, and are authorized to spend such sums of money as may be necessary and proper to complete the same.

This resolution was passed without dissenting vote. The committee on fire and water consists of J. D. Matlock, chairman, and Councilmen Atkins and Henderson.

The second resolution authorized the committee to proceed to procure options for said right of way for said transmission line and to employ a competent right of way man as agent to purchase a salary as it deems reasonable and proper, and to expend such sums as are necessary to secure such options and to pay salary. This resolution passed with two dissenting votes.

The third resolution provided for issuance of the bonds voted by the people at the election held on September 11, 1905, to-wit: \$100,000 for erection and equipment or purchase of an electric light plant, and \$50,000 for the erection and equipment or purchase of a waterworks plant. Said bonds to be issued in denominations of from \$100 to \$1000, as a purchaser may desire, and to interest from their date at the rate of 4 per cent per annum. Said bonds are to be issued in blocks of \$500 each, due on the first day of January, 1920, 1921, and each year following up to 1923. The resolution provided for advertising for the sale of said bonds, which are to bear date of January 1, 1906.

The yeas and nays were asked for

JUNCTION CITY'S NEW DEPOT

The S.P. gang of carpenters arrived at Junction Wednesday and commenced work on the depot. Thirty-five feet will be added to the south end of the present building. The waiting room will be in the south end and will be 16x24, and the entrance will be on a level with the granite walk. The office will be next and will occupy a space of 12x20 1/2 feet, with bay windows extending out two and one-half feet. There will be a hallway 6x24 for the conductors. The baggage room will be 13x24. The present building will be used exclusively for freight. This will make the depot 24x95 and will add not only to the attractiveness of the surroundings, but to the public convenience as well. Agent Montgomery and assistants promise to recognize their friends in their new premises just the same as in the past.—Times.

MADE FARCE OF PRIZE AWARDS

Instead of awarding the first prize on the merits, the Lewis and Clark committee divided the awards among several counties, making a farce and makeshift out of the whole business, a blot on the whole affair, says the Albany Democrat. Following is the way it was done:

The \$1000—Coos, Lane, Linn, Umatilla and Wasco.

The second of \$500—Clackamas, Columbia, Jackson, Morrow and Polk.

Third of \$300—Baker, Benton, Malheur, Union and Yamhill.

Fourth—Douglas, Harney, Josephine, Lincoln, Sherman, Willows and Washington.

Every county having an exhibit was thus provided for, and Washington, with more medals than any, is last with the same as given Lincoln, whose exhibit was practically nothing.

The whole business is a disgrace to the management.

SEAVEY BROS. SELL HOPS

The Seavey brothers finished baling their big crop of hops yesterday and today they commenced hauling them in for storage in the Friendly warehouse. Their crop this year consisted of 740 bales, or about 200 more bales than were raised last year off the same ground. They have just sold through Seavey & Meizler, for Eastern account, 100,000 lbs., which will take about 550 bales, leaving about 200 bales unsold. This sale is for October shipment, and will go out as soon as care can be obtained. The price, while nothing like that of the past two years, leaves some profit for the growers. The Seavey Brothers are also largely interested in sheep, and have about 1200 head on both ranches, which are doing extremely well. They are not depending entirely on the hop crop, the market for which does not look very promising at present.

INSTITUTE AT FLORENCE

Superintendent W. B. Dillard and Professors Hartraft and Arnold will leave on Sunday for Florence, where they will conduct an institute for the benefit of the teachers in the western part of the county on Wednesday, Thursday and Friday of next week.

MORE HOPS ARE SOLD

Palmer Ayers, who lives five miles north of Eugene, sold 44 bales, being all of his early hops, to F. B. Hayes for ten cents. They are being delivered today. He has his crop of late hops still on hand and expects to ship them East on his own account.

Married

Miss Mamie Jones and Lon P. Hart were married Sunday morning, October 8, at the Presbyterian parsonage at Cottage Grove by Rev. R. C. Grace. The couple are quite young, the bride having celebrated her 16th birthday on Monday and the groom just past 19, and both are the babes of their families, who were perfectly willing for the marriage. Mr. and Mrs. Hart will make Cottage Grove their home.

CLOSE OF BAPTIST MEETING

Thursday's Daily Guard

The evening session of the Baptist convention last night was entirely devoted to the subject of education. The first address of the evening was by Rev. T. J. Bronson, D. D., president of California College, Oakland, Cal. He spoke of the need of loyalty to the McClintock college, and called attention to the recent establishing of a Baptist theological seminary at Berkeley, which had opened with six students enrolled. The next speaker was the versatile and entertaining J. Whitcomb Brogner, of the White Temple, Portland. He spoke in part as follows:

"To educate is to train every part of man's nature. Broad education involves the training of the spiritual nature. Secular education is narrow because it is not for the whole man. There is something more than the development of the body and mind for the purpose of acquiring dollars. Denominational colleges should be religious or go out of business. The true aim of education, if it is anything, is the building of Christian character. I would just as soon send a boy or a girl of mine to an institution where it was known that typhoid fever was rampant as to send it to an institution which was known to be loose and skeptical.

"Education is for the purpose of training the mind to think on the things that are true. 'As a man thinketh in his heart so is he,' says the apostle. And I say that a man's thoughts are as a rubber ball thrown against a wall; they will rebound to him and if they are unclean he will be besmeared with their uncleanness.

"Education is to train the conscience to guide the life in paths of righteousness. Conscience is that power to discern between right and wrong. There are people today who have consciences as tough as a mule's hide.

"We need an education which makes prominent all three sides of this question, namely, the mind, the conscience and the will. This accomplished we will have a higher type of manhood coming out into the world to make it better."

MORNING SESSION.

This morning was wholly devoted to the interests of the Sunday school work. James Edmunds gave a stirring address. The "Sunday School and the Boy" was ably discussed by Mr. Stone, of the Portland Y. M. C. A.

THIS AFTERNOON.

This afternoon's sessions were devoted mostly to the hearing of reports of committees. The convention will close tonight with an address by Dr. Brogner to the young people. A feature of the program will be a vocal solo by Miss Gilbert.

Friday's Daily Guard.

The Oregon Baptist state convention closed last evening with a young people's rally, addressed by Rev. J. Whitcomb Brogner, D. D., on "One of the Lost Graces." Dr. Brogner gave one of his characteristic addresses, mingling wit, humor, pathos and stirring eloquence such as usually characterize his addresses.

Rev. J. B. Travis spoke in the afternoon on the same line of thought, speaking of the "Three Ships," ownership, stewardship and fellowship. Miss Carrie Millsbaugh, state secretary of the B. Y. P. U., spoke of the very encouraging conditions of the young people's work in the state, surpassing in encouragement any previous year.

The opinion of all the delegates to this convention was of great hopefulness for the future of the Baptist work in the state. The past year has been the best in the history of the state work, and enlargement of the work on every hand will be attempted and the next year will certainly witness even greater strides in the advance movement.

The convention will meet with the Baptist church of Albany next year, and Rev. O. C. Wright, of Eugene, was selected to preach the annual sermon.

Dr. Brogner remained in Eugene today in order to address a men's meeting tonight at McClure Hall at the university. His subject will be "How One Man Became Famous."

The Eugene church will inaugurate a series of evangelistic meetings, beginning Sunday morning, under the leadership of Rev. H. W. Jones, state evangelist of Oregon. Mr. Jones recently came to Oregon from a large church in Buffalo, New York. He will speak every day except Saturday at 3:30 and 7:30 p. m. at the Baptist church.

CASTORIA
The Kid You Have Always Had

A UNIQUE RESIDENCE

Through the courtesy of John Huziker, the architect, we were shown the plans of the fine new residence of James Seavey, which is to be built at the corner of Sixth and Lincoln streets in the near future. It will be 40x50 feet on the ground, two stories with basement. The basement will have a cement floor and will have fuel room, furnace and laundry. The arrangement of the house proper is thoroughly modern and the scheme of beauty and convenience. Closets, china closets and flats will be constructed right into the body of the house. Wainscoting five feet high will surround the dining room, and double leather studded doors will lead from the hall to the living room. The style of architecture is distinctly "English," and Eugene has nothing that will compare with it in uniqueness. The outside will be covered with cement plaster as high as the first story, and stained shingles for the second.

CARNEGIE LIBRARY BUILDING STARTED

W. O. Heckert is personally superintending the construction of the concrete work on the foundation for the Carnegie library building, which was started on Monday morning, and he says it will be pushed to rapid completion. The concrete work will be about four feet high, and reach about two feet above the level of the ground. The brick work has been sub-let to Hunter & Cornwell, and if good weather continues it will be but a short time until that part of the work is complete.

NEW VETERINARY SUREGON

Dr. E. E. Jackson, veterinary surgeon and dentist, a post graduate in his line, has located at Yates & Son's livery stables, where he can be found at any time. Dr. Jackson is a pleasant gentleman to meet, and no doubt will succeed here.

A LUCKY MISS

Mr. Chas. Mayhew's Little Daughter Cured of Deafness and Catarrah by Dr. Darrin

Those who think that Dr. Darrin, the famous electrical specialist and physician, at the Hotel Smeede, Eugene, does not perform difficult cures will have their doubts dispelled by hearing what Mr. Mayhew has to say on the subject. Mr. Mayhew and his little daughter visited the Guard office, and in the course of the interview we secured valuable information. He is enthusiastic in his praise of Dr. Darrin's skill, and attests the merits of the doctor's method of treatment of the ear by electricity and medicine. His open letter follows, and should decide all procrastinating people to visit the doctor while the opportunity is offered. A word to the wise is sufficient.

Editor Guard: For six years past my daughter has been gradually growing deaf from the effects of a troublesome catarrah. We had despaired of relief until Dr. Darrin came to Eugene last May. I placed her under his care, though I must confess I had little faith in the new cure by electricity and medicine. The doctor assured me she could be cured sound and well. He has kept his word. She can hear as well as any one and the catarrah is cured. The street noises are almost painful to her ear, so acute is her hearing. Many times during the treatment we were inclined to stop, as we saw so little improvement, but the doctor was so sanguine of a cure that we kept on and success has crowned our efforts. I reside at 79 East Sixth street, Eugene, and will be pleased to answer all questions pertaining to this most remarkable cure.

CHAS. MAYHEW.

Married

Miss Gertrude Bourne, formerly of Eugene, and Donald Frazz, of Los Angeles, were married on September 14th at Vancouver, Wash. The bride was visiting friends in Eugene a short time after her marriage, but the event was kept a secret and now the announcement comes as a surprise.

Earl Gates of Crow, and Miss Annie Doster, of Eugene, were married last evening by Justice of the Peace Wintermeyer.

TEACHERS' INSTITUTE CLOSING

Thursday's Daily Guard

There is but one verdict among the teachers in attendance at the institute, and that is that the instructors which Superintendent Dillard has secured and the attractions generally, both from the standpoint of interest and real value to the teacher, have combined to make the best institute ever given in Lane county and many say it is the best they have heard in Oregon. Humphrey Memorial church was well filled last night, notwithstanding the other attractions, and the rain, and the program was greatly enjoyed. The quartet from the high school was excellent, as was also the recitation of Master Harold Wells. Professor W. F. Hartraft, who is winning plaudits from all, made a splendid address and the audience was also privileged to hear Mr. Newton, who was to have given his humorous entertainment for the benefit of the football team, but which was called off on account of other attractions. His numbers were gems, every one of them, and greatly pleased his audience.

The program today was followed quite closely. The lecture of Mr. Hartraft on the proper use of the school library was especially well received. His talk on sense training at the morning session was roundly applauded, especially when he related some humorous anecdote, as he is a prince of story tellers. Superintendent Ackerman talked on the course of study this afternoon.

Friday's Daily Guard.

Today's session of the institute has been fully as interesting as any of the others. Professor Hartraft, who proved his efficiency in his work in the past two days, fully sustained his reputation in his lectures today. Yesterday he spoke on the "Proper Use of the School Library," and this morning he told the teacher what she ought to have in her library and how to use it. His talk was interspersed with illustration and anecdote bearing on the subject and it was well received. Professor D. W. Yoder, of the University of Washington, gave an excellent talk on "Oral Physiology." Professors Arnold and Dixon were well received and heartily enjoyed. Superintendent Ackerman's talk on "History and Civics" was very instructive and helpful, as his address at the close of the institute was excellent.

Many of the teachers remained to hear Professor V. A. Pinkley in his monologue, "Hazel Kirk," at the M. E. church this evening. The seating capacity of the church will no doubt be taxed to the utmost to accommodate the crowds that are expecting to hear the talk.

All in all it has been the most successful institute ever held in Lane county, and Superintendent Dillard is to be congratulated.

NEW BRIDGE SOON READY

L. N. Roney informs us that the new bridge he is constructing across the Coast Fork about two miles south of Cottage Grove, is progressing rapidly. The bridge will have 90 feet span and about 200 feet of approaches. The planking is now being laid and it is hoped it will be ready for travel some time next week.

Letter List

- Eugene, Oct. 12.
- Allen, G. F.
 - Allen, Billy.
 - Birdsall, Attie.
 - Celder, E. M.
 - Darrin, Mrs. A. V.
 - Davies, Mrs. Lillian.
 - Eggenberger, Frank.
 - Fischer, Herman C.
 - Gay, William.
 - Hanman, Frank.
 - Hays, Richie.
 - Jackson, C.
 - Lewis, Miss Adale.
 - Miller, F. W.
 - Osgood, F. H.
 - Patrick, William L.
 - Powell, Mrs. L.
 - Reynolds, Walter.
 - Ruth, Alice.
 - Wallace, Mrs. S. D.
 - Walster, T.
 - Washington, Geo.
 - West, Mrs. Tom.
- J. L. PAGE, P. M.

Born

To L. M. Tucker and wife, at Cottage Grove, a 9-pound son on Sept. 28.

MILITIA GUARDING THE GREEKS

A press dispatch from Roseburg says: Acting Coroner Long is holding an inquest over the body of Mrs. Petersen, who was killed in the Greek riot at Greenbrook Tuesday night. At a quiet, the Greeks here being a large part of the militia. General Hager, Superintendent W. R. Fields and an interpreter from Portland are present.

Conflicting reports are made and the blame for shooting the woman has not been fixed. She came here with her husband from Washington. The autopsy recovered the shattered bullet from the woman's head, but the gun it was fired from has not been identified.

WORK ON THE CUTOFF BRANCH

Grading on the east side of the Willamette has been started in earnest by the Southern Pacific Co. Several teams are busy building the grade and making ready the "Y," which will be built first. The half mile of grade west of the river is nearly completed. Owing to the shortage of material work is not progressing as rapidly as expected, but Mr. Freeland informs the News that as soon as the material arrives work will be hurried along night and day.—Springfield News.

QUICKSILVER SHIPMENT

The Black Butte quicksilver mines made a shipment of 43 flasks of mercury to New York on Monday. These flasks are of iron, weigh 90 pounds each, and hold about 70 pounds of the metal. It is thought that the new furnace will be put into operation some time next spring, when quite a large force of men will be employed, probably two or three hundred men.—Nugget.

WANT TO RETAIN S. K. GEORGE

The friends of S. K. George are circulating a petition to be presented to the Oregon Fire Relief Association, asking that he be retained as agent for Lane county. A recent order removes him to Douglas county. Mr. George has served his company well and faithfully in Lane county and has built up a splendid business here. His home and property interests are here, and for these reasons his friends would like to see him retained.

BUYS LANE COUNTY CATTLE

A. L. Hunt, the Ashland cattle buyer, has just completed the purchase of 130 two and three-year-old steers from Stewart & Kelly, the Springfield stockmen. He has also bought about 200 head in the neighborhood of Junction, and enough more that have been driven in from the coast country to make 350 head, which he will ship in about two weeks to Gazelle, Cal.

Myers-Dodd

At the home of the bride's parents, Tuesday evening, October 10, 1905, occurred the marriage of Miss Hattie Dodd to Charles Myers, Rev. Lamar officiating. After the wedding ceremony, which occurred promptly at 8 o'clock, congratulations were forthcoming from those present, followed by a splendid wedding supper.

The bride is the daughter of Mr. and Mrs. C. J. Dodd, and a young lady of estimable reputation and lovable character. She was raised and educated in our midst. Being of a kind and lovable disposition she has won a host of friends. The groom is a young man of sterling worth, steady and industrious habits, honest and honorable in all his dealings. He is now an employe at the Peoples' meat market, but formerly conducted a shop of his own.—Springfield News.

Some Fine Grapes

Dr. D. E. Loveridge is marketing his magnificent crop of grapes from his vineyards between Eugene and Springfield, and they are to be found on sale at almost every grocery in the city. The local market cannot take all he raises and his grapes are getting a reputation from Portland and other places. The Guard wishes to acknowledge the receipt of two baskets of very fine ones.—
