FRIDAY — — MAY 4

A map just published at San Francisco shows 453 city blocks burned. Number buildings estimated at 60,000.

Jonathan Bourne carried the Republican primaries. But he is still a long way off from the United States senate.

The extent of the relief extended San Francisco is shown by the statement that five hundred teams are employed hauling supplies to the 60-odd relief stations.

The women of San Francisco are getting some of the health if not pleasure that comes from camping out. They are cooking out of doors not only in camps but in the portion of the city not destroyed, pending rebuilding of flues.

Murdoch McDonald, Scotch if there is anything in a name, has a ewe in his hand at Arlington, Oregon, that gave birth to five lambs the other day. Not only much of a family sheep, but a profitable one. The ewe mother of twins seldom fails to repeat on subsequent occasions.

A St. Louis man, has killed his brother. He says he did it on a command given by their father thirty years ago, and to preserve future generations. It is not surprising to learn that he was just out of a sanitarium. He should be kept there when put back.

Some public men have a very bad habit. For instance a dispatch from Paris yesterday gave the information that Ambassador McCormick made a "long address" at the unveiling of a statue of Ben Franklin. He is old enough to know better.

Now we know that Dave Rose, of Milwaukee, really is a has-been, for he is going to Arizona to wait for a senatorship. One of the paying industries of Arizona is boarding ex-senators who want to be "on the ground" when the first senatorial election takes place.

It is against orders to build fires or use lights in remaining San Francisco buildings, a precaution against fire till flues and chimneys are rebuilt or pronounced safe and the water supply rehabilitated. Of course smart people disregard the order, generally but once, however, as some passerby is very liable to put a pistol shot through the window, a reminder of the law the infraction of which is liable to burn up the rest of the city.

The general opinion that the insurance companies were the biggest losers by the San Francisco fire is erroneous. They are to advance rates—will make insurers all over the country pay it. Now if they would even up things by distributing the millions of dollars in premiums they have taken from San Francisco among the insurers whom they propose shall pay the losses, there would be some fairness to it. Otherwise a Federal law is needed to discourage this kind of stealing.

In Multnomah county—both men are resident of Portland—Coke beat Bourne 2065 out of 7375 votes for United States senator, got 4720 to 2655 for Bourne. It is alleged that Bourne overcame this aid won the fight by hiring a man or men whenever obtainable in each county precinct to ask the support of voters. Of course, there is nothing really wrong in that, still we may see how an unfit or wrong man might carry his party in such an election, neither candidate being the least known to the voter, who would naturally vote as the friend who had the candidate's money and was working for him solely on that account, might ask.

"Come into my parlor," said the White House chief to the Democratic rabbits.

Zion City advocates peace, but to hold onto the "leaves and fishes" is willing to go to war.

Senator Burton is getting almost as "used to the courts" as Senator Smoot is to investigating committees.

In other words, Speaker Cannon says to his Ohio correspondent: "It will be a long time between tariff revisions."

But Mr. Carnegie, in his Tuskegee Institute speech, failed to suggest spelling reform in "negro dialect," and we are disappointed.

The rate bill advocates already see that even with the president's indorsement to back it, the "Long" amendment will be short of votes.

On his Western trip Secretary Shaw is said to have declared that he is aching to "just let out once." As soon as he gets back the president will no doubt see that his gag is still on straight.

Nobody seems to know the exact status of the vote in Chicago on the question of municipal ownership, but Mayor Dunne and his friends concede that "twas a famous victory."

No more free transportation out of San Francisco. In four days the Southern Pacific took out 225,000 people on 789 trains, probably the greatest railroad transportation feat ever achieved.

It is reported that the children of Millionaire Grant, of San Francisco, are missing since the fire. It does not look as if it would make much difference to the parents, as they left their little ones in care of a governess and went over to Europe on a "pleasure" tour. Wealth is responsible for some curious things, but none more curious than the apparent stifling of parental affection. Man is the only one of God's creation that deserts his young. From being generally put at the head of the class he should take the foot, at least in many instances.

SPRING CATARRH

Hull's Drug Store Sells Hyomei Under Guarantee of Cure

The changeable weather of spring is directly responsible for the prevalence of catarrhal troubles in Eugene at the present time.

As a result, Hull's drug store has had a larger sale for Hyomei the past week than ever before in the years that it has handled this reliable treatment for the cure of catarrh.

If there is a single catarrhal germ in the system, Hyomei will search it out and absolutely destroy it, completely eradicating the trouble. The remedy has made so many cures among Hull's customers that he offers to pay for it if it does not benefit even the worst case of catarrh.

The complete outfit costs only \$1, consisting of an inhaler, medicine dropper, and bottle of Hyomei, while extra bottles of Hyomei can be obtained for 50 cents. There will not be even this small expense if Hyomei does not cure, as Hull will return your money.
