

THE OLD FOLKS AT HOME

Are Never Without Pe-ru-na in the Home for Catarrhal Diseases.

Remarkable Cures Effected By Pe-ru-na.

Under date of January 10, 1907, Dr. Hartman received the following letter: "My wife has been a sufferer from a complication of diseases for the past twenty-five years. Her case has baffled the skill of some of the most noted physicians. One of her worst troubles was chronic constipation of several years' standing. She was also passing through that most critical period in the life of a woman—change of life.

"In June, 1905, I wrote to you about her case. You advised a course of Peruna and Manalin, which we at once commenced, and have to say it completely cured her.

"About the same time I wrote you about my own case of catarrh, which had been of twenty-five years' standing. At times I was almost past going. I commenced to use Peruna according to your instructions and continued its use for about a year, and it has completely cured me. Your remedies do all that you claim for them, and even more."

In a letter dated January 1, 1906, Mr. Atkinson says, after five years' experience with Peruna:

"I will ever continue to speak a good word for Peruna. I am still cured of catarrh."—John O. Atkinson, Independence, Mo., Ex 272.

Mrs. Alla Schwandt, Sanborn, Minn., writes: "I have been troubled with rheumatism and catarrh for twenty-five years. Could not sleep day or night. After having used Peruna I can sleep and nothing bothers me now. If I ever am afflicted with any kind of sickness Peruna will be the medicine I shall use. My son was cured of catarrh of the larynx by Peruna."—Mrs. Alla Schwandt.

Why Old People are Especially Liable to Systemic Catarrh.

When old age comes on, catarrhal diseases come also. Systemic catarrh is almost universal in old people.

This explains why Peruna has become so indispensable to old people. Peruna is their safeguard. Peruna is the only remedy yet devised that entirely meets these cases. Nothing but an effective systemic remedy can cure them.

A reward of \$10,000 has been deposited in the Market Exchange Bank, Columbus, Ohio, as a guarantee that the above testimonials are genuine; that we hold in our possession authentic letters certifying to the same. During many years' advertising we have never used, in part or in whole, a single spurious testimonial. Every one of our testimonials are genuine and in the words of the one whose name is appended.

MORE GOLD FOUND ON MOHAWK

A few days ago the Guard printed an item to the effect that a ledge of gold-bearing quartz had been found near Fischer's mill in the vicinity of Marcola, but later printed a communication from a well-known citizen of that place that assays of the quartz showed no gold at all. In contradiction to the latter the Guard today received a report from a reliable source that the Hyland brothers, who operate a sawmill on the Mohawk had found a 3-foot ledge, and assays of the rock taken out showed that it contains from \$1.50 to \$7.50 worth of gold to the ton. This would indicate that the find is worth something, but it is not learned whether the property will be developed or not.

DR. DARRIN

His Phenomenal Record of Cures of all Manner of Chronic Diseases is Attested by the Following Fact

THE NERVOUS SYSTEM

The System Which Controls the Whole Body

The most wonderful part of man and most difficult of comprehension, perhaps, is the nervous system, which touches and controls every part of the body. Having its roots in the brain, its trunk extending into and throughout every muscle, limb and organ of the animal frame, it carries either life and health or disease and death along its course.

The brain secretes a nervous fluid which is magnetic in its effects and influences. The magnetic element travels along the nerves like electricity, from the roots of the hair to the tips of the fingers and through its telegraphic communication permeates the whole system. When the nervous fluid is deficient or when the nerves do not properly transmit it, weakness and disease are the inevitable results; electricity, the wonder of the age, roots the disease from its stronghold; it permeates the secret anatomy of disease and exterminates it root and branch. It removes the wretched symptoms of loathsome maladies, and averts their dreaded results. It relieves more agony and suffering than tongue can tell, as the following cures by Dr. Darrin show:

C. C. Presley, Grant's Pass, Or., deafness; cured. Wm. Sener, Medford, Or., deafness 20 years; cured; Chas. Carney, Jacksonville, Or., catarrh for years; cured. John Martin, Cove, Union county, Or., hydrocele; cured. Bart Kirby, Adams, Or., discharging ears for years; cured. A. F. McCrary, Jacksonville, Or., deafness 7 years; cured. Mrs. Martha Woodruff, Cleveland, Or., partial paralysis; cured. Ex-Judge G. Crockett, Merino, Or., deafness ten years; restored. Wm. Hunter, Eugene, Or., catarrh twenty years; cured. Miss Birdie Schmidt, Jacksonville, Or., discharging ear and deafness; cured. Owing to "hard times" Dr. Darrin has reduced his professional fees to those who have applied and not taken treatment or new cases to come the remainder of his stay, to \$10 a month or in that proportion of time required. The afflicted will do well to make a note of this generous offer; as these rates will last only for a limited time. The doctor's liberal offer and fall in price is not only a boon to the poor, but will be appreciated by thousands unable to pay larger fees. Dr. Darrin remains in Eugene at the Hotel Smeede until November 12.

G. A. R. CAMPFIRE A SUCCESS

The campfire given by J. W. Geary Post, No. 7, G. A. R. Saturday night, was one of the most enjoyable events of the season. The hall was crowded and over 200 persons sat down to the excellent supper and more than a hundred went home before the supper was served. Great credit is due the ladies of the W. R. C. and circle for the success of the supper. The program was as follows:

"Marching Through Georgia," by the audience.
Violin solo, Comrade Gossett.
Reading, Grace Meredith.
Rankin's phonograph.
Song, Marie Goodchild.
Drum and violin selections, Comrade Gossett and Joseph Meredith.
Recitation, Birdie Meredith.
Rankin's phonograph.
War Reminiscences, W. H. Burdick and Henry Darling.
Piano solo, Margaret Woods.
Reading, Maude Reynolds.
Recitation, Homer Collins.

QUEER RULING ON GAME LAW

In the circuit court at Albany recently John Schwatka, indicted for having a Mongolian pheasant in his possession during the closed season, was acquitted by a jury on the instruction of the court that "a dead bird is not a pheasant, but a carcase." The game warden's testimony that the defendant had the bird in his possession was held for naught, as the bird was dead.

Under this ruling it is almost impossible to convict violators of the game law, unless killing of the birds is seen by a witness.

ELKS' LODGE OF SORROW

Eugene Lodge, E. P. O. E., is making arrangements to observe the order's annual memorial day, the first Sunday in December, and has engaged Hon. P. H. D'Arcy, of Salem, to deliver the address at the lodge of sorrow.

Arrangements have not yet been completed for the exercises, but it is probable that they will be held in the Eugene theatre.

Mr. D'Arcy is not a stranger to Eugene people. He has spoken here before and is known as an eloquent orator.

J. E. MARTIN UNDER ARREST

Deputy Sheriff H. L. Bown left today for Wallace, Idaho, to bring back to Eugene J. E. Martin, formerly manager of the Singer Sewing Machine Co.'s office in Eugene. He was arrested at Wallace Saturday on the charge of forgery, Sheriff Fisk having wired to Sheriff Sutherland to detain him.

It appears that Martin some time last winter forged the name of Henry Schwering, a well-known Eugene carter, to a sewing machine lease. Schwering had paid cash for the machine, but Martin sent in his order as being on the installment plan. The company sent Schwering several requests for money and finally the latter informed the company that his was a cash purchase, and showed his receipt. Martin had evidently used the money for his own use. This was found out several weeks ago. Martin left here about a month ago and was traced to Wallace.

Sheriff Fisk received a wire this morning from Sheriff Sutherland stating that Martin had waived extradition and he will come back with Deputy Bown.

PORTLAND BUSINESS MEN COMING

Inbued with the spirit of co-operation, cultivation of better acquaintance and a more thorough understanding between the business men of Portland and of the cities and towns of Western Oregon, a special train party comprising representative citizens will spend three and one-half days touring the Southern Pacific Oregon lines.

The principal stops will be made at Salem, Albany, Eugene, Roseburg, Gant's Pass, Medford, Astoria, Corvallis and McMinnville. The train will also stop at Oregon City, Canby, Aurora, Barlow, Woodburn, Gervais, Hubbard, Halsey, Shedd, Junction City, Harrisburg, Creswell, Cottage Grove, Yoncalla, Drain, Oakland, Myrtle Creek, Riddle, Clatskanie, Leland, Merino, Gold Hill, Central Point, Plonox, Independence, Monmouth, Dallas, Carlton, North Yamhill, Gaston, Forest Grove, Hillsboro and perhaps other places.

The train will probably leave Portland Tuesday, November 14.

GOVERNMENT INSPECTOR ARRIVES

J. B. Knapp, the government expert, who has been appointed to take charge of the timber and stone testing station at the University of Oregon, arrived here yesterday afternoon from Portland, where he had charge of the testing at the fair, and will take active charge of the installing and placing the heavy machinery in the building now being constructed. The station is situated on the university campus, between the engineering building and gymnasium. It is a wooden structure, two stories high, 30x40 feet, with concrete foundation. The foundations for the 30,000 and 200,000 testing machines are also of concrete and are now ready for the placing of their load.

All of the machinery, including that necessary for stone testing, will be located on the ground floor, while the second story will be used for storage purposes. It is expected that work on the building will be finished in a couple of weeks.

Brevities

J. V. Reed and family have taken up their residence in Eugene. Mr. Reed is interested in Blue River mining properties.

Attorney A. L. Chezem today moved his office fixtures and library from the Dunn block to rooms over the Loan and Savings Bank.

O. P. Hoff, state labor commissioner, is inspecting the sawmills of Lane county to see that the law in regard to proper covering of dangerous saws and machinery is enforced.

In our list of awards secured by Lane county exhibitors at the Lewis and Clark fair, the Eugene Mill and Elevator Company was inadvertently omitted. The company secured a silver medal on flour.

On the E. M. Bailey place, north of the city, sorghum molasses is being manufactured successfully. Quite an acreage of sugar cane was grown this year and already 80 gallons of the syrup is due to the heart of the Southerner has been made and the work is about two-thirds finished.

The product is said to contain all the qualities of that made in the South, and is every bit as good. It is not generally known that the cane can be successfully grown here.

Mrs. H. Mulkey, mother of Mrs. Geo. G. Gross, has sold that part of her farm lying north of the county road west of Clear Lake, and is now building a fine residence on the south part of the place, which she still owns.

Five-year-old Harry Beeson, son of A. J. Beeson, a tailor located in the Gordon block, is suffering with a broken ankle as the result of getting his foot caught between the elevator cage and the floor of the second story of the building.

J. F. Gates, the real estate dealer, today exhibited on the streets a number of ripe raspberries and strawberries which grew in his garden. They are as large and look as luscious as those that ripen in the spring.

The apparatus which W. B. Dennis, of Black Butte, had on exhibition at the Portland fair for the extraction of quicksilver from the ore has been taken to the Smithsonian Institute, Washington, where it will remain on exhibition as a model.

Ralph Fenton, a well-known graduate of the U. O., and a brother of Horace Fenton, now a student here, has been chosen as president of the senior class of the medical department of the Northwestern University at Chicago. The class numbers 125 young men.

E. M. Warren has just received notice that he is to receive a gold medal as soon as it comes from the mint at Philadelphia, for his exhibit of sheaf wheat, sheaf oats and shelled grain at the St. Louis fair. It is somewhat tardy recognition of this excellent display.

From Cottage Grove correspondence: Andy Graham, of this place, will take charge of the Central and Imperial houses. He will completely remodel the Central and make it a first-class commercial hotel. Graham will conduct two hotels, one for the commercial and another for the workingmen's trade.

Mrs. D. B. Leathers, residing near Junction City, today brought to the Guard office a cluster of peanuts and three huge tomatoes, grown by her and her husband on their farm. The tomatoes were all on one stem. The peanuts are fully developed and seem as good as those grown in the South. Mr. and Mrs. Leathers grew three gallons of the nuts this year on one short row in their garden.

Geo. Melvin Miller, the hustling real estate agent of Eugene, was in town Monday. He has several prospective deals on with local parties for business lots on Main street, which if made will mean three new business houses that will positively be built between now and the first of June, and it is also rumored that two of Eugene's largest mercantile business houses are contemplating starting branch houses in Springfield.—News.

The Radical United Brethren College, of Philomath burned to the ground in that town Monday afternoon. The blaze started from a defective flue and no aid could be rendered, as there are no water accommodations in the town. The piano and chairs were saved, but the building was entirely consumed. The president is Stanley Watkins. It is not known what effect the fire will have on the town or whether the institution will be rebuilt or not.

Professor E. J. Moore, who has done considerable reportorial work for the Guard this fall, leaves on tomorrow morning's early train for Concordia, Wash., where he will assume the editorship and management of the Weekly Record. Mr. Moore is a good newspaper reader and will no doubt succeed in his new field of labor. His family will remain here at present. Concordia is up near the British Columbia boundary line.

Councilman L. O. Beckwith today showed to a Guard reporter a sample of the bituminous pavement now being used extensively in Portland. The sample was taken from a Portland street and will be exhibited to the members of the city council at its next regular meeting. At that time an agent for the material will probably be present for the purpose of explaining its merits with a view of inducing the council to pave the city's business streets, and to use the bituminous material.

Mrs. R. G. Daniels, of Salem, who had come here to visit her daughter, Mrs. W. G. Day, had a narrow escape from being crushed to death beneath the car wheels as she alighted from the train this afternoon. Mrs. Daniels forgot her cape after she had got off the train and boarded it again to get the garment. By the time she reached the steps again the train was in motion, and as the lady stepped off she fell and rolled toward the track. The onlookers held their breath and felt sure she was going to be run over, but the truck of the car wheels struck her and pushed her out of harm's way. She was pretty badly bruised on and was taken to her daughter's home in a vehicle.

WALDO LAKE RESERVOIR

Staan Klovdahl, the well-known civil engineer, returned today from near the summit of the Cascade Mountains, where he has been with a party of men for several weeks working on A. K. Black's Waldo Lake enterprise.

Mr. Klovdahl reports that over two feet of snow has fallen up there within the last two weeks, making the work disadvantageous and a great hardship on the men. The short cut trail through the heavy forest is completed, a small house built at the lake and construction work is being done, excavating a cut to top and drain the lake. As soon as the weather and the snow will permit, ample supplies will be sent in, permanent headquarters, buildings to accommodate the workmen will be erected and the construction work will be continued to completion.

No statement could be obtained as to what the reservoir works will consist of, or when the works will be completed on account of all the details connected therewith not yet having been fully worked out, but from the amount and the class of work already done and the amount of money already expended thereon, it certainly looks like business.

DROWNED IN WILLAMETTE

Junction City, Oct. 31.—Jens F. Jensen, a young man about 22 years old, was drowned in the Willamette river at the railroad bridge Sunday afternoon at 1:40 o'clock.

Jensen was employed on the work being done at the bridge, and it is not known how he happened to fall into the river. All the men were working on top of the bridge and Jensen was sent back on the bridge for some supplies. Shortly after he started back he was heard to call for help, when the men saw him struggling in the water. They ran down to the lower works and threw out a rope, but it failed to reach the man, and he went down for the third time before they could get to him.

The river was dragged and the body recovered in about 30 minutes, but it was impossible to restore his life.

The young man had no relatives here, his father and mother living in Denmark.

MANY DIVORCE CASES THIS TERM

There are 113 civil cases on the docket of the term of circuit court which meets Monday, November 6, besides the several criminal cases. Of the civil cases nearly one-fourth of them are suits for divorce, 27 in all. This is much more than the average for Lane county. The cases are classified as follows:

To recover money, 49; divorce, 27; foreclosure, 5; partition, 4; injunction, 4; to quiet title, 3; damages, 3; confirmation, 3; foreclosure of lien, 3; report of referee, 2; report of receiver, equity, possession of property and damages, possession of property, to set aside contract, to set aside deed, to enforce decree, to compel registration of stock, to recover property, foreclosure of contract, one each.

Born

At Coburg, October 8, 1905, to Fred Johnson and wife, a son.

At Coburg, October 23, 1905, to Edgar Tribble and wife, a daughter.

A Coburg, October 24, 1905, to R. W. Ingram and wife, a son.

To Frank Knapp and wife, in Eugene, Monday, October 30, 1905, twin boys, weight six pounds each.

Full of Tragic Meaning

are these lines from J. H. Stinson of Casey, Ia. Things what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At W. L. DeLano, druggist, guaranteed; 50c and \$1. Trial bottle free.

Hollister's Rocky Mountain Tea is positive, never nauseates or upsets the stomach. Cleanses and purifies the entire system. A great blessing to suffering humanity. 35 cents, tea or tablets. Lion Drug Co.

BREEZES FROM THE SIUSLAW

Salmon are rather scarce in the river and the catch has been pretty small for several nights past.

G. W. Knapp, of Glenarbor, took a load of apples from here to Eugene and peddled them for \$1 a box.

The gasoline schooner Sotoyome, of San Francisco, came in Monday and is loading with lumber at Acme.

The steamer Roscoe went to Coquille last Friday and returned Tuesday evening, bringing up the freight shipped on board the Oakland.

Wm. J. Kyle returned home last Saturday from a trip to Coos Bay, where he went on business connected with the schooner Sacramento and her cargo.

The Roberts went to Coos Bay Wednesday morning. On the way back they will call at the Umpqua and tow up Captain Larsen's diking machine, which is to do some work at constructing dike on North Fork.

Rev. I. M. Boyles returned home last Friday after an absence of some six weeks, during which he visited Blackley, Woodburn and other points. His congregation was glad to welcome him back.

While at Coos Bay last week W. J. Kyle sold the cargo of the Sacramento, to which was on the vessel when he went ashore, for \$250. The purchaser was Mr. Slestrom, of Coos Bay. The vessel was sold separately. West winds, which prevented the vessel from making off shore, is given as the cause of the wreck.—The West.

TRANSFER BUSINESS BOUGHT OUT

C. W. Ryan, recently from Texas, has purchased the M. S. Hubble dray and transfer business and will take possession tomorrow. The business will be conducted under the firm name of C. W. Ryan & Co., and will occupy the same office used by Mr. Hubble. All the old employees will be retained and the business conducted in the same satisfactory manner which has characterized it in the past.

Mr. Hubble will remain in the city and will probably enter some other business in the near future, but for the present will be associated with the new company.

Mr. Ryan has rented Mr. Hubble's residence and barn out on West Eighth street and will occupy it. Mr. Hubble and family are moving to rooms in the Shelton block, opposite the Guard office.
