

FROM LAUGHT BY THE GRIP-- RELEASED BY PE-RU-NA.

A Southern Judge Cured. Judge Horatio J. Goss, Hartwell, Ga., writes: 'I had a severe spell of grip which left me in a very weak and emaciated condition, with catarrhal trouble of the head and ears. My mother suggested that I take it to build up my strength and rid myself of the troublesome catarrh, and it acted with wonderful speed. I was able to resume my work in a few weeks. One reason why Peruna has found permanent use in so many homes is that it contains no narcotic of any kind. Peruna is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peruna does not produce temporary results. It cures.'

LaGrippe Is Epidemic Catarrh.

It spares no class or nationality. The cultured and the ignorant, the aristocrat and the pauper, the masses and the classes are alike subject to la grippe. None are exempt—all are liable. Grip is well named. The original French term, la grippe, has been shortened by the busy American to read "grip." Without intending to do so, a new word has been coined that exactly describes the case. As if some hideous giant with awful grip had clutched us in its fatal clasp. Men, women, children, whole towns and cities are caught in the baneful grip of a terrible monster. Have you the grip? Or, rather, has the grip got you? If so, read the following letters. These testimonials speak for themselves as to the efficacy of Peruna in cases of la grippe or its after-effects: Saved by Pe-ru-na. Hon. James R. Guill is one of the oldest and most esteemed men of Omaha, Neb. He has done much to make it what it is, serving on public boards a number of times. He endorses Peruna in the following words: 'I am 68 years old, am hale and hearty and Peruna has helped me attain it. Two years ago I had la grippe—my life was despaired of. Peruna saved me.'

PORTLAND HAS A SERIOUS CONFLAGRATION

Portland, Feb. 12.—This afternoon a fire broke out in the east approach to the Morrison street bridge between 5 and 6 o'clock this morning. It destroyed six frame buildings, including a lodging house and the side transfer company's barn, and killed twenty-five horses. The flames were so hot and the street improvements made it hard for the firemen to handle the fire. The fire is thought to have had an incendiary origin. The flames reached the approach of the bridge on fire. Up to noon six bodies had been recovered and four were identified as follows: Floyd Dailey, aged 9; Nate Young, a stableman; a son of A. B. Flanders and J. B. Hendee, a photographer. Among the missing are Hendee's wife and three children and an infant son of Mrs. Brown. Ten persons are believed to have perished and twenty were injured by the fire, which swept the district of frame buildings between Morrison street and Alder, on East Water street and down the river this morning. The injured at the hospitals are Mrs. M. Dailey, Floyd Dailey, a son, aged 15; Mrs. N. Edmunds, Mrs. N. Brown, R. H. Hanceck, Mrs. McEwing, Fred Kruger, L. G. Dailey, who is dying. Mrs. Browne says her husband was lost in the flames, but the body has not been found. Of the Dailey family, which conducted a candy and cigar store, the father is dead at the morgue and the mother, father and another son are badly injured. The fire burned with great rapidity. The buildings were built on piling and the draft carried the flames under the roadway to the Morrison street bridge, burning the approach of the bridge and frame structures on both sides of the roadway were soon ablaze.

COURT ORDERS TRESTLE PILING REMOVED

The county commissioners' court at its session yesterday ordered the Southern Pacific Company to remove its piling in the centre of the county road just west of the wagon bridge across the Willamette river at Springfield. The guard first called the attention of the public to this obstruction and there has been a general demand that it be removed. The court made the following entry upon its records: 'Whereas, The Southern Pacific Company has placed a row of piling in the centre of county road No. 16 to support the railroad track being built by the company between Henderson and Springfield in the county and the said piling is an obstruction to travel on said county road, it is therefore ordered that the clerk notify the Southern Pacific Company to remove the said obstruction without delay.'

They were married at Harrisburg in May, 1888, and have one minor child, Delbert R., aged 16 years. NO FEVER IN THE LOGGING CAMPS

A well known logging contractor reports that the reputation made at various times that the present typhoid epidemic originated in the logging camps on the upper river. He told a Guard reporter today that every camp that he knows a piling about is kept clean and there is no typhoid fever in any of them except one. The person afflicted resides in a low, swampy place and he contracted the fever at home. The contractor thinks it is an unjust accusation. He says that ordinarily it is hard enough to get men to work in the camps and if such reports are circulated it will be almost impossible to secure men.

Find's Little Fifth

James Turner, who was appointed by Mayor Wilkins as health officer, and who has been at work three days looking into the condition of people's back yards, says that in the residence districts he finds that a majority of the people have already cleaned up, but he has found several bad places, which are now being cleaned up. The worst places are in the rear of business houses, yet as a whole the city is as clean or cleaner than any city in the state.
