Note and Comment

And now a college president would make new rules so football as the and fatalities would not be frequent. What do people go to football for, anyway? There is a lady who would nearly faint at a crushed worm clipping her delicate hands and exclaiming at the sight of her champions running over the brutes that oppose them, maybe kicking an ear or a nose off, or nearly so, and knocking in a rib or more—she wants no croquet or ping pong play upon the football field! What use of teaching the gospel of peace and good will among men when the mothers and mothers to be are treated to sights that make anything else than warlike heredity impossible?

The decision of the Presbyterian board of missions to refrain from prosecuting any claim for indemnity on account of the killing of the American missionaries at Lienchow about a month ago seems a sound one. Killed in their work, with every assurance of a glorious immortality according to the religion they expounded, why should their lives be paid for?

The automobile keeps busy providing the probate courts with much work handling estates of the rich. There is no use in such recklessness, driving the big and low wheeled machinery at the rate of thirty to forty miles an hour over roads on which the driver of a buggy would consider ten miles an hour fast enough for safety, and that with the higher buggy wheels more easily surmounting the rough places in the road.

Effect and Cause

With the irony the Pendleton East Oregonian thus disposes of the antiquated yet personal contention that the disorderly classes make the town they inhabit prosperous:

Because 20 thiborns and nameless women have left Pendleton this fall through the activity of the Law Enforcement League, the wheat yield nor the price of wool nor mutton will be affected. In place of these undesirable people who have left town at least 50 splendid families have moved here to take advantage of the superior school facilities. Cattle raising, sheep raising, wheat raising, corn, alfalfa, hogs and poultry will continue to thrive and produce wealth in this county if all the tinborns leave.

Such people do not make a good town—a good town makes them.

District Attorney Jerome, of New York, is a very big man since the election, at least he feels so—big enough to attack the supreme court bench of his state.

Unique in the liquor business, says an exchange, stands S. W. Shurtliff, of Baker City. He has kept saloon for twenty-five years and in all that time has never tasted an intoxicant of any form nor used tobacco. It is not seldom that the saloon man becomes too good a customer of his own wares to his physical and financial detriment.

That is a pitiable story that comes from Nome of some fifteen hundred horses being killed by their owners. They had been worked through the spring and summer, but with feed for the winter costing much more than their worth, besides if kept through the winter they would be unfit for work next spring through deteriorating through the intense cold, there was nothing to do but kill them—an act of humanity compared with turning them out to starve.

ALL-N.W. COLLEGE TEAMS

The sporting editor of the Oregonian each year picks and all-Northwest college football team and usually his judgment is good. He picks the following for the first and second teams for this year:

Quarterback, Lateurette, Oregon.

WHIRLED AROUND REVOLVING SHAFT

Monday's Daily Guard Henry West, an employe of the Fisher laundry on East Eighth street had a narrow escape from death this afternoon. While oiling a revolving shaft near the ceiling his clothing caught on a projection on the shaft and the young man was whirled around the shaft several times. His head struck on the ceiling and he was all but unconscious when his shirts, which were of thin material, were torn off and he was released from his perilous position. Had the shirts been of stouter cloth his death would have resulted.

A LITTLE GIRL BADLY BURNED

The five-year-old daughter of James Juman, residing about a mile and a half north of Crow was severely burned one day last week. The child was playing near a brush fire when her clothing caught fire. Her screams attracted her father's attention and he ran and extinguished the flames. The little girl's limbs and portions of her body were badly burned, but Dr. Canady, the attending physician, says she will recover.

BEATS LOCAL GOLF RECORD

Professor "Rick" Dearborn has beaten the local golf record. Saturday he covered himself with glory by making the following score:

Out, 9 holes—5, 5, 5, 6, 3, 3, 4, 3; total, 37.  
In, 9 holes—4, 5, 5, 5, 4, 3, 3, 4; total, 36. Grand total, 73.

This beats the former record for 18 holes by 7 points, and the 9-hole record by one point.

The Kind You Have Always Bought

VALUABLE PROPERTY BOUGHT

For some time past negotiations, which were consummated on Saturday last, have been quietly going on between E. J. Frasier and the owners of the Underwood property, consisting of 154 feet front on Willamette street and including the magnificent old family residence which originally cost upward of \$12,000.

This is one of the finest properties in Eugene, and with the 100 feet on the corner of Sixth and Willamette streets already owned by Mr. Frasier, makes a total frontage of 254 feet on Willamette by 160 feet on Sixth street.

It is Mr. Frasier's intention to make extensive improvements to the house in the near future, besides he has already let a contract for a fine two-story building on the corner of Sixth and Willamette streets, on the ground now occupied by the City meat market. The building on the corner will be moved north and the new structure will occupy the corner position. It will contain two store rooms on the ground floor and double residence flats upstairs, both of which have already been leased. This change will greatly improve north Willamette street.

The consideration paid for the Underwood property is not given out, but it is presumed to be somewhere about \$7000.

I heartily recommend them to all and don't intend in the future to be without them in the house. They are certainly a wonderful medicine to have cured such a bad case as mine."
