## ONLY GUARANTEED CATARRH CURE

"Hyomei Costs You Nothing If It Fails" Say Hull's Drug Store

Among the many medicines upon the market that claim to cure catarrh none but Hyomei has enough faith in its own merit to offer to refund the money if it does not cure. This scientific remedy for catarrh kills the microbes and germs of the disease, and from its introduction, has been sold under a positive guarantee to return the money to all dissatisfied customers.

Hyomei is the only method of treatment that sends by direct inhalation to the most remote parts of the air passages, a balsamic air that destroys all catarrhal germs in the breathing organs, cures and purifies the blood with additional ozone, and makes permanent and complete cures of catarrh.

The complete outfit costs \$1, and comprises an inhaler, a bottle of Hyomei and a dropper. The inhaler will last a lifetime, and additional bottles of Hyomei can be obtained for 50 cents.

Breathe Hyomei for a few minutes four times a day, and your catarrh will grow better from the first day's use, and will be completely cured within a short time.

Do not try to cure catarrh with ordinary stomach medicines. Breathe the healing Hyomei which goes to every part of the air passages and respiratory organs, killing the catarrh germs and preventing their growth. It is the only treatment for catarrh where you can get your money back from a local dealer, Hull's drug store, in case it does not help.

## TO WEEKLY GUARD SUBSCRIBERS

With this week we have about finished the considerable work of mailing statements of accounts to subscribers to the Weekly Guard one year or more in arrears.

We find that in the aggregate the sum due us runs well up into the thousands—to give figures over five thousand dollars—a burden that our patrons should not ask us to carry.

As we state in our yellow colored statement of account, we pay our help, a considerable weekly sum, every Saturday night, while our bills for paper, ink, postage, telegraphic service, water and other accounts must be met monthly. "Must be met" we say—we cannot put off our creditors in these matters even a month.

We have not been insistent collectors in the past in fact, have been too easy for our best interests. Now we are at a point where we are compelled to make collections. By all paying their few dollars it will make us thousands. And if you pay no heed to your account low sent out we shall remind you of it the first of the year. If you can't pay now make certain arrangements to pay later.
