

THE MAGNET'S REALIZATION SALE!

For Betterment.

This store is not only improving to our service every day, but it is also a steady influence for betterment in merchandising in other stores. Haven't you noticed the general improvement around town since this store opened its doors for business a little over eight months ago and demonstrated what constituted an up-to-date establishment. That we have helped to improve other stores is an admitted fact. It is pleasant to realize that this is so. It is pleasant to look back to the start here of some good feature of public service and then to look around and see its adoption in other places.

We have no patent on our business methods. We are trying to keep this man's store best—that is all. To make it ever increasingly useful to you and to every one of the thousands who depend on this store for so large a share of their daily needs. When we start a good thing here it would be funny if other stores did not adopt it, funny and foolish, too, for we should soon be getting all the business instead of just the biggest slice of it. We shall count it one of our great privileges to not only be able to serve the public through the reforms and improvements in our own store, but also in some measure to be influential in bettering of your service in other stores in which you trade. We always sell better goods for the same money, or the same goods for less money, than any other store. If you will note carefully the prices quoted below and attend this sale you will find that our statement is true.
