## Pertinent Portland Pointers

Under the above head the Oregonian furnishes these Portland statistics: Population, census of 1900... 92,467  
Population, census of 1905... 115,000

Increase... 22,540  
Postal receipts, year ending  
September 30, 1904... \$212,569  
Postal receipts, year ending  
September 30, 1905... 456,870

Increase, 114.9 per cent... \$244,291

These figures will not stand analysis, that is as intended by the Oregonian for Portland's glorification. Let us see: In the five years between the federal census of 1900 and the state census of the present year the population very fairly increased almost one-fourth—to be exact 24 per cent, yet the postal receipts for but the last year of that five increased almost one hundred and fifteen per cent, doubled and a sixteenth more. Figures won't lie, no difference how manipulators use them. The census figures represent actual growth, the postal receipts for the last year not only Portland's legitimate postoffice business, but the enormous transient use of the postoffice for advertising the fair, together with the enormous use of the postoffice by visitors and by reason of them.

One year from now the Oregonian will not be giving any comparisons of the city's postal business for the two previous years.

## Why?

Under the above head the Salem Statesman remarks:

The Lane county officers' looks are being expected.

Why do you ask "why?" It makes a job for some one is probably the reason, but some day this class of work should cease. No one need expect anything new from the expert's hands except in exceptional instances where maladministration is notorious.

Portland Journal: The valley papers should possess their souls in peace. Portland does not want any of the state institutions. The idiosyncrasy that suggests it is confined exclusively to the precincts of the Oregonian office.

President Roosevelt is the shrewdest worker of politics that has warmed the presidential chair since affable James Monroe. A recent picture shows him sitting at a table with Catholic Cardinal Gibbons on his right and Labor Leader John Mitchell on the other side. Great possibilities in vote getting through such affiliations, explanatory in no small degree of his large majority over Parker.

The Salem Capital Journal has a factious dispatch head writer. The dispatch announcing the proclamation of the government creating the Hell Gate timber reserve and that the opening of the Flathead Indian reservation would soon be accomplished, is headed: "Hell Gate Shut—Good News to Many, but the Flathead Reservation to be Opened to Balance Accounts."

Secretary Taft is reported as being as impolitic as to assert that the valuable gifts and gems reported showered on Miss Roosevelt by Eastern potentates during her visit to the Philippines and China, are a cheap lot, up to the time he left the party a few weeks ago not being worth over a couple of hundred dollars. We doubt Secretary Taft saying so. If he did, however, he missed a golden opportunity of keeping his mouth shut. The laughter of the president did not make the trip for presents, anyway should not make what she got or has not got a matter of notoriety.

Last year with a favorable season that extraordinary wheat belt comprised in Whitman county, Washington, harvested well up to the first of December. This season heavy rains have sprouted the estimated million bushels of wheat remaining unharvested in shocks in the field, and now a fall of wet snow to the depth of four inches flushes it except for feed. Truly a wonderful wheat belt.

The contractor for building the railroad down the north bank of the Columbia to Portland says Italians are the ideal railroad laborers. He says the Italian never rides the brake-beam nor trains in the bobo class. They don't spend their money at the saloons that usually follow railroad construction, neither do they sell their time checks at a discount, being forehanded enough to be able to wait for payday.

## NO BUILDING FOR TESTING MACHINE

A rough shed will be used to house the University of Oregon's timber testing machine, which has been on exhibition at the forestry and irrigation building of the United States government building at the Lewis and Clark exposition, the reason assigned being a lack of funds. The university asked an appropriation for this purpose at the last session of the legislature but it was denied. In a rough shed, therefore, will be conducted the tests which will be a part in the engineering course at the university. In other departments, it is stated, there will be a similar but less apparent enforcement of economy.

Everything is practically in readiness for installing the big timber machine. Cement foundations are finished, and the work of constructing the temporary building in which the laboratory is to be located is to be commenced at once. This will require but a few days to complete.

President Campbell announced yesterday that Expert Knapp and the 200,000 pound testing machine would arrive toward the end of the week. Mr. Knapp has several tests to perform in Portland before shipping the machine.

## TO INVESTIGATE HOP MARKET

The fact that an inferior grade of hops is being sold in New York for 22 cents, while Oregon hops, the best in the world, are only bringing from 10 to 13 cents, shows that the Pacific coast market is being worked to a finish by the shorts.

A few growers in this vicinity have concluded to send one of their number east with samples to New York, and see if possible why the inferior Eastern hop is bringing so much more than the fancy Oregon product.

The name of the party going will not be made public, as this would give the shorts a chance to do some unscrupulous work, and it is expected that the hops will bring at least what New York hops are selling for.

## OBEYS THE SCRIPTURES

### Why Dr. Darrin Does Not Hide His Light Under a Bushel

Those who search the Scriptures will find therein words advising mankind not to make a practice of hiding lights under a bushel.

We do not know that it was from studying the Bible that Dr. Darrin got the idea of advertising, but we do know that since he has resided in Eugene the doctor has not been afraid to use printer's ink.

Experience has proven to the doctor that in no other way can the afflicted learn so quickly that there is a present opportunity to be healed, that chronic diseases can be cured; that new life and energy can be imparted to those within whose breasts hopes of health had almost ceased to exist; that the worthy poor can be treated free; that all others can receive treatment at a price to accommodate their means.

We mention a few of his recent cures in this vicinity as a proof that Dr. Darrin's electrical skill is beyond doubt:

### DEAF 29 YEARS—CURED.

To the Public:—For 29 years I have been gradually growing deaf until it was with difficulty I could hear without great embarrassment, and then I would often miss the meaning of those talking. Dr. Darrin has cured me and I most emphatically commend him to all. I will add that I am receiving great benefit for dyspepsia. My address is 157 West 5th street, Eugene.

J. M. HOWELL.

Geo. Hill, of Fort Klamath, Or., was in Eugene not long ago for treatment by Dr. Darrin. He reports his nephew was cured by Dr. Darrin four years ago of epileptic fits and general nervous debility.

Mrs. C. A. Cornell, five miles north of Eugene, reports her cure of deafness as perfect.

Mrs. E. J. Coburn, four miles north of Eugene, is very much pleased with the cure of her boy of stomach and general weakness.

L. M. Hartwig, of Vids, Or., is so well pleased with his cure of eczema, piles, dyspepsia, constipation, liver and kidney trouble that he has placed other members of his family under Dr. Darrin's care.

V. J. Benzen, of Eugene, and W. F. Deadmond, of Leaburg, Or., are both cured of granulated eyes.

Chas. Mahyes's daughter, 79 East Sixth street, Eugene, is happy over the cure of cataract and deafness of six years' standing.

Mrs. M. McCully, 75 West Eighth street, Eugene, has no return of her affliction, having been cured of inflammation of neck of the bladder. Her husband was also cured of liver and kidney complaint.

Scores of others might be mentioned.

The afflicted should call upon Dr. Darrin. If the case is hopeless he will so inform the patient. If he takes the case it is large odds that the patient will be permanently cured.

Remember, Dr. Darrin will be at the Smeede Hotel, Eugene, until November 12 only. Examination is free and charges \$10 a month for the time required. The poor free, except medicines.

## CIVIL SERVICE EXAMINATION

Archie Livermore, local secretary of the civil service examining board, assisted by F. E. Taylor has just completed examining a young woman candidate for teacher in the Indian service and a young man for book-keeper in the departmental service. The young woman is from Siletz and the young man from Albany.

## Dexter Items

Dexter, Oct. 20.—C. L. Williams returned from Eugene yesterday. He was down to Portland the last of the week attending the closing of the fair.

The fall term of school began here Monday with Mr. Lutley, of near Junction, as teacher.

The families of E. R. Parker and O. W. Neet are having the measles.

E. R. Parker has dismissed his school at Trent for the present on account of measles in the school.

Charles Duntun, of Ize, is visiting with his mother and brothers here. He expects to remain until the holidays.

S. H. Jacobs and wife have purchased 80 acres of land of Joseph Hayes, a portion of the place known as the Pitzer place.

Howard Vincent, of Izeho, stopped off here a couple of days last week visiting with relatives near here. He was on his way to Ashland, where his wife and little son are visiting.

## TWO DIVORCE SUITS FILED

Walter J. Eddy, well known about town, having figured in the courts numerous times for one trivial offense or another, has been sued for divorce by his wife, Lella M.

The Eddys were married in Eugene December 29, 1901, and have one child, Lois M., aged three years.

Mrs. Eddy alleges that her husband, at various different times, struck her and blackened her eyes, dragged her over the floor by her hair and called her vile and indecent names. In her complaint she states that her husband was tried and convicted of assaulting and beating her and served 30 days in the county jail for it.

Kissinger & Ladd are Mrs. Eddy's attorneys in the case.

## STEEAR VS. STEEAR.

Mary A. Steear is the plaintiff and Thomas A. Steear the defendant in another divorce suit just filed by the plaintiff's attorney, L. E. Bean. The couple were married in Colorado September 2, 1877, and have three children of legal age. Mrs. Steear alleges cruel and inhuman treatment, and states that because of such she was compelled to leave him on July 2, 1904. They reside in the lower Siuslaw valley.

## DEATH OF MRS. ROSA DOUGLAS

Mrs. Rosa Douglas, wife of Wm. Douglas, died Thursday, October 19, 1905, at the family home, west Ninth and Lincoln streets, Eugene, from consumption. She was aged 25 years, 2 months and 16 days. Besides her husband, Mrs. Douglas leaves her parents, Mr and Mrs. Wm. Hollandsworth, of Crox, and brothers and sisters as follows: Mrs. Mary Emerson, Mrs. Lydia McCullough, Albert Hillanishworth, all of Crox; Lillie and Louis Hollandsworth, of Calexico, Cal.; James Hollandworth and Mrs. Anna Maxey, of Cottonwood, Idaho.

Mr. and Mrs. Douglas were married September 6, 1902.

The funeral will be held at the family home Saturday, at 8 a. m., with interment in the Crow cemetery.

## INJURED AT SPRINGFIELD

Charles Wetzell, aged about 18 years, was pretty badly injured while working at the Booth-Kelly sawmill at Springfield about 10 o'clock last night.

Young Wetzell was working with the logs when in some manner he fell and one of the logs rolled over him, fracturing several ribs and otherwise injuring him. He was brought to Eugene this forenoon and placed in the hospital for treatment.

## TRAINMEN NOW CARRY ARMS

As a result of the recent riot by Greeks in which a woman was killed near Roseburg, because a freight engine bumped into a work train, every caboose on the Southern Pacific has become an arsenal and every brakeman and engine man wears a .44 calibre Colt's revolver strapped to his body.

The train crews fully believe that their lives are in constant danger from the excitable and ignorant Greek laborers and are taking precaution to defend themselves in any emergency that may arise.

## A BIG MINING MORTGAGE FILED

A big mortgage for the sum of \$285,000 has just been placed on record with the county clerk whereby the Oregon Securities Co., of Cottage Grove, covers 40 mining claims in the Bohemia mining district, comprising 27 of the "Champion" group, 14 of the "Meach" and 15 of the "Helena" group. John W. Wheeler, of Orange, Mass., is named as the mortgagor. The money, as stated in the instrument, is to be used in clearing up some indebtedness and also in doing some development work.—Roseburg Herald.
