SKS COUNTY TO DONATE MONEY

Robert A. Reid, representing the Portland Board of Trade, was in Eugene today. The Portland board has decided to put out a large book for the distribution in the East and is asking all Oregon to join in the matter.

The county court has been asked to donate \$700 or \$800 for a Lane county book and will consider it later. It is a good idea to follow up the fair with something of the kind and Lane county should be represented. Mr. Reid predicts that Oregon will gain 100,000 population in the next 15 months.

MINNEAPOLIS HOTEL FIRE

Many Persons Killed and Burned to Death

Fireman on Scaling Ladder Caught a Woman Who Jumped From Fifth Story—Both Fell

Minneapolis, Jan. 10.—At least ten persons lost their lives in a big fire which gutted the Hotel West this morning and over a dozen are missing. At the time of the fire there were hundreds of guests in the building. Many jumped from the upper windows on all sides and many to their death.

Captain John Berwin, fireman, was killed while trying to save Mabel Larson, who jumped from the fifth floor into his arms, which overbalanced him on the scaling ladder and precipitated both to their death in the street below. Judge Atwater, the oldest lawyer in the state, was rescued by a male nurse, who carried him five floors through dense smoke and water. William Davidson, the American consul in Manchester, was overcome by smoke and his condition is serious. He may not recover. W. G. Nichol, a broker of this city, jumped from the fifth floor and was killed.

The fire started in the elevator shaft in the basement, caused by crossed wires, and swept rapidly upward. The hotel is practically ruined.

The dead are Captain Berwin, Mabel Larson, A. G. Nichol, C. H. Wright, of New York, W. E. Magder,

of Duluth, Minn., an unidentified baby, its mother and grandmother and an unidentified man. Consul Davidson and a brother of Magner are dying. Twenty who were injured are in the various hospitals.

The senator received a telegram from the management of the Regulator steamship line stating that because of low water traffic on the upper Columbia is practically suspended on account of several rocks in the channel that obstruct navigation.
