FRIDAY - NOVEMBER 17

He Did His Duty

It may or may not be significant, but the fact that President Roosevelt declined to write letters endorsing the Republican candidates for governor in Ohio and Massachusetts and the Republican candidate for mayor of New York is nevertheless worthy of interest.

President on Railroads

No one but will commend President Roosevelt in his determination to compel railroads to give shippers equal and exact justice, the same treatment for big and little, while at the same time the railroads shall be treated fairly.

Emperor Nicholas will not return to the winter palace at St. Petersburg, which he has not occupied for eighteen months, but will stay at Peterhof. When he attended the ceremonial of blessing the waters near the capital last January with the salute from the fleet came a hail of grape shot, but above the heads of the royal party.

The tour of Portland business men to Ashland and return will make little or no difference with the valley and Southern Oregon business men personally. It is the Portland business men that will be greatly benefited through getting out of their counting rooms and seeing many of them for the first time, the superb valleys and landscape of Western Oregon.

President Hegeman, of the Metropolitan Life Insurance Co., before the New York legislative life insurance investigation committee the other day, was forced to admit that of \$61,000 profit on syndicate operations or which the company furnished the money, the company got but \$16,000. He got the rest. A little more liberal than the man that killed a steer and gave the horns and hoofs to the poor.

ANY METHOD TO REACH ITS GOAL

The morning paper a few days ago reproduced two articles from the Guard in an attempt to show that this paper was two-sided. One of these articles was an editorial from the Guard of November 10th wherein this paper approved of the course of the voters of the country against political grafters, regardless of political affiliation.

How has it endorsed the president in his stand for right and justice in this state? Did it have complimentary words for the late Judge Belinger or for Francis J. Healy received its plaudits? What did the Oregonian say about the attitude of the Register in its futile efforts for those convicted or indicted officials who have the entire sympathy of Eugene's morning paper.

We publish the articles herewith just as they appeared in the Guard. The article from the Register, which might add, was handed us by a labor union man with the request to publish, which accounts for its appearance in the Guard. The two articles show who despisable the Register's course is.

(From the daily Guard Nov. 14th)

The San Francisco Election

All returns are in from San Francisco, and Schmitz is mayor of that city for the third time, says the Baker City Maverick. The corporate wealth of the city, along with a well-organized Employers' Association and a fusion of the bosses of the old parties, fought him with a venom that was as ugly as anything which can be found in the history of American municipal politics.

Doanless all that was said of Schmitz and the "boss" who has unquestionably had much to do with his administration, contain some elements of truth. Ruff, the boss, does not lay claim to but few virtues, civic or personal. He is an organizer, however, and when he came into power most of the old-time grafters around Frisco city hall went out of business. They have been out for such a long time that they have grown virtuous and they became the backbone of the opposition to the Schmitz administration and its further ambitions.

Personally Eugene Schmitz is appreciated by every one who has ever met him as being of fair and discriminating mind, and certainly during his administrations his native city has prospered. Talk to the contrary is a libel upon the town and emanated only from the brains of a billingsgate brigade bought with the heads of such fellows as Phelan and Herrin, the boodle disbursing boss of the Southern Pacific.

The picture-taking fad was responsible for what might have been a serious accident at Wichita, Kansas, Monday. Ninety men in attendance on a Scottish Rite convocation there got on a platform to be "taken." It broke with the load and they were thrown in a heap. Seventy-six sustained bruises, but no one was seriously hurt.

Dr. J. Whitcomb Brougher, of Portland, and by the way that "doctor" designation for a preacher and putting his name in the middle really both show bad taste, in a sermon the other evening on "Choosing a Husband," asserted that being an old maid was not so bad, or to that effect. How does the dispenser of intended sensationalism know?

Notice

My place, 4 1/2 miles sw. of Eugene, is hereby withdrawn from the market until further notice. ROLAND DERICKSON.

(From the daily Guard Nov. 10th)

The Election

Philadelphia redeems herself, and her citizens are conscious of having done something not only for themselves and their children, and their children's children, but for the nation at large.

Philadelphia has shown that corrupt men in high places can be brushed aside and that by united effort the greatest political rings can be wiped from the face of the earth. Mayor Weaver, elected by this corrupt ring and for many months its servant, was brought by the voice of the people to a realization of the conditions with which he was surrounded. He broke away from those in whose control he was and was sent back to the mayor's chair as the leader in one of the greatest reform movements ever undertaken in any city in the United States.

In New York city the big fight was made on Tammany, the greatest political organization in this country. So latent were many Republicans upon defeating Mayor McClellan that thousands of their votes were cast for William R. Hearst, the municipal ownership candidate, who has come within a few thousand votes of defeating the Tammany candidate. Hearst made a wonderful run, and has brought into New York politics a factor hitherto unknown and one that must be considered in the future.

But New York sent back Jerome to the office of district attorney. No people can be wholly bad in their choice of officers and New Yorkers proved this by scratching their ballots and marking a cross opposite the name of William Travers Jerome, fearless and incorruptible and a terror to all evil doers, be their station high or low. From the election of Jerome good citizens of the entire country will tender their thanks to the voters of New York and forgive them for their failure to oust Tammany.

San Francisco alone stands out in the limelight as having failed to make good its promise to "turn the rascals out." Schmitz and his ring of corruption remain in the saddle. With a majority of about 10,000 the man who is supposed to represent the laboring interests of San Francisco goes back to the city hall to be surrounded for another two years by one of the worst gangs of grafters ever turned loose upon the people of any Pacific Coast city. Laboring men of San Francisco have been duped again into returning this gang to office and that city must continue to suffer the disgrace attendant thereon.

Buying by Mail

Modern printing methods have made jewelry buying by mail just as safe as if you were buying at the big city stores. Lichtenstein Bros., 25 Stockton street, San Francisco, Cal., have issued a beautiful catalogue, depicting thousands of jewelry articles. The book sent to any address free.

The Ingham vingar factory has begun to receive apples. Highest price paid.

Sheep for Sale

Registered Cotswold bucks. J. J. Henderson, Cotburg, Or.

See Hull & Sons before you sell your WOOL.

FOUND PLENTY OF POW R

Civil Engineer J. H. Cunningham and his crew of men, who have been in the vicinity of Waverlyville the past two weeks making a survey of W. T. Campbell's water power site, belong in the employ of the city of Eugene, have returned, their work having been completed.

Mr. Cunningham was in consultation with members of the city council this afternoon and gave them some figures obtained by the survey. The power ditch will be four miles long, the location having been previously described by the Guard.

The fall will be 50 feet at low water and 50 feet at high water, which is several feet more than anticipated. Mr. Cunningham says that the point of intake is a good one and that the ditch can be constructed with little expense.

Surveys for the transmission line from the site of the power house to Eugene were made and the distance was found to be 14 miles.

The Guard was reliably informed today that the city will in all probability accept Mr. Campbell's site in preference to the one located by the city 14 or 15 miles further up the river.

TO WEEKLY GUARD SUBSCRIBERS

With this week we have about finished the considerable work of mailing statements of accounts to subscribers to the Weekly Guard one year or more in arrears.

We find that in the aggregate the sum due us runs well up into the thousands—to give figures over five thousand dollars—a burden that our patrons should not ask us to carry.

As we state in our yellow colored statement of account, we pay our help, a considerable weekly sum, every Saturday night, while our bills for paper, ink, postage, telegraphic service, water and other accounts must be met monthly. "Must be met" we say—we cannot put off our creditors in these matters even a month.

We have not been insistent collectors in the past—in fact, have been too easy for our best interests. Now we are at a point where we are compelled to make collections. By all paying their few dollars it will make us thousands. And if you pay no heed to your account now sent out we shall remind you of it the first of the year. If you can't pay now make certain arrangements to pay later. CAMPBELL BROS.

Fountain Pens

The best pen is the Parker, the lucky curve. Won first prize at the World's Fair. We carry a large stock of pens of different kinds, self-fillers and all. We are selling a good self-filler for \$2.

By using a 1200 washing machine enough just received to make a dozen homes happy. Chambers' Hardware.

Don't sow foul seed; get a Clipper fanning mill, the kind that cleans. Chambers' Hardware.

S.S.S. OUR RECORD

With medicines as with other things, the surest test of worth is the length of time they have the confidence of the people. The efficacy of S. S. S. has been thoroughly proven by experience, and so successful has it been that today it is the best known and most widely used blood remedy in the world. For diseases such as Rheumatism, Catarrh, Scrofula, Skin Diseases, Sores and Ulcers, Contagious Blood Poison, and other troubles due to an impure and poisoned condition of the blood, no remedy acts so promptly and thoroughly as does S. S. S., and thousands throughout the country, cured of such diseases, are daily recommending it to others similarly afflicted. ITS FORTY YEARS OF EXISTENCE HAVE BEEN FORTY YEARS OF CURES. S. S. S. is a blood purifier of the highest order, containing properties necessary to cure blood troubles of every character, and which make it the greatest of all tonics. It goes into the blood and drives out any and all impurities, and makes this stream of life strong and healthy, and when this is done disease cannot remain. Being made entirely from roots, herbs and barks, chosen for their healing, purifying and building-up properties, it does not injure any of the delicate organs or tissues of the body as do those medicines which contain Potash, Mercury, Arsenic or other harmful minerals, but cures safely as well as permanently. S. S. S. reaches deep-seated and inherited cases on which the ordinary Sarsaparillas and tonics have no effect. It is no experiment to use S. S. S.; it is a remedy with a record; it has proven its worth and ability by its forty years of cures. If you need a blood remedy begin the use of S. S. S.; write us about your case and let our physicians advise you and send book on the blood; no charge for either.

THE SWIFT SPECIFIC CO. ATLANTA, GA.

Dexter Items

Dexter, Nov. 16.—E. L. Williams went to Cottage Grove yesterday on business.
